

THE GRANT COUNTY NEWS.

Thursday, Feb. 6.

LOCAL BREVITIES.

The loss of stock in Grant county this year will be less than in any county east of the Cascades, and therefore we have cause to rejoice.

The rumor that Forty-nine Jimmy was dead was a false rumor, as the News hoped and imagined. Jimmy still lives, and has a good mine at Robinsonville.

The rainy weather which started the snow in the mountains melting has caused streams to run full, besides soaking the ground in a manner highly satisfactory to stockmen and farmers.

Canyon creek has run high this week, and some of the dwellers on low lands at John Day have been busily engaged constructing dikes, fearing an inundation of their premises, which were lower than the creek bed.

The mail route from Ontario to Burns is effectually closed by reason of snow, and all mail for the Harney country must pass through this post-office. The carriers on that line believe the road will be impassable for at least three weeks.

Frogs and blackbirds announce that winter has had his spinal column fractured, folded his tent and silently gone north. The absence of snow and the green grass on the hills, with gentle spring showers falling, confirms their announcement.

It seems that the young bloods of Prairie are about to have a war over the fair sex. It must be enjoyable to take your best girl out for a ride and expect your back to be broken on your return by a jealous individual with blood in his eye and a gun in his boot.

Mail contractors have been heavy losers this winter, and are bound to miss several trips before June. One thing is certain, star-contracs are taken at too low a figure by sub-contractors who shoulder the responsibility, while the original contractor scoops the los-
dle.

A communication from Caleb, which bears no signature, states that Lou, Keaton has begun to scratch his head and will be bald by spring; W. F. Fry has lost his fine race mare and a few other horses; and that Nero Younger and family have been "set-ting" all winter, and their horses have all died.

Under New today will be found an ad calling for sealed proposals for building a bridge across the John Day. The bridge is a necessity, for the river is not wide enough for a ferry, and in time of high water all the immense amount of travel on that road is put to great inconvenience. Hall's bridge or Cole's bridge at present the only two in reach.

We were in error last week in stating that the G. A. R. would not com-memorate Washington's birthday. As has always been the custom of Gen. Hancock Post the boys will have a bean supper and a grand ball in the evening of Feb. 21st. This time the ball will be at the court house, where plenty of room will be found for all who can dance.

The energetic people of Burns have purchased a building and announce their determination to make Harney county a dead to the same on condition that the voters locate the permanent county seat at Burns. They also agree to move all county property from Harney free of expense to the county. Harney will probably get in now and go them one better.

A letter from Wagner dated Jan. 25, states that the house occupied by Frank Tomperton and owned by Henry Johnson, took fire that morning and was entirely consumed, but part of the contents were saved. The house was built by L. Rickard several years ago, and valued at about \$1,000. Origin of the fire, which caught in the upper story while the boys were out feeding, was not known.

The political wolf has let out a long-drawn howl, and from this time on there will be fun until the June election ends the contest. The Eagle is informed that C. W. Parrish of this city will be an aspirant for the honors of joint senator on the republican ticket. All right, let him run. If Parrish and Blackman each get the nomination we know who to bet on, and Grant county will be sure to "get there."

The anarchists have been accomplish-ing their hellish designs in Harney county again. We have been in-formed by Frank McBean that they burned four stacks of John Devine's hay a few nights ago, aggregating 200 tons. Rags saturated with kerosene were found on the ground showing conclusively that the fire was set del-iberately. Mr. Devine had lately purchased this hay from Smith & Young, and was feeding it to about eight hundred calves. What punish-ment is too severe for a fiend who wil-deliberately deprive poor dumb beasts of food for the sake of wreak-ing vengeance on a man who has in-curred his enmity? This is not the first time Devine has suffered at the hands of such cowardly incendiaries, and the sooner Harney county breaks up their vile clan the better it will be for her good name and her prosperity, for men do not care to engage in busi-ness in a community whose members resort to the torch to right every fan-cied wrong.

Already preparations are maturing for extensive prospecting when the weather will permit.

Go to the Red Front Billiard Hall, Canyon City, for fine wines, liquors and cigars.

The republican state central committee will meet on March 5th to fix a time for holding the state conven-tion.

Fourteen cents was paid for a lot of last season's wool at Heppner last week, Koshland Bro's of Portland being the buyers.

The ground hog failed to observe his shadow on the day appointed for his coming, therefore summer flowers will bloom in due time.

A literary society is held Monday evenings at the John Luce school house, where we understand some weighty subjects are discussed by the young people.

Baker City and Pendleton each want the republican state conven-tion, but Portland will see that neither of them get it. If it is held outside of Portland it might have a bad effect on the "ring."

David Dietz brought his horses down from his ranch to where hay is more plentiful, and is feeding them. If this break-up should continue any length of time stock can rustle very well for themselves in the foothills.

An armed desperado robbed a Se-attle dealer of a few days ago, and three officers coming into the saloon about that time he made them all sit down. Seattle officers must be a brave set. The robber escaped.

Cattle and horses are on the hills eating new grass, and sheep are mak-ing a good living for themselves. So much to the credit of this county. We boast of these things, but never-theless are fearful lest snow come and cover up the green grass.

The water right case of Rinehart & Starr versus Butler, in which deposi-tions were being taken, was last week compromised by plaintiffs paying all costs and allowing defendant the use of all the water in the ditch for two days and a night each week.

If several contemplated mining deals are consummated the country around Susanville next summer will constitute the liveliest mining camp on the coast. Capitalists are becom-ing interested in the mines, and they are not afraid to invest money for de-veloping them.

Miss Nellie Bly, the young lady who recently took a flying trip around the world in 72 days, 6 hours and 11 minutes beats the U. S. mail all hollow. That length of time is sometimes nearly taken up in getting mail from the average Webfoot town to this place.

Judge Clifford arrived home on the stage at an early hour yesterday morning. He was four days on the road from Baker, having started with his own team and abandoned that. The snow in the mountains is all soft, and the road is almost impassable except for experienced "snow horses."

The stage driver between here and Long Creek lost one of his horses Monday night while coming this way. In Fox valley the road crossed a creek over which the snow had drifted, and the water under-neath having worn away and soft-ened the drift the team broke through, and one horse was chilled to death before he could be extricated.

The following members of General Hancock Post No. 34 G. A. R., De-partment of Or., were duly elected for the ensuing year: John Segerdahl, P. C.; Samuel Hough, S. V. C.; Hiel A. Hyde, J. V. C.; Edward Chidsey, Adj't; E. Ramsby, Q. M.; Theo. Perkins, Sur-gon; E. Hays, Chaplain; M. G. Pierson, O. D.; Chas. Cooley, G. G.; John Young, S. M.; O. W. Birge, Q. M. S.

Notwithstanding the Long Creek Eagle announces Mr. C. W. Parrish as a republican aspirant for State Sen-ator, we are requested by Mr. Par-rish to thank his democratic friends (?) for their effort to bring him to the front without his assent, and also to state that under no circumstances is he an aspirant for State Senator or any other office, neither has he had any thought of such a thing. Charley says he couldn't leave his biz, and there's no pay in going to the Oregon Legislature, and he couldn't think of it even to please the democrats.

Mrs. Aldrich—widow of Mr. Aldrich who died last fall from injuries received by being run over by a freight wagon—was buried in the Canyon City cemetery last Saturday. The circumstances attending the lady's death so soon after that of her hus-band were sad in the extreme. She was residing on her ranch in Bear valley with her two sons, and during her illness it was impossible to procure the services of a physician owing to the absence of a trail through the snow. After her death the boys mounted snowshoes and dragged a hand sled upon which was placed the body, until they arrived at Blanton's, when a team was secured and the re-mains conveyed to town.

Attention.
The G. A. R. will give a free pork and bean supper at the Masonic hall in Canyon City, Feb. 21st, 1890, and a grand ball in the evening. Tickets for ball \$3. Further particulars next week.

PRAIRIE CITY NEWS.

Feb. 3, 1890.

Your correspondent is now stop-ping on a ranch but gets to town occasionally and this is what he learned on his last visit:

Stock are in good condition, most all our farmers have plenty of hay on hand.

Doc. Cameron was here during the week. He has political aspira-tions. Doc. is built that way.

Julius Bamberger is having his costume made for the sheet and pillowcase party the 14th. He claims he will get the prize.

The late blockades reminds one of long ago, when we received a pa-per or letter every month or two. We hope there will be no more this winter.

One of our bloods knocked a Chi-naman down with a bottle, which cost him \$25 and costs. If some of the other youths do not mend their ways they will also get a benefit.

Prairie can well boast of possess-ing the most sociable young ladies in the country. There are rumors of one of them taking a flying trip East, while another will go to John Day City.

A crowd of young folks had a sleighride a few evenings ago, when the horses became unmanageable, causing some of the young ladies to jump out. An eye witness states he saw girls string out for 200 yards in the snow; no one was hurt, if they did get frightened.

We hear good reports from both the Winegar and Meador school dis-tricts. The schools have able teachers and the scholars attentive in their studies, with a good attend-ance. Can not speak as favorable of the school in this district.

Our people are mystified who their correspondent "Cheerfulness" is, some offering to give \$10 to find out. They would't give 10 cents to know yours truly, for they know me.

Our efficient postmaster and as-sistant are giving entire satisfaction. The office is always open and pre-sents a neat appearance.

Geo. Reily has taken a contract to feed the stock around town. He says he has as much right to feed paupers as anyone.

The Friday night socials are a success and draw out all the young folks and some that are not so young.

Rev. A. Eads gave us a very in-teresting discourse Sunday evening. He had a large and attentive audi-ence.

If you conclude to publish this, will give you another dose when I come to town again.

Social in Odd Fellows Hall.

There will be a social given in Odd Fellows Hall, Canyon City, by the members of Hohob Lodge No. 22, on the evening of Feb. 14th. All Odd Fellows in good standing, together with their families, are cordially invited to attend.

Not a Red Cent Lost.

Canyon City, Feb. 2, '90.
EDITOR NEWS: Will you allow me a short space in your paper to answer a communication appearing in the Harney Times of Jan. 8, '90, in which the word "Devine" is used in such a manner that at long range one would think it was a de-vine revelation, but at short range it has the appearance of being con-ceived in a muddled brain, and born in the sanctum sanctorum of the Harney Items when the editor was out. The writer of the scurrilous article presumes the taxpayers of Harney county do not know that they have lost \$9,000 in the settle-ment with Grant county, and he has been told that it is a fact that Judge Maxey of Grant told his friends that he would place the fig-ures at \$20,000 and if necessary would come down to \$10,000. To this I will say that every word is false from the beginning to the end. A full statement of the settlement between Grant and Harney coun-ties is on file in the county clerks office in Harney county, and any taxpayer in Harney county can ex-amine for themselves and will see at once that an honorable man and faithful officer has been slandered through the stupidity of a crank. The settlement was made upon the statement of Wm. Miller of the in-debtedness of Grant county upon which Grant county obtained a judgment against Lake county in the Supreme Court of this state and is undoubtedly as correct a state-ment of the indebtedness of Grant county as could be made.

I make this statement in justice to Judge Shields, knowing the charges against him to be false and unjust and should have done so sooner, but circumstances over which I had no control prevented me from doing so.

N. R. MAXEY,
Co. Judge Grant County.

I have a number of the reliable Parr's English Pads for sale. Any one wanting these well known liver pads can have them by addressing Mrs. Catharine Phillips, Canyon City, Or. Price only two dollars. *

GRANITE GRAINS.

Ed. News:

Snow shoeing is the great attrac-tion and about the only means of sport.

Everything is quiet about our vil-lage and but little news of inter-est can be gleaned.

M. P. Garrison of our town died in Baker City and was brought here for interment. He was about 42 years old and leaves a wife and six children to mourn his loss. The widow and the fatherless have the true sympathy of all in their be-reavement.

"Yet to reach that realm on the other shore,
We must pass through a transient gloom,
And must walk through a shadowed and gloom,
Through that covered bridge—the tomb."

Cabbell Bro's have shut down their mill for the winter, on account of the snow drifting.

The grippe has about spent its force here, but nearly everyone had an introduction to it.

The roads are blockaded nearly every direction and it is barely possible for the mail to come.

The monarch will be running night and day. J. E. Short has control now. J. I. Smith and L. H. Bowman have gone east on a deal of some kind.

This is China New Year and they make quite a demonstration. A Chinaman, just before their holidays was found dead. It is said by the Chinese that he had been unable to work and could not get money for the holidays and concluded to skip by taking poison.

Here is what a fellow saw last Sunday evening and how he told it.

"A few days ago
On the snow fallen snow
Quite a party were out for a slide,
When a lady and gent
On pleasure intent
One pair of snow shoes did ride.
Away they go
As happy—but oh!
The swift sliding shoes careened
With red stockings a pair
Striking out in the air
That lady went end over end."

DAYVILLE CLIPPINGS.

The stockmen's salvation—the chinook wind—paid us a pleasant visit and put a smile on many a stockman's face. The loss of stock in most parts has been heavy, especially sheep. Caleb, Wagner, Mitchell and Dayville, the loss could not safely be estimated at 15 per cent. In a number of bands the loss will reach near 50 per cent and stock as a general thing are in poor condition. The ground is partly covered with snow and the feed is short, and if the weather is not fa-vorable there will be a heavy loss in horses and cattle as well as sheep. Send us a horse buyer; there are a good many geldings here ready for market.

On the 26th ult. a dwelling house belonging to W. H. Johnson & sons formerly owned by Levi Rickard, near Wagner, was destroyed by fire. Supposition is that fire started by sparks from the stove pipe lighting on the roof. Frank Tomperton who had possession of the house at the time the fire occurred in company with six other men had just finish-ed eating breakfast. They discover-ed the fire but the wind was blow-ing so hard that they could not get the fire under control. The loss is estimated at eight or nine hundred dollars; insurance on house was \$450.00; bedding, clothing and fur-niture \$450.00; all of the furniture, clothing, bedding, etc., in the lower story and kitchen was saved. The fire had got under too good head-way to save many things from the upper story; the loss in bedding and clothing would probably amount to \$150.00.

CALLER.

Joint Senator Again.

Under this head the Harney Items hits the nail in about the right place and says something which the News endorses for the truth and justice therein contain-ed, to-wit:
After careful reflection we are unable to see any reason whatever why Morrow county should be en-titled to the joint senator for this senatorial district. When we re-member that Morrow county has a representative, and that Grant and Harney only have a joint rep-resentative, it occurs to us that if Grant and Harney would divide the joint senator and joint repre-sentative, each county taking one, then in that case all three of the counties in this senatorial district would each have a member in the Legislature. But in case Morrow county should take the joint sen-ator, either Grant or Harney must be entirely without a member. We cannot see by what manner of reasoning Morrow county can pos-sibly lay claim to the favors asked for. The fair way out of this lit-tle matter is to fix it up so each county can have a member.

The average days wages for farm hands in Japan is 181 cents per day for men, and 12 cents per day for women. The average monthly wages with board is \$212 for men and \$120 for women.

AN OPEN LETTER.

From Professor J. P. Looney, Prin-cipal of Fulton Public School, in Favor of Drs. Darrin.

DRS. DARRIN HAVE A BRANCH OFFICE IN TACOMA.

Oregonian.

Editor Oregonian—Dear Sir: I am not in the habit of puffing ad-vertising doctors, but I cannot let this opportunity pass without men-tion in justice to the afflicted as well as Dr. Darrin. The doctor has cured me of a troublesome catarrh and bronchitis of seven years stand-ing by electricity and medicine. The cure is perfect and permanent. I cheerfully recommend his treat-ment, and will answer all letters addressed to me at Portland. Jan. 22, '90. J. P. LOONEY.

There is something about the success Drs. Darrin are meeting with which is truly hard to credit, yet we have it from persons whose veracity we cannot doubt, that their cures are remarkable. The above case is peculiarly striking. Profes-sor Looney is a man of undoubted integrity and is well known through-out the state and nation. The above card to Drs. Darrin is positive proof of the unexampled suc-cess which attends their treatment. It shows how radical as well as un-expected, are many of their cures, and how chronic diseases of many years duration are unable to resist their skill, and is but one of the many cases which the doctors have undertaken, and is only one of the scores of patients to whom the have restored health. The author of the above statement, we have full as-surance in saying, was actuated in publishing the same by no other motive than gratitude of his cure and a desire to make known the means to others as unfortunate as himself. When we reflect what a great boon is health—when we con-sider that without it the slightest approach to happiness is impossible—that it is, in short, the greatest earthly blessing—can we be other-wise than immeasurably surprised to find any one who has lost this great treasure, and yet hesitate to follow the plainly defined path lead-ing to its recovery? To see a sick man or woman neglect or refuse to visit Drs. Darrin, who may do him or her some good, and cannot do harm, is equally as inexplicable a mystery. Try them, at all events, common sense would suggest. A consultation will cost you nothing. The doctors could fill this page with responsible certificates but their fame is so wide spread it is unnecessary. The doctors treat all chronic diseases at their parlors in the Washington building, corner Washington and Fourth streets, Portland, and Hotel Genialdo, Ta-coma.
