Is terrific. Volcanio eruptions, cyclones, enribquakes are awfully and tremendously picturesque, but scarcely desirable to emulate to action and effect by the administration of remedies which produce convolutes and agony in the abnormal portion of the human frame. Such is the effect of the old fashioned frates. Such is the effect of the old fashioned violent purgatives happily failing more and more into disuse, and of which Hostetter's Stemach litters is the wholesome, pleasant and far more effective succedancum. They weakened the intestines—the Ritters invigorates them. They left the howels inactive, because incapacitated by ensuing feetheness. The Briters, on the contrary, and because it enables, not forces, them to act—a wast and fortunate difference—perpetuates their activity and regularity. The liver is beneficially stimulated, as the kidneys also are, by this medicine, which easily ecoquers, also, malaria, purvousness and rheumatism.
