The product of Oregon mines approximates \$50,000,000; nearly all gold, and the output is now about \$1,000,000 annually.

A Californian named John Fessler has a quartz mine that has paid him \$30,000 in two years. He does his own work, and his only mill is a hand mor-

United states prisoners cannot be extradited from Canada. Although Canada was in favor of passed a bill to the effect, yet England less refused to honor the

Governor White, of Montana, in his annual report, places the white population of that territory at 170,000 and the Indians at 15,000. The total wealth of Montana is given at \$150,000,-

The anarchists held memorial services lately in Chicago, Kansas City, St. Louis and Denver, commemorating the hanging of the Chicago anarchist, but in each place the followers of the red flag failed to create any great amount of enthusiasm. This dangerous element is evidently dying out.

San Francisco is improving morally. The mayor recently vetoed an ordinance licensing prize-fighting and now a police judge has fined a Chirese tan-game keeper \$250 and players at the game \$100 each. Heretofore police judges in of \$40 and \$20 respectfully for such offenses.

Colonel Bob Ingersoll likens the condition of the republican party after the late elections to the old fady who was bitten by a snake while out blackberrying. She has tened home as rapidly as possible and sympathizing neighbors gathered about, but the whimpering lady would not go into particulars. All she could be induced to say was: "I cannot show the place NOTICE FOR PUBLICATION. but I do know I'm bitten."

Those who denounce capitalists na vile enemies of humanity would scarcely refuse to assume a like position if they could. Joaquin Wall street and lost his little pile, used to rail at the rich and revile londing New York capitalists, has Miller, who, after he went into become a capitalist himself. Some NOTICE FOR PUBLICATION. years ago, he bought 200 seres of land near San Francisco, and now they have become valuable for town lots.

The constitution of North Da kota provides that no foreigner shall vote until two years after he has declared his intention of becoming a citizen, and the reading of the Declaration of Indepen- NOTICE FOR PUBLICATION, dence with ease shall be a test of the qualification of the voter. This is as it should be. There is no reason why the foreigner should not learn something of the government of his adopted conn-- before taking a hand himself. Even the person born in the United States must be here twentyone years before he can vote.

Gen. Benjamin F. Butler, of Boston, has been elected president of a Colorado gravel mining company. A man is never to old to learn, but the general starts in rather late in life to study the business of mining. That he doesn't understand the business now is evident from the statement which he made recently to a reporter: Without doubt our company has pessession of a series of the largest placer mines in the country, and our object is to begin operations at once and to make them produce ore to their best enpacity. The idea of a gravel or a placer mine producing "ore" is what paralyzes the practical miner.

As an illustration of how some persons can industriously fritter away their lives to no purpose, there is a man in Biddeford, Me., who has whittled so industriously and skillfully for eleven years as to bring himself into notice. Among the products of his jackknife are a violin case made of 2,-937 pieces of wood of 106 different kinds; a yoke of oxen and a cart, put together in a glass jar with a small neck, and a great number of really well made ani-mals that would sell readily as toys. But this Maine genius will not part with any of his creations for love or money, and as he does All Kinds Of nothing but whittle he is getting together a large and interesting collection.

NEW TO DAY.

TO THE PUBLIC.

Dr. Pruden would respectfully announce to the public that he has located at Prairie City, Oregon, where he will answer calls day or night and treat chronic diseases by the month or by the case—charges reasonable. For the benefit of the skeptical, a trial treatment will be given for a sufficient time to establish confidence. No charges made should patients decide to discontinskill, except for medicines. The doctor has had twenty years' experience in family practice, is a regular graduate of medicine. In his past life at different times he has visited a number of the most successful specialists of the East for the purpose of ascertaining the best treatment and method of manageing chronic eases, having in view at the time an office business in some and now, as in the past, populous town or city. He has taken a thorough course of studies in the cities of St. Louis, New York, and was in the office of an eminent specialist in Boston, Mass., for ten months, where he had rare opportunities for acquireing useful knowledge and getting a practical experi-ence well calculated to fit him for the successful practice of his profession. The favorable advantages and special privilege which he has enjoyed, together with a good practice, has given the doctor confidence in his ability as a physician and surgeon, therefore he will not hesitate to guarantee a reasonable degree of satisfaction in every case. Patients at a distance will be treat-
