READ THE OPPOSITE PAGE

We have a "big mad on" this week, or in other words we are "hostile" and we are going to let it out. So if we offend any one all they have to do is to say so, and come at us. So here goes.

THIS CITY.

We hear of a number of persons that desire to build in Canyon City "if they could get a lot." And we also hear people say, and in fact we have spoken publicly, that if the slaughter houses were moved, that quick a village would spring up on the opposite side of the creek. But several of our citizens have come to the same conclusion that we have, that there is a curse hanging over a portion of Canyon City, that if removed would give more and better lots to build on than can be secured on the opposite side of the creek.

We refer to the monopoly of the lots below China town and up town Gulch. No one is allowed to even build a wood shed up town gulch, much less a house, and dozens of good lots are fenced up below China town for the sole purpose of preventing people from building thereon. In our opinion it would be a good move to secure the opening up of those lots and then go for the slaughter houses. If persons could have built up town gulch and down below China town many new houses would now be standing where now nothing but a pile of shavings can be seen, or where an unused flume greets the eye.

We know of two persons that tried to secure lots below the furniture store of Sam Sired for the purpose of building business houses and residences thereon, but they were answered "that the lots had been fenced up a purpose to keep people from building thereon." While the citizens have such hindrances as the above to thwart the growth of their city they can't expect a large town here.

It is astonishing to us to see how much energy some of our exchanges show in giving the vote of their own County to their readers. For instance we have before us four exchanges that were issued from two to four days after the election and in one we find the startling news that "Oregon has gone 1200 Republican," and the vote of its own County is not given. In another we find that Baker County has gone "about 300 Democrat," and not a word about how its own County went. In another we find that it does not give the vote of its County, but presents a few hieroglyphics, a big "229" and a "cock." In the fourth we find no vote of its County, but instead the vote of nearly every State in the Union. Really such energy is highly commendable, and more especially so, because the papers referred to are partisan journals.

Bad Order.—The road hence to Canyon City is in abominable shape, and should be repaired if we expect any trade between Grant County and this town. If it is not speedily repaired so as to be safe for the big prairie schooners, we may expect to see the trade of that section turn off at Bake-oven and go down Grass Valley to some of the near stations on the railroad above Celilo. It is true we have had this trade for a number of years, but there is no law to compel it hither. We must give those people good roads if we expect to hold their trade.—Empire.

Correct, Bro. Merry, and the sooner the road is put in or order the better it is for your town.

NO SUCH MEN HERE.

One thing noticeable in the audience that attended Mrs. Duniway's Lectures in this city was that a large part of the congregation were ladies. This was due, no doubt, to the fact that we have no such men in Grant County as she met at Walla Walla, or in Southern Oregon. That is to say the men in "the Bunch Grass Region" are not such as to fear that if their wife went to hear her that the mother-in-law might not turn over the property to him that was left her by her husband, or that Mrs. D. might say something that would be liable to lead his wife to think he was a boaster, or a brute that wanted to barter himself off for the hard-earnings of her deceased father and must keep her and her mother apart from the advocate of woman's rights till he secured the property in his own name. No, we have no such men in Eastern Oregon, but they have in Walla Walla. Neither have we any men that do low, mean, dirty tricks and for fear the wife or daughter might find it out by attending her lecture forbid them attending and even go so far as to get a lot of "hoodlums" to burn Mrs. D. in effigy, or egg her. No, thank God, we have no such men in Grant County [they have in Southern Oregon] that are so low in the scale of human depravity as the two cases mentioned, but instead we have MEN and MEN men at that, hence Mrs. Duniway had good houses and ere long we hope that our people can say, "I heard the lady lecturer that has done more for the cause of woman's freedom than any woman in America."

"A Thing of Beauty is a Joy Forever."

Now, Ladies, if you desire to "catch a fellow" before the year is out, go to Miss Douthit's and lay in a supply of millinery. We pledge you our word that she can rig you out to a dot, and the man that won't fall in love with you after she has "rigged" you out will deserve the name of Coward. She has just received direct from the most fashionable city on this coast, the largest and finest assortment of Millinery, containing all the latest novelties in flowers, ribbons, velvets, brocades, ornaments, mentors, beaver hats, felt hats, and French Bonnets ever brought to Grant County, and she sells them so low that you need not be without a full outfit of fashionable beau catching toggery. We know what the men like to see and we know that Miss Douthit can rig you out. Go see her.

In The City.—Mr. Jos. Middlemiss, Special Agent for the New England Mutual Life Insurance Company, is in the city and will remain some days. The Company he represents has been incorporated 45 years and has stood the test of all the p n e s, epidemics and losses in 1 to-day stands first and foremost among Life Insurance Companies. A policy in his company means a legacy for your children and widow when you die, as a policy in it is not forfeited even if they have lapsed for five years. No other company does such a business. It will cost you but a few dollars a year to secure a fortune for your family when you die.

Mrs. R. E. Lockwood, of this city, fell on a board a few days ago and broke her left fore-arm. She is getting along as well as could be expected with such a hurt.
