Great excitement prevails in our town over some very, very rich rock that Robt. Ray has discovered near here. He refuses to tell the exact location of his rich discovery, and therefore we can't say much about it at present. Experienced miners say that if there is a good ledge bearing quartz as rich as the specimen shown that it is the richest discovery that has ever been made on this or any other coast. Time will tell.

Many useful presents were made. Although the gathering was impromptu all enjoyed the evening splendidly. A fine lunch was set, and all joined in wishing Mr. and Mrs. Turk long life and prosperity.

The following officers of Hoban Lodge, No. 22, I. O. O. F., were installed in this city, on Thursday evening, last, by the D. D. G. M.: F. C. Sels, N. G.; W. G. Overholt, V. G.; Phil. The wind has been blowing quite a gale for the past week, and some damage has been done. The show window at Dr. Howard's drug store was destroyed, and about \$60 worth of fine bottles and goods broken. The extreme gutter end of the Golden Eagle hotel was torn to pieces.

During the past week several free speeches have been indulged in on our streets. In one of the speeches the orator was loudly applauded by the blowing of horns, firing of China crackers, etc.

The dead-head after-dinner speeches of the great American literary laureate, Mark Twain, who never utters a free lunch, are an endless benediction of profit to the "patent outside" newspapers in this State, of which there are more than forty, and when you read one you have read them all. They are now engaged in dishing up "Mark Twain on General Hawley" and "Mark Twain on Babies" while the scanty half-dozen of original newspapers are endeavoring to attract population and capital to Oregon by annually compiling statistics to show our growth as a State. And it is not going to take the people long to discover, for themselves, in which of the two classes of newspapers the public can find their most faithful servants.—Empire

A Girl's Corpse stricken on Boys.—Boys is strange things. Boys is of three kinds. The baby boy, the little boy, and the big boy. I don't like the baby boy, because he squalls and kicks, and I have to rock him with a cradle. But if the big boy squalls or kicks, I can rock him with stones. I like the little boy the best when it snows 'cause he can haul me on his sled. A boy is a little man, if he behaves himself, and if he doesn't, he is a little devil; that is what mother said brother Bob was, the other day, when he told old Miss Smith that mother said she was an old bore. My papa says he was a little boy once, but mother says he wasn't, and she wishes papa was a little boy some more. Sister Julia says she don't like boys, and when I saw her and Tom Brown sitting in the rocking chair on Sunday night she said she was trying to squeeze the life out of him 'cause she didn't like him; but I don't think she was hurting him any place, for he wouldn't let her get up. This is all I know about boys, and mother says she hopes I won't never know any more about them.

Richard Smith of the Cincinnati Gazette was arrested yesterday on a charge of libel, in having published an interview in which Wappenstein, Chief of Police, was assested to be in complicity with the gamblers. Released.

Czar of Russia.
We congratulate the Czar of Russia upon a narrow escape from an attempt on his life. In starting for Moscow, his baggage was sent on ahead, he, starting soon after passed it and reached Moscow safely, while the baggage was blown up. A tunnel was found running to a house one hundred and fifty feet from the point where the explosion occurred. It is supposed the author of this bolshik plot was suffering from a diseased mind superinduced by severe pain the back and kidneys. To prevent a repetition of like occurrences, it is said the Czar has sent to Hodge, Davis & Co., Portland, Oregon, for a large shipment of the Oregon Kidney Tea.
