At the conclusion of a sermon somewhere in Iowa, the preacher requested some one to pass the hat and take up a collection. A young man jumped up and commenced circulating the hat in such a manner as to finish the job and pass on with the proceeds. The preacher, eyeing him as he went out, observed: "If that young man runs away with that money, he'll be damned!" A demon, sitting by the window, seeing him make off down the street, responded: "And if he hasn't run away with the money I'll be damned!"

Dumley (whose credit is not first-class) says, Brown, can you lend me ten dollars for a few days?  
Brown (reluctantly pulling out a roll of bills) I am afraid I'll have to Dumley.  
Dumley: Thanks, You seem to have plenty of money, old fellow.  
Brown: Yes, I seem to have more money than brains.

**LOG CABIN LOGIC**  
Brawn and Brain!  
The powerful engine, with its wonderful propelling power, coupled to the long train that freighted with the circles of the fabric of the industrial looms of the centuries—what obstacles can stay the progress of this mighty force, when once under full steam along life's highway.  
The American with brawn and brain does not see the necessity for lites of nobility, does not care for elevation by descent, he can reach out and pick the stars.  
But with brawn and brain impaired, a man is badly handicapped in the mad race for success which is the marked characteristic of the present age.  
The physician's system is a most intricate piece of machinery. It ought to be kept well regulated, so that it will work harmoniously in all its parts, then it is capable of an immense amount of work.  
It is said that a watch, if expected to keep perfect time, must be wound daily. It will not keep time unless it is "wound" regularly. Men break down because they don't "wound" their system regularly. It is claimed by physicians that few men are killed by hard work. It is the irregularities of modern social life that the life rate is high. Men burn their candle at both ends, then wonder why it burns out so quickly.  
The main thing in keeping the human machine in good working order is to keep the regulator all right. "The blood is the life," and sound health is assured so long as the blood flows through the veins in a steady stream of purity.  
Regulate the regulator with Warner's Log Cabin Sarsaparilla, the old-fashioned blood purifier, prepared after the best formula in use, by our ancestors in good old Log Cabin, and with the vigor of brawn and brain which must ensue, in your life's lesson you will find no such word as fail.
