

Grant County News - Canyon City - Oregon - May 2 1889

Grant Co. News

PUBLISHED EVERY THURSDAY MORNING

May 2, 1889.

If President Harrison and Vice-President Morton should both die, Mr. Blaine would be president.

The next census will include a list of the names, organizations and length of service of surviving soldiers, sailors and marines, and of the widows of soldiers, sailors and marines.

It is asserted that nearly all the idols now worshipped in India are of English manufacture. John Bull's principle would seem to be, "Let me but make the idols of a country and I care not who makes its religion."

A New Orleans judge has decided that when a jury, with a quart of whisky, a pack of cards and a handful of beans, play poker from midnight till 4 o'clock in the morning, the prisoner is entitled to a new trial.

The citizens of Corvallis have agreed to pay the "West Shore" magazine \$75 to illustrate their town, which causes the Leader to complain that the money ought to have been paid to the local papers instead, to encourage and sustain them.

J. W. Welch, sheriff of the lean county, Ky., recently attended a religious revival and there confessed that fifteen years ago he was a notorious gambler. He paid over the money and promised to pay the interest, which will amount to \$200.

A Christian scientist of Sharon, Pa., has discarded her false teeth, because she says that her faith will cause new natural teeth to grow. We next expect to hear of a man with a wooden leg looking for the growth of the leg that was cut off through the operation of faith.

The English Court of Queen's Bench has just decided that an agent cannot be sued by his principal for damages resulting from the agent's failure to make bets on a horse race in accordance with the instructions of his principal. The case is to be appealed to the highest court.

It is reported that the Southern Pacific railroad company has contracted to bring 90,000 passengers from the New England States to this coast during next September. Our farmers should make a note of this and govern themselves accordingly. There is yet ample time for putting in a large crop of beans.

J. B. Welch of the Meadows, while sinking his mill well through a ledge of sand stone recently, took out pieces of the stone bearing the distinct impress of fig leaves. So it seems that our climate was even more nearly tropical in former times than at present. A local correspondent intimates that this was once the site of the garden of Eden.—Jacksonville Times.

Women are now entitled to vote in fourteen states whenever school questions are involved in an election. In Kansas, they can vote at all municipal elections, and in Wyoming they enjoy the full right of suffrage. During recent years there has been a marked growth of blind spirit in this direction, and it has been noticed that they do not use their right even at school elections.

The Supreme Court of the United States in deciding a suit brought by the holders of certain bonds issued by the city of Watertown Wisconsin, lays down a rule that the supreme court will not undertake to reverse the decision of the highest court in a state, unless it can be shown that the constitution of the United States is violated by such decision. If this rule is strictly adhered to, fewer cases will be taken up.

The official record of the Grand Army for the past year, which has just been completed, gives the following excellent showing: The total membership throughout the nation is 384,533. Ohio leads with 43,253; Pennsylvania comes next with 42,081; and New York third with 39,844. The Grand Army spent during the past year the sum of \$75,945.55, in aiding old soldiers and their families, who lacked the necessities of life.

The West Shore for April is at hand and is as tame as usual. When brother Samuels learns that the front elevation of a building taken from the architects' plans is not a matter of intense interest, the quality of the magazine will be improved. We do not wish to criticize harshly, but we feel that the opportunity the West Shore has and the liberal support given it entitles the public to illustrations of Oregon scenery instead of advertising cuts of someone's buildings. There is a grand opportunity afforded the West Shore to distinguish itself and do a good work for the country at the same time by publishing choice descriptive matter, and we regret that it is neglected. Wasco Sun.

DID IT ELECT HARRISON?
The following appeared in a Minnesota paper: "Members of the Democratic party have been using all sorts of ruses to account for their overwhelming defeat, and numerous are the causes alleged. 'I was talking with several of the vanquished on Fourth Street the other day, opposite a bill board, and one of the party exclaimed: "It had not been for the closeness of the National Committee in the expenditure of money, we would have elected our man. The Republicans advertised their man like a clown." Several of the party remarked that no advertising was done except small announcements in the papers, and a few "hangers" on the dead walls. "Hangers?" said our informant. "What do you call that by a circus poster, pointing to a twelve-sheet medicine poster on the bill board, bearing the cuts of Gen. Harrison and his grandfather." "If the Democrats had advertised like that, Cleveland would have been re-elected."

The poster referred to was one of the familiar black and white Log Cabin Sarsaparilla posters sent out by an enterprising firm engaged in the manufacture of old log-cabin home-cure, under the name of Warner's Log Cabin Remedies, and among other equally valuable articles includes the famous Log Cabin Sarsaparilla, which is everywhere recognized as the best of all spring medicines and stands without a rival for the cure of all disorders which are the results of impure blood. The spring time of the year is the season when the system needs renovation; the long winter has caused the blood to become filled with impurities. There exists no better means to aid and strengthen the system at such an urgent period than the use of Warner's Log Cabin Sarsaparilla, which speedily restores the blood to a pure and healthy state, which insures health and happiness. The reputation of the firm putting out the medicine is above reproach, and in the same firm which manufactures Warner's Safe Cure the standard remedy for the cure of all those diseases peculiar to the kidneys as well as those which are the result of disease and vice organs, and which has met with such phenomenal success for the past ten years.

We understand that the posters referred to make their appearance in many parts of the country some time prior to the Chicago Convention which nominated Gen. Harrison as a candidate for the Presidency—hence the use made of the portraits of the Harrison, father and grandson—was either the result of remarkable political foresight or in accordance with the historical association of the old Log Cabin with the name of Harrison.
