A correspondent to the Reveille figures up Baker county's indebtedness at \$107,922.05, and says if a correct report were given the amount would reach \$115,000 or \$120,000. This being the case with Baker county we of Grant should not worry; if our sister hopes to get out of debt we ought not to feel dependent over our little indebtedness.

Sam and Andrew Tucker are erecting an arrastra on the Fred Miller quartz mine. They are at present putting up only a temporary arrastra to be run by horse power, for the purpose of thoroughly prospecting and testing the ore. Next spring, should everything prove favorable, they will make arrangements to crush the quartz by water power.

We have conversed with parties in different portions of the valley regarding the new roller flouring mill project and all express themselves as satisfied that such an enterprise is needed and would be a great benefit to farmers and everybody else in the county, but a united effort seems lacking to secure the perfecting of arrangements to take an active part in the matter. If two or three men desire to call a meeting at some point for the purpose of discussing the question of a roller flouring mill for the John Day valley the News will publish the call free of charge.

Baker City Reveille: It has been suggested to us that an effort should be made by the people of Baker City to induce the Oregon Pacific, now building a road from Yaquina to Boise, to either change their proposed route so as to come by Baker City, or to build a branch connecting us with the line at some convenient point. It is said that the railroad is willing to entertain a proposition of this kind from our people.

MINERAL CITY MEDLEY.

MINERAL CITY, IDAHO, Oct. 29, 1889.

ED. GRANT CO. NEWS.—Thinking that a few lines from the little town over the Oregon line might be of interest to your many readers I pen you the following:

There are two cases of typhoid fever in town.

There is a daily stage to Huntington, the nearest point for supplies.

The climate is good, and the stock range the best I have ever seen.

Mineral City has good mines, and this will be a booming camp next summer.

Chickens are three dollars per dozen and they are very long lived—they never die in Mineral.

About one hundred miners are employed on the six mines being worked, at \$3.50 per day.

An adopted child of Mr. Lockwood died last week and was buried just below town, this being the first death.

The new State road is in good condition, and is a great benefit to the camp and to farmers all along Snake river.

There are no Chinamen or tinhorn gamblers in town, and per centage games of poker are not allowed in the territory.

The miners are a steady class of men and not much gifted to gambling or drinking, therefore all have plenty of money.

Tom Highland and Billy Mascell have got their horses about two miles from here. James Thorp and Glaze of Dayville are also here.

The distance from Huntington to Mineral is 23 miles, and the fare by stage is two dollars. Board at the hotels is \$8 per week; prices at the store are the same as at Baker City.

Dancing is in order now, and we have about two dances each week. We have a fine piano, but no one to play on it. If we could get a school marm who could play for dances she could break the town.

Mineral City contains one store, two saloons, two hotels, two meat markets, one barber shop, one blacksmith shop, two stables, one assay office, two quartz mills, and lumber on the ground for a school house, also a large chop house and restaurant building.

The little daughter of Mr. Teed proprietor of Mineral Hotel fell while sliding on the stair banisters on the 24th inst., causing a fracture of the elbow joint. A physician was sent for and arrived the next day, from Caldwell. I helped to reduce the fracture, and the child is doing well.

Mineral City wants a school marm. If some goldarned nice looking gal who wants a job and a husband will come to Mineral City we will promise her an old man in short order. If some lantern jawed old maid wants a job she can get to teach school, but she can get no nice old man unless she can catch our postmaster.

Yours, Respectfully, W. H.

Saloon men at Harney and Burns were indicted in the late circuit court for selling liquor on the Sabbath day.

Parrish & Cozad have moved their law foundry from the court house to more commodious quarters over against or near to the City hotel.

A boy escaped from a Texas convent and accuses the two priests who preside over it of the murder of a boy, who was found dead last summer.

A clergyman in Wales assaulted several of his flock with a club for non-payment of tithes. That preacher believes in the maxim of "no money no salvation."

An "oil house" has been erected in the court house yard, and the kerosene removed from the county buildings. Good idea—it will perhaps cheapen insurance.

The News is having his dwelling house neatly repainted; W. H. Kelly is the artist. A little paint judiciously expended makes a good appearance, and doesn't cost much.

A couple of postal inspectors came over the road from Baker Tuesday night. Would that they had come over the route from Heppner—they might have ascertained why the railway employes permit our mail to be delayed.
