Don't skip the advertisements in reading your paper. The advertisements show you who the live business men are. All persons who have trading to do, will find that it pays to deal with those who advertise. The man who hangs out his sign through a newspaper is not ashamed of his goods or his prices.

The inspired goose quill for which we advertised last week has arrived, but owing to the unprecedented rush of advertisements it has not inspired a great deal of news into our columns. The quill came in the Harney mail last Tuesday, and was labeled "That inspired goose quill," and addressed to the editor.

It is reported that Mrs. Susan A. Dore, living near Pilot Rock, Or., became deranged and wandered away from her home last May since which she has never been heard from. Every effort has been made by her husband to find her, but without avail. She is fifty years of age; medium height quite gray, and weighs about 165 pounds.

Deputy Sheriff T. G. Smith was over in the North Fork country last week on official business, and a very exciting and thrilling experience he had. Johnny Nealen sent him out after a man named Ramsby, who was on his way to Arlington with a load of wool or something which Johnny claimed. After that matter was settled the two contestants wanted to man each other to death with a log chain, about a wagon which they both claimed. Smith had to act as peacemaker, and between that job and the other business, the officer had his hands about full.

The North Pacific Industrial Association will give an exhibition at Portland, this fall, of the various products of the Pacific Northwest—animal vegetable and mineral—and the management desires to have an exhibit from every county in the state on this their first annual exposition. Let Grant county not be behind other counties of Oregon, but let's get in and ride with the boom that is beginning to shake up the state. Above all, Specimens of Grant county's mineral wealth should be displayed before the world, and our grasses, grains and fruits should have a place in the exhibit. For further information address J. P. Kohler, Superintendent, or enquire of the County Clerk, who will shortly be supplied with blanks, rules and regulations, applications for space, etc.

Residents of the Haystack country will petition the next legislature to set them over into Morrow county, thus Grant will lose a valuable strip of territory—should such a bill become a law. That done, and Harney county taken off there will not be much of us left.

Deputy Sheriff Tom Smith, who was over on the North Fork on business last week, attached the Hunsacker band of horses on a warrant issued out of the court directing the sheriff to make a levy upon, and sell them to satisfy a judgment of some \$800, the costs in the suit of State vs Hunsacker, tried at the spring term of court, at which time Hunsacker was convicted and sentenced to four years in the penitentiary for horse stealing. Tom secured the horses, after considerable difficulty. He has gone over there again, and will sell at public auction the animals as the law directs.

On Thursday afternoon, Aug. 9th, many persons heard a rumbling sound resembling thunder or cannonading. Some believed it to be a blast fired in some of the numerous mining camps, some didn't know what to make of it, and others didn't hear it at all. Over on the Malheur a report like a cannon shot was heard, followed by a series of rumbling, rolling noises, resembling distant thunder. Regarding this disturbance of the tranquility of the waves of air we have an explanation to make—in other words we can a tale unfold. Mr. A. C. Hall, who was in town last Thursday, said that on the afternoon of the 9th he was at work in his field, when on looking towards the eastern horizon he was surprised to see an immense ball of what resembled fire, apparently traveling in a northwesterly direction. He turned to call the attention of Tom Croft to the strange phenomenon, and when they looked around again it had exploded, and nothing could be seen of it but some blue smoke. A moment later they heard the report and roaring sounds. Brethren, it was the explosion of an aerolite or meteorite which we heard, and the fragments fell somewhere in the Malheur mountains, or over in Idaho.

He had not gone far when he came upon a piece of a St. Paul newspaper which some teamster had thrown away. He picked it up eagerly and the first words which struck his eye were contained in the following glaring head lines: "The Northwest is Overcrowded. No Room for Young Men."

Another Cure of Deafness.

MR. EDITOR: In justice to the public and to Drs. Darrin, I will state that I have been afflicted with an offensive discharge from one of my ears; also was very deaf in the same ear, for some time. I visited Drs. Darrin to consult them in reference to it, and for treatment, which they assured me they could cure. Now, after three weeks' treatment, I am entirely cured, and am free to be referred to at 1340 Railroad St., Tacoma, W. T. MARTIN HANSON.

ASTONISHING CURES BY ELECTRICITY.

The Prevalence of Catarrh and its Effects on the System.

From the Portland Oregonian.

In Portland and the whole Northwest the catarrh and bronchial affections are alarmingly prevalent, and too frequently they are neglected until the most serious consequences ensue. Nothing seems more common than a cold or sore throat, and yet they each frequently lead to years of suffering, resulting in consumption and death, if not properly attended to in time. Deafness is another distressing affliction often induced by catarrh. That Drs. Darrin have effected extraordinary cures after all efforts elsewhere have failed, is a fact supported by the strongest evidence. Their cures, moreover, are rapid and permanent, as the following very remarkable case will show. The Rev. M. M. Bashor is a man well known in Oregon, and his word can be relied upon.
