[Albany Register]

Parties have been writing to Washington from time to time charging that the Albany Lebanon & Santiam Wagon Road was a fraud in this, that the Co. had obtained a large grant of land from the Government for nothing, having built no road through the mountains, Col. Prosser was sent out to Oregon and directed to go over the road if there was one, and see whether there was truth in these reiterated charges. In September, Col. Prosser, accompanied by Jason Wheeler, Esq., started over the road from this city in a two-seated hack, and proceeded to make an examination of it to the eastern terminus, Malheur Lake. The trip occupied twenty-six days. They found, as Col. Prosser expressed himself, a good mountain road all the way, and the Col. spoke most emphatically of the parties who had wantonly misrepresented the facts in the case. Mr. Wheeler informs us that this end of the road is in fine condition, but at the other extreme end some work should be done to bring the road up to what it is intended it shall be—a good mountain wagon road. They bring a good report of the settlers along the road; all are doing well. A short distance this side of Harney Valley potatoes were produced that weighed 2 1/2 pounds each, and vegetables generally produce well. A nine-acre field of oats produced this season 600 bushels. Harney Valley is about 60 miles long by thirty wide, and is as level as this valley. The ground is rich and productive, and will sustain a very large population. The principal interest in that country however, is stock raising, which, in the last few years, has grown to be of immense magnitude. The Yaquina Bay & Boise City railway will pass clear through that country, which will at no distant day be teeming with population. Speed the railway.

The Columbian thinks that if St. Helens were incorporated it would be a great advantage in some respects. They could pass a hog law and at least abate that nuisance.

CINCINNATI, OHIO, **TOP BUGGIES AND PHLEATONS,**

Best material, good workmanship, handsome styles, strong and durable vehicles in every respect.

70,000 Carriages Manufactured by **EMERSON, FISHER & CO.,** are now in use in every part of the **American Continent.**

They give unflinching satisfaction. All their work is warranted. They have received testimonials from all parts of the country of purport similar to the following, hundreds of which are on file subject to inspection:

GALVA ILLS, July 16, 1879. MRS. EMERSON, FISHER & CO.: I have used one of your Top Buggies three years, and three of them two years in my livery stable, and they have given me perfect satisfaction and are in constant use. Messrs. COPPER & JOHNSON: NEWBERRY, S. C., July 17, 1879. Dear Sirs,—I have been using the Emerson & Fisher Buggy I bought from you as roughly I suppose as any one could. I had a fast horse, drove him at full speed, so met with two grown ladies and myself in the buggy, and it is to-day worth all the money I paid for it. I say the Emerson & Fisher Buggies will do it. A. M. TEAGUE, Farmer.

The favorable reputation the Carriages have made in localities where they have been used for several years by Livemen, Physicians and others requiring hard and constant use, has led to an increased demand from those localities, to meet which the manufacturing facilities of their manufacturing establishment have been extended, enabling them now to turn out in good style,
