GREAT LONDON FIRE. THE COMING STRUGGLE THE COMING SESSION Fifteen Million Dollars' Worth of Property Destroyed London, Nov. 22 .- One of the most

disastrous fires in London's history since the great fire of 1666, broke out in a large block of buildings lying east of Aldergate street and between that thoroughfare and Red Cross street, just after 1 o'clock this afternoon. The flames were fanned by a strong wind and fed by highly inflammable stocks of Christmas fancy goods and flimsy dress materials of every description, that filled every floor of the six-story

building in the old street. Consequently, the conflagration gained headway with surprising rapidity, and was soon far beyond the possibility of being For four hours and a half the flames

had their own way, and it was only after more than 100 engines had worked an hour that the chief of the fire brigade sent out the signal that the fire was under control.

At 11 o'clock tonight the fire is still the scene of great excitement. Fifty engines are playing upon the ruins; wagons are hurrying up, and tons of water are pouring into the fiery debris. Thousands of people are trying to penetrate the cordon maintained by 1,000 policemen, reinforcements for whom were sent up when at 5 o'clock an increase in the outbreak led Commander Wells to make a requisition for more engines upon the outlying stations. The scene must occupy the fire brigade for several days, especially in view of the grave danger of the collapse of the shells of buildings, which fall now

and then with a loud crash. The latest advices indicate that nearly 100 warehouses have been de-stroyed, while the loss will probably exceed £3,000,000.

The historic church of St. Giles has been much damaged, the principal damage being to the roof, the old windows, the baptismal font and Milton's statue.

Senator Chandler Talks of Work Before Congress.

Prospects for Hawaiian Treaty Good-Cuban Question Depends Upon President's Attitude.

Washington, Nov. 22 .- Senator W. E. Chandler, of New Hampshire, in an interivew regarding legislation at the coming session of congress said:

"Senator Lodge proposes pushing the measure looking to the restriction of immigration and demanding its passage without delay. Bills proposing to bar the undesirable foreign element from entering this country are now pending in both the house and senate, and there is no doubt that the two houses will be able to agree upon a bill. The house measure lays restrictions on what are called "birds of passage," but the senate bill does not. The class referred to is that which lives along the northern and southern border lines of the country, and embraces Mexicans and Canadians who work daily in the United States, but who live in their native countries. This part of the bill, in my judgment, eventually will be omitted, and the senate bill, which applies to immigrants from European and Oriental countries, will be passed.

"Some action, I believe, will be taken looking to the relief of the Cuban insurgents. Of course, the Republican policy will largely depend upon the president's message, but, my opinion is that he will leave the entire matter to the judgment of congress.

"The prospects for the ratification of the Hawaiian treaty are excellent. The Republicans will stand by it to a vote will be secured.

were it not for geographical considerations, John S. Runnells, of Chicago, would have been favorably considered. It was deemed impossible, however, to have two cabinet officers from Illinois. This same attention to political surveying has prevented the active consideration of Judge Nathan Goff, of West Virginia, who is too near Maryland to receive consideration. It is believed the president will not see his way clear to leaving the Pacific slope out of the cabinet, and in that event Judge Way-

An Astoria paper says that Clatsop county warrants are likely to be at a premium within 30 days.

This year over 700 cords of wood have been shipped from Brown's spur, north of Dallas, to Portland.

A number of settlers bound for the Coos bay country passed through Roseburg last week, in covered wagons.

Wallowa county cattle have been nearly all bought up, but there are a good many hogs left in the county.

Lincoln county's outstanding warrants and the interest thereon amounted to \$25,979, on September 30 last. Stock in Baker county is reported to be in excellent condition, and the loss this winter promises to be unusually light.

Travelers over the McKenzie road, in Lane county, report from two to seven feet of snow on the summit of the Cascades.

A band of 1,000 head of cattle was driven through Vale last week on the way to Ontario, whence they will be shipped East.

The financial statement of Gilliam county shows that on September 30 last there were outstanding warrants and interest amounting to \$24,201.

Several elk were seen in the vicini v of Emigrant Springs, in Umatilla county, recently, but as it was the closed season, they were not molested. Fishermen in the vicinity of Rainier are of the opinion that the light run of salmon in that section is caused by the heavy blasting along the shore, where the Astoria railroad is being built.

The treasurer of Coos county has advertised that he will pay all county warrants indorsed prior to November 1891. Interest on such warrant ceased November 15. This call will reduce the couunty's indebtedness about \$3,000. The 800 Angora gosts recently shipped from Boise, Idaho, to Pendleton, will he wintered near Pendleton. It is said to be the intention to ship them to the Klondike in the spring to make mutton for the miners. They are hardy andnimble animals, and can more easily be driven over the mountain passes than sheep. The work of taking spawn is now going on at the Mapleton hatchery. Over 500,000 eggs have already been placed in the hatching troughs. The sum appropriated for operating the hatchery this year is not nearly so large as it should be, but the work has been attended to closely, and considering the expenditure a great number of salmon fry will no doubt be turned out next spring. There will be 12 miles of American rails laid on the Astoria & Columbia river railroad begining at Goble. The English rails were not sufficient to complete the track. This new consignment is on its way from the East. The rails are of the same weight and size as those laid, 75 pounds to the yard, 5-inch base, 5 inches high and 2 12-inch ball. Tracklaying at the Goble end of the line will begin when the new rails arrive.
