He also had one that was from the claim of Sam Hillis, of Marysville, that weighed \$50.25. They are beautiful specimens and show that there is gold here yet.

HARNEY ITEMS.

FORT HARNEY, April 16th, 1880. EDITOR NEWS:—Considerable excitement prevails in the southern part of this county over a reported outbreak of the Piutes who have been roaming between Whitehorse and Fort McDermitt.

The reports and cause of the excitement which have reached here are so varied and contradictory that I do not care to "father" any of them. But from all accounts the devil is getting into the Piutes again and doubtless they will resume their old business when fine weather sets in. "The troops must go." An official communication to the Ass't. Adjutant General, Dep't. of the Columbia requesting authority to burn decayed lumber which had been lying around the Post here was returned with the endorsement that it had not been decided yet whether the Post would be abandoned, but the ink was hardly dry on the endorsement when the following official telegraphic despatch was received which explains itself:

To Com'dg. officer, Fort Harney, Oregon:—The Secretary of War has authorized the abandonment of your Post as soon as condition of roads permit. Detailed orders and instructions will be sent later.

GREEN,
A. A. G. Dep't. Col.

Happy Valley was the scene of a stabbing affray a few days ago which came near ending the career of one of the participants.

Albert Edward Bolenbaugh and Edward Evert Kyger, two young bucks who "winter" in Happy Valley, were compelled by stress of weather to "go out after a" load of wood at that place recently. It seems that Albert Edward had been boasting of his conquests among the fair sex over in the John Day country, from which place he had recently returned. Upon their return with the wood young Kyger, in presence of a large crowd, "pitied the poor girl that would have to depend on Al to get wood for her." This made Albert "hot" and he forthwith commenced to maul the stuffing out of Kyger, whereupon the latter drew a knife and stabbed his adversary three times inflicting painful though not dangerous wounds.

General verdict of Happy Valley people: "Hope they will have sharper knives next time. T.

A Piety Flat man went home late Tuesday night, and as he "wollered" himself into bed his wife asked him in a sharp tone where he had been. "Sohstain with caudave froffs," said he. "Seems to me," she replied, "that from the sheep dip and poison oak smell of your breath you must have promised all of them your vote!" "Yes (hic) madame, I'm committed; don't try to influish me. Less go to shlep."

COMMUNICATED.

THE DALLES, Ogn., April 12, 1880. TO THE EDITOR OF THE NEWS:—THE GRANT COUNTY NEWS was misinformed as to the character of Harry Burstow, who was killed by Gid Bescham.

We the undersigned, from acquaintance and by reputation, some of us having known him for eight years or more, do testify that Harry Burstow, late of Grant County, Oregon, although a man of courage in defence of right, would scorn to take advantage of his fellow-man or do a mean act even to an enemy.

The Coos Bay News says: Tom Hall and his brother Alex, were examining the complications of an improved Smith & Weston revolver; while in the hands of Alex, the weapon was mysteriously discharged, the ball entering Tom's right side, striking and following a rib to within about a half an inch of the spinal column, where it made its exit.

Immediately upon their arrival work will be commenced between the depot and Kinery's mill along the different routes suggested for the laying of the old track.

Senator Slater, of Oregon, has introduced a bill which provides for granting the right of way to the Astoria and Winnemucca Railroad company through the Willamette Valley and Southeastern Oregon to Winnemucca. The bill proposes to pay the company \$1 an acre for all lands disposed of by the Government in even sections within the tract bounded east and north by the Willamette and Columbia rivers, west by the Pacific Ocean and south by the base line passing through Portland. Payments are to be made as fast as railroad sections of 20 miles each are completed. The lands are subject to ordinary homestead and pre-emption entry and also to private entry at \$2 50 per acre, in quantities not exceeding 160 acres to any one person, except mountainous and timber lands, of which 320 acres may be purchased.

New York, April 9. The Public, comparing business for the last quarter with the corresponding period of 1879, shows the aggregate gain in exchange, outside of New York, to be 40 per cent notwithstanding a decrease in San Francisco. The gain in the aggregate at all cities is 55 per cent, no part of which is due to activity of speculation here. Comparing last month with March, 1879, the following shows the percentage of gains at the principal cities: New York, 84 1/2; Boston 46; Philadelphia, 50; Chicago, 64; St. Louis, 33.9; New Orleans, 33.8; Cincinnati, 36.6; Baltimore, 40.8; Louisville 28.5; Pittsburg, 37; Cleveland, 47.1; Kansas City, 68.3 San Francisco shows a loss, during the month, compared with March, 1879, of 10 per cent, and during the 1st quarter, compared with the first quarter of 1879, 9.1. As the increase in average prices has been only 20 per cent, the returns from every city except San Francisco and Syracuse, indicate an increase in quantities of produce exchanged.

The Oregon Kidney Tea.

Read the following testimonials, not from persons 3,000 miles away, whom no one knows, but from well-known and trustworthy citizens of Oregon, whose names, written with their own hands, can be seen at our office:

Eugene City, Oregon, Oct. 20, 1879. I hereby certify that I was suffering from an attack of backache so severe that I went about doubled up, and could not straighten up. I used one package of the OREGON KIDNEY TEA, and I am fully persuaded that I was restored by its help.

J. W. LENGER.
HARRISBURG, Ogn., Dec. 31st 1879. I have used the OREGON KIDNEY TEA for pains in the back, and I am satisfied with its effects, and do not hesitate to recommend it as a mild and safe remedy.

Five-Cent's Worth of Opinion.

I have been asked several times, my views in regard to cattle, what I thought they would do as a business, profitable or otherwise; while I have been asked these questions cattle have been at their lowest prices and that was the reason. Why? Because man in any kind of business unprofitable is like the dying man grasping at straws. Any relief they may get is benefit. The opinion can do no harm. I have always answered that cattle being one of the necessities of life and the cultivating of the land on western frontier drives the free access of grazing before it, and having some knowledge of the vast amount of emigration that is settling up this coast (and the only country that will support the bovine with out, I might say, any care whatever, Summer or Winter) it is easy to see that there will be a corner and with the prospect of railroad envoirs that now surround us I think the gap is nearly closed and the corner not far off.

One of the great troubles in profits of cattle is in selling beef. In the first place they are sold too young and have been too low for profit and no system about the business. The butcher buys cattle at the seller's price. Why? because he gets them on time and when he commences to sell on time because he thinks he can stand it if the other fellows can, and so it goes. Under this system it is a detriment to the whole community. Establish a price of 5-cents, cash, and it will be a benefit to the men that have got beef cattle to sell and a protection to the butchers.

Mr. Peter Freon, of Warner valley, made our town a flying visit this week. Mr. F. is just from a California, where he has been since last January, but through one of the hands from his stock ranch at Warner valley he learns that the loss of stock here will be very great. He estimates it at nearly one half. Snow is abundant and the valley covered with ice to a considerable depth.—Examiner.
