The Burns Herald has been purchased by W. C. Myrd & Son. The first number under the new management shows a marked improvement.

The Weekly Reveille, Baker City, has been enlarged to eight columns. Baker City is growing, and her newspapers are keeping pace with her.

Grant county's number of delegates to the democratic state convention is four, while Harney county is entitled to only two. Morrow has six—just a standoff.

It is generally reported that a resident of this place who her husband believed was visiting at Prairie City, deserted her little girl and boarded the Baker City stage one morning for other lands.

Judge Clifford left Squire Denning to hold down his office until his return, and Denning feeling as though he could not do justice to the job by about 396 pounds hired Pussy Stansell to help him as soon as Clifford was gone.

C. F. Goff announces himself this week as an aspirant for the office of County Clerk. Mr. Goff is at present postmaster at Long Creek, which responsible position he has held for some time, and is a man whose friends are in the majority.

Late dispatches say that the Blair educational bill has been defeated in Congress by a vote of 37 to 31. This bill provided for the establishment of schools by the general government, the same to be under government supervision.

Harney valley is a better country after all than its enemies report. We now learn from a reliable source that the Piute Indians over there wintered well and came out this spring looking sleek and fat. An abundant harvest of dried crickets last fall was everything that the Piutes needed.

Lawyer Denning says we were in error in stating that he would perhaps seek the nomination for joint senator. Mr. Denning would like the nomination for the office of joint representative of Grant and Harney counties, but the News was misinformed regarding his senatorial aspirations.

The News is informed of the operations of one lay mare branded on left thigh, WF connected (very indistinct), on right shoulder. Has branded yearling colt. Been on range about two years. Owner can earn their whereabouts by first paying a reasonable price for this advertisement.

Joseph Pagen, a resident of the timber, came to town Friday night for a jug of rum. Jo took some of the contents of the jug and grew hilarious, he made himself so obnoxious to the community that he was judged by constable Tolhunter and he and his jug parted company. The result of an examination before Judge Rulison was a fine of \$10 and costs, in default of which the defendant was committed to the jug for a term of five days.

The party who wrote to this paper from South Fork a letter describing how a young lady of his neighborhood found a horse shoe and put it under her pillow for luck, arose next morning and put the horse shoe in her mouth, never discovering her mistake until she went to make the bed and found a set of false teeth under her pillow, will not be likely to see his letter in print; it's too personal.

That disappointed individual at The Dalles has quit howling about the appointment of Capt. J. W. Lewis Register at The Dalles land office, since his confirmation on the 7th inst. All the fuss was made because it was alleged that Mr. Lewis was not a resident of that land district, which assertion was utterly false. Had he not been a resident of that district Capt. Lewis' nomination would have been confirmed just the same.

Senator Ingalls has introduced into Congress a bill providing that a soldier who has lost both eyes or one arm and one leg may get married at any time he may so desire to some one to take care of him, and at his death the soldier's widow shall receive \$12 a month so long as she remains single. What has the poor blind and maimed soldier done to Senator Ingalls that he should deserve any such fate as that. We plead in behalf of the old soldier, that Congress and the Lord will deliver him from the "thing" who would tie her soul to his for a paltry \$12 a month. That bill is not aimed to promote pure wedded bliss, but to encourage marriages for a good consideration.

Yours Faithfully,

whose been at Prens, married lately, to Mrs. of Prairie City. Here's congratulations.

Guernsey's crew of miners commenced washing gravel yesterday, and Mr. M. G. Pierson, the superintendent, informs us that it will average \$10 per day to the man while the water lasts, which, unfortunately, will be for only a short time.

A Wisconsin judge has decided that the Bible cannot be used as a text book in the public schools. He further says that the place where the Bible should be read is a place of worship, and that taxpayers are compelled to erect and to support school houses, and children are, under a late law, compelled to attend public or private schools.

Our new "ad." from the enterprising firm of Coffin & McFarland, Heppner, speaks for itself, and it will gather your while to read the same. In order to gain new trade they intend presenting a fine large book, which retails at \$4.00 each, to every retail purchaser of dry goods, clothing, boots and shoes, hats etc., to the amount of \$25.00, allowing until July 1st to make out the amount. Give them a trial order, when you send away for goods.

The Democratic State Central Committee which met last week selected April 24th, at Portland, as the time and place for holding the state convention. The representation will consist of 192 delegates. The committee recommended that precinct primaries be held on the 10th of April, and the various county conventions on the 10th, unless county central committees determine differently.

Stanley Wood's Great Divide for April will be a remarkable number, by far the handsomest that has yet appeared. It will be increased in size to twenty-four pages and in addition to a double page illustration of Leadville and its surroundings, made by the best artists in New York City, will have, as an art supplement, an aquarelle, made expressly for The Great Divide, in seven colors, of a famous Indian chief in full war costume, which will be worthy of framing.

The governor of Louisiana is entitled to great credit for his nerve and backbone in spurning the offer of the great Louisiana lottery to donate \$100,000 of their filched income to relieve the flood sufferers of that State. The governor plainly tells the prince of lottery swindlers that he has no right to accept such a gift, which, coming on the eve of an election when this gigantic money-sucking, gambling concern will ask a renewal of its charter, is no less than an attempt to bribe the people of that State. It is to be hoped Governor Nichols' action foreshadows the attitude of the people of Louisiana and the action of its legislature.—Salem Journal

Dalles Mountaineer: Senator Dolph's inquisition is still in progress, and so far he has been unable to find the member of the august body who told the secrets of the executive session. His efforts to stop these "leaks" will be ineffectual while the people desire the news of congress and the press of the country is possessed of sufficient enterprise to accede to their demands. This war on newspapers by United States senators will only work to their injury, as the papers talk directly to the constituency and can make the future of these senators anything but pleasant.

Big Brown Bear Butchered.

Dayville, Mar. 23, '90. EDITOR NEWS: Last Thursday Messrs F. Guion and J. Lloyd Miller were driving cattle from the Perkins ranch up Cottonwood and had gone about seven miles they espied, when opposite one of Murray Bros' sheep corrals, a large brown bear. The boys quit driving the cattle and went for Mr. Bruin, and after an exciting chase of two miles succeeded in lassoing him. They drove and dragged the monster— one pulling forward by the neck, the other pulling back sufficiently to keep the brute from devouring the lead horse or rider. After several hours hard work they got him to the ranch of Alec Murray, where they shot and dressed him; weight 550 lbs dressed. Everybody here being out of meat the bear-meat was in big demand and was much relished. If you wish to see him, come down.

Yours Faithfully,

The stove waits. The farmers have hay left after turning out in the hills. The by-word is, "What office are you going to run for?" I intend to run for Constable. O. C. Miller is out for county judge. Don't know whether he will get there or not; hope he will get the nomination. I saw a young lady putting something on her face; could not swear whether it was flour or not; it might have been paint. Al. Jelletto was in John Day the other evening and went to church, so we were informed. He thinks that he will be good, but I do not believe it. Dave Taylor says that he has two men employed. You would think that he had his pockets full of money, to see him around with his hands in them chuck up to the elbows. There were a couple of sheep shearers went to South Fork to shear sheep, but they came back with their lips dragging on the ground. They could get nothing to do. Too bad, boys; we would like to see some sheep money. POOL.

He Thinks Differently. ED. GRANT CO. NEWS: You were rather wrongfully informed when you stated in your last week's issue that Mr. Frank Kellogg a prominent attorney of Heppner was the people's choice for Morrow, Grant and Harney county's joint senator on the democratic ticket. Whilst there is nothing against Mr. Kellogg, he is by no means the people's choice either at home in Morrow, or in Grant or Harney counties, for it was not known that he was an aspirant until quite recently. There is another man in Morrow county, Mr. Henry Blackman, mayor of Heppner, who has been a great deal spoken of in that connection—a very popular man with a large following, and from what I can learn much the strongest man in Morrow county, which will develop itself at the next Morrow county convention in the near future, and if the democracy of Harney and Grant counties talk up a Morrow county man it is likely to be the one who proves the strongest at home. I also notice another mistake in connection with the joint senatorship, regarding Mr. Denning. I happen to know that Mr. Denning is himself a supporter of Mr. Blackman, and therefore not an aspirant in that direction. I am inclined to think, though, Mr. Denning, whilst not a candidate, might accept the nomination for representative in the legislature if tendered him by the democratic party.

Did They Die With the Measles? Bear Valley, March 24. MR. EDITOR: Having written to you what I thought were the undiluted truths about stock starving to death in Bear valley I wish to apologize, as I find out by "Greenhorn's" letter that all the stock that died in this valley died with the measles—that is, I suppose it must have been the measles for he fails to inform the people as to the cause of their death. For die some of them did. And, Mr. Editor, I will stand treat for the 3 of us if Mr. Greenhorn can find three houses in Bear valley that are inhabited that have not dead carcasses lying in the vicinity of said houses; furthermore, I will treat 2 times if there are no bones lying in the vicinity of Mr. Greenhorn's house.
