**Underservedly Laughed At.**  
The unthinking are prone to make some serious accusations. Yet this is a very real and serious affliction, the harassing symptoms of which are relieved all the more promptly by Dodd's Soda Saleratus. The stomach is usually responsible for these symptoms—its weakness and indigestion a reflex in the brain, which is the headquarters of the nervous system. As a nerve tonic and tranquillizer, we believe that no one can be pointed out as unduly sensitive to the effects of Dodd's Soda Saleratus. In renewing normal digestion, it strikes the very note of strength and quietude by the liver, rendering it more active, and thus restoring the system to its normal state.
