How Air Brakes Are Used. "I'll bet not one in a hundred best friend, and devour his "sis- of the people who travel on railfevers can all be prevented by ters, his cousins or his aunts" road trains understand how the simple rules of life, and these rules with impunity. I say like his pressure of air is used to apply These diseases are symptoms of a low master, as the only persons who the brakes to a train," said a railown "Bunjaras" are the crimin. road man, "When the air brake story has settled down into an This blood is made impure because at tribes, and principally the was first invented the air was uninterrupted sing-song which water, these impurities being deadiy "Bunjara" tribe. Now, the turned into the cylinder under shows no prospects of reaching poisons which paralyze the nerve action of the kidneys and liver. When these blood purifying organs are and here rearros and variable of the narraaction of the kidneys and liver. When these blood purifying organs are are born rogues and vagabonds, erted to force the brakes up tive. All in vain, for the tedithe body—the use acid—accumulates and the more evil they can do, in the blood, and lever cannot be prevented until this excess of unc acid the more wrongs they can compresent day the brakes are held present day the brakes are held by the deprecentation where the constitution of the tedimit, the softer their bed and the against the wheels by springs, and life is pure water. Two-thirds of one's more pleasurable their life in air is turned into the cy inders to of his hand, and goes on in his body is made up of water. If the Valhalla when they die, which | 1 ush the brakes away from the monotonous way with head can we hope to escape diseased con- many say they seldom do nat wheels as long as the train is in thrown back and eyes half closed It is impossible. The stomach, urally. The "Bunjara" dog is motion. When it is desired to in an eestasy of delight at havliver and kidneys cannot purify pol- like this, only more so. He is stop the train, the air is let out, ing secured a listener. After some cautious people resort to the senning fox, an insatiable hat-brakes and stop the train. This to the inevitable, adopts the filter for purifying this water, but even the filter does not remove this er, a consummate villian, yet he last method of using the air pressum wisest course in the circum poison, for water of the most deadly has some good points. He can sare has great advantages over the stances, and dozes off to sleep and become clear, yet the poison, and will hold out to the last old way on the score of safety. They who use filters know that gasp; he never tires, and to one Whenever an accident happens to again. The bore is so satisfied they must become renewed at regular and only one does he ever give a train, one of the first effects it is with himself and so engrossed take out all the impurity, they soon allegiance, and to him he sticks, apt to have is to rupture the air in his tail that he never notices Of women he is a despiser, re. pipes leading from the engine to this, and still goes on, seesaw, kidneys act as a filter for the blood, garding them as his master does the cylinders under the cars; and sing-song, with never a stop till only as a "means to an end." that of itself stops the train in the audience, or at least, one of stantly. It is very important that In color he is dark brown or everybody understand this matter, captain. But a mysterious for it is now a conceded fact that the gray, shading to black; his coat because a child five years old can the blood is purified. These organs is close, like a mastiff's, but stop a train in thirty seconds from are filled with thousands of hairlike tufted on the elbows and hocks, any car in the train, if he simply ghost of horrible appearance, from the blood, as the sewer pipes and feathered down inside of the understands. You will see, if forelegs; his tail is carried tow you look f r it, that there is a sort lings on earth, hops in unseen to except when excited, and has a of rope pro cting from the toilet to befrend the captain. He ous gas; so if any of the thousand good deal of brush, especially at room of every car. That connects squats silently behind the chair and one little hairlike sewer tubes of the kidneys break down, the entire body is affected by this awful head, and only slightly raised a little jerk it will stop the whole train before it has gone two hund

twenty-seven inches to thirty- girl only twelve years and five one inches at the shoulder. He months old who stands eight feet of ten ailments, just as sewer gas is not so ferocious, either, but high and weighs over 270 pound suddenly that it leaves him with and bad drainage produce so many has equally good pluck, and Her hands are nine inches long open month in the middle of a

pig, and, in fact, his skin much lived in this country long enough hazy inattention, evidently thinkpeople never wash or bathe, have tale, and dozes off again immeno rulers, no form of government, diately. The bore, abandoned their lot, not knowing anything specter, rurs hither and thither

is used both by natives and Eu-ropeans, principally for hunting three months and a half been wherever he goes, now clubbing, the tiger and panther. He is lying in a death-like cataleptic now clutching him, until at last most faithful to his master, and trance, is beginning to emerge the poor wretch makes his escape from her long slumber. She is half dead with fright, and the gradually getting brighter, but the return is so very gradual There is another breed of dogs that those who are about her which combines the blood of all can scarcely notice an advance, side like a iaithful dog whoes the sundry.
