

# THE GRANT COUNTY NEWS.

Thursday, June 19.

## LOCAL BRIEVITIES.

Some measles linger in our midst. Who did you borrow this paper from?

Tom Williams' "Jordan" won the 1-mile race at Burns on June 3.

Elmer and Lillie Overholt returned home Sunday, from Portland, where they have been attending school.

Representative Dustin received a majority of 18 votes in Harney county according to the official figures.

State treasurer Metacham—soon to be—arrived home last Sabbath, in apparently good health after his race.

Miss Birdie Lewis who has been visiting her returned to her home near Dayville, and soon Mr. Lewis' family will join him at The Dalles.

Frank Sels who started to Heppner with a load of horses last week was getting there all right at last accounts, having had good luck during the trip.

Mrs. Phillips has not leased her garden to Wan, as was mentioned in these columns last week. Wan only has the crop on shares, and no control of the grounds.

We learn that prospectors are flocking by the hundreds into the Greenhorn section of country. That gives promise of being one of the greatest camps on the coast.

Quartzburg, six miles above Prairie City is a dull camp this summer, although considerable gold was mined there last year. Lack of capital, perhaps, is the reason of the inactivity.

Mowing wild hay in Harney county has already commenced, and the crop will be abundant this season, although the grain crops do not give promise of being extra fine, we learn.

It appears as though the G. A. R. do not intend having a celebration in this county on our nation's birthday. Too bad and extremely sad that something cannot be done to break the monotony of mere existence.

Crops on the John Day are looking fine, and farmers and stock raisers are to have one year of prosperity. Everything hinges upon them, and if they are prosperous all classes of business feel an enlivening thrill.

Numerous fishing parties desecrated the last Sabbath and generally came home well laden with the speckled beauties. Trout are plentiful in all the streams, probably owing to the continued high water of the present season.

The great contest in our sister county teaches one thing to a certainty, and that is that a county seat proposition should never come up at a general election. When a county seat is to be located always have a special election by which to accomplish it.

Last Monday Mr. Ray brought in a load of new rye hay. We mention this for the reason that it was the first of the season, and was from Gundlach's ranch away up on the bench. The rye was sown last fall and grew forty inches tall, attaining this proportion without irrigation.

Harney county elected the following officers: Judge, Wm. Miller; commissioners, Wm. Altow and N. E. Duncan; sheriff, A. A. Cowing; clerk, W. E. Graue; treasurer, T. H. Roberts; school superintendent, Chas. Newell; assessor, W. E. Allersson; surveyor, T. A. McKinnon; coroner, F. P. Moore; legs running at large, "No."

Carriage and team horses are said to be cheaper in Grant county this summer than ever was known. One reason for this is that they have always been held too high and the range became overstocked. Buyers could not afford to purchase them for export, and now people find themselves with more horses than they can properly care for. Besides this, last winter gave stockmen a scare.

M. M. Brierly of Harney county, was over during the week, and from him we learn that the result of the vote in his county is yet uncertain as regards the county seat. Burns claims it by eight votes, but there were eleven blanks which Harney claims should be thrown out, which would leave the county seat where it is. A contest is inevitable, which will tax the legal ability of the state.

At Shaw & Co., arrived Sunday with freight for our merchants, and reports a rough road from here to Heppner. Teamsters always find a rock when there is one in the road, and with the large number of sheep driven over the grades between here and Heppner it is almost impossible for the supervisors to keep the highway clear of pebbles. Let us have a law fixing a severe penalty for driving stock over the grade on a mountain road.

Joe Pigeon who is considered a tough case recently burglarized Fred Miller's cabin and then skipped the country. A warrant was sworn out for the thief, but his whereabouts were unknown. Last week John Fisk who holds a commission of deputy sheriff was over in Harney county and there saw Pigeon. He did not have the warrant, but employed the bad man to work for him. They arrived at Soda station for the night, and the fellow who was to be a prisoner on the morrow evidently "got to thinking" for in the dark hour preceding the dawn he ran away and could not be found even to this day.

There will be plenty of huckleberries this season.

Scharff Bros. sold their wool at Heppner for 16½ cents.

Grant county's peach crop is a failure this year, also her plum crop.

"Have you had the measles, if so, how many?" asks the census enumerator.

Mr. and Mrs. T. W. Poindexter departed for their home in Montana last Tuesday.

Lon Cleaver has received his commission as register at the La Grande land office.

W. W. Cardwell and wife of Burns were in town this week on their way to Portland.

Miners who send ore to A. B. Elmer, Baker City, for assay, receive prompt and reliable returns.

Lee Miller who was a delegate to the Masonic grand lodge at Portland arrived home Tuesday evening.

Just received from below, at H. R. Sels' store, a fresh stock of assorted groceries. Great inducements to cash buyers.

Deputy sheriff Yantis, of Gilliam county, was in town during the week, on track of some criminal whose name and offense we did not learn.

Rea & Blackwell who purchased 500 head of cattle in Grant county will deliver 400 head at Arlington on the 25th, for Portland butchers.

Snow is plentiful yet on the range of mountains to the south of this valley, which means that streams and springs will not be as low as last summer and fall.

On a visit to Prairie City last week the editor found the people attending to their own business as usual, and not disposed to grumble at the result of the election.

Ice-cream and strawberries, at the Grange hall in John Day next Friday evening, June 20. Come everybody. For the benefit of the Sunday school.

Supervisor Smith has been working on the line of the old Harney road for a week, and desires to finish that thoroughfare before he descends to the Canyon creek road.

Weiser City, which was destroyed by fire a few weeks ago, will be rebuilt on a new site nearer the Oregon Short Line railroad depot, within a short distance of the Snake river.

Dr. Trowbridge returned Monday with a sack of dirt which he found over about Silvis valley during a prospecting trip. He will "pan out" the dirt, and if prospects are favorable may locate diggings in that country.

Mr. A. J. Cummings informs us that some of the ranchers down the country will commence harvesting their hay crops during this week. The crops throughout the country this season average better than last.

Mr. Fred Zwicker came from Huntington last week and informs us that the new steamboat to run on the upper Snake river was launched a few days ago. This boat will ply the waters between the railroad and the rich quartz camps of Idaho and Oregon.

This little valley, which will always be the best place of its size in Oregon, will not continue in its old way and will not make much headway in the way of improvement until a railroad shall reach its borders; then people will find us and a great stir will come upon the natives.

Continued cool nights are a fruitful source of comment. They appeared to be nothing unusual in former years, but last summer being somewhat similar to the summers east of the rocky mountains spoiled the people and they expect the same weather again.

A resident of Bear valley says they may have all the strawberries and ice cream in this precinct on the 4th of July that they want, but he intends to dam Silvis river and fix a place for people to skate on that day. He'll have the biggest crowd, too, if his enterprise don't fail.

The Cracker creek mines which are distant from Baker City about thirty miles have lain idle for some time, but there is a probability of work being resumed at an early day. The ore will be treated by an entirely different process from that which failed, and it is to be hoped that it will be successful. Should these mines prove a failure all Eastern Oregon would feel the woeful effects.

We have received the prospectus of the second annual exposition of the North Pacific Industrial Association, to be held from Sept. 25th to Oct. 25, 1890. The mammoth buildings of this association occupy one acre of ground in the city of Portland, and there can be seen products of agriculture, the stock farms and of all the varied industries and resources of Oregon.

Eighty acres of the J. H. Howard ranch lying up and down the river was recently found to be vacant government land, no title ever having been obtained to the tract. Dan Fisk took a trip to the land office and looked up the records, when he filed on this piece which is rich meadow land, just above the house occupied by Jud Hagnewood. Hundreds of acres in this country are held just simply because the persons claiming the land have it fenced, but have no title from the government.

Judge Clifford is home again for a short vacation.

Mr. Potter, representing Staver & Walker's agricultural supply house of Portland, is in the city.

Miss Charlotte Blake returned home Sunday evening from attendance at the Bishop Scott academy, Portland.

In Boston, when a guest wants whisky straight and a dish of beans he holds up four fingers and wiggles his thumb.

Copper is rising in value. Now would be a good time to begin development work on some of Grant county's copper ledges.

The pioneers in nearly all the counties in Oregon have formed associations for social reunions. Why not Grant county?

Willie Robertson passed through town during the week bound for his home at Drowsey. He has been attending school at Portland.

Go to the John Day Millinery store for your 4th of July hats, a new supply just received. Also an assortment of extra big, bonnets, ladies ready-made underwear, etc.

Baker City had a \$10,000 fire Saturday night. The Eagle brewery and some other buildings were destroyed; thought to have been the work of an incendiary.

Prospectors continue to find ore which assays tolerably well on the surface of the ledge. They want to attain depth, however, and then their work can be ascertained.

J. Campbell Martin of Dayville says they have new potatoes as large as a man's fist in his neighborhood. We believe it, although we did not have an opportunity of sampling them.

A citizen of Wellsville, O., now seventy-four years old, boasts that he has never paid a cent to lawyer, doctor or minister. Will bet a nickel that he goes further and never pays the printer.

Canyon City is away behind any other place in Oregon, but in the opinion of Mr. Cardwell, an able lawyer of Harney county, she has the best hotel in Eastern Oregon outside of Baker City.

The American hog got a black eye in several counties of this state at last election. Harney county among others voted that it was against the dignity of the law for his hogship to run at large.

Major Whitehead Smith has been industriously engaged for years up behind Marysville in prospecting for a rich vein of quartz, and if perseverance counts anything we hope to see him sooner or later strike it rich.

Emigrants have commenced to move, but their migrations this year are unlike those of last summer, inasmuch as more than half of them are traveling in a northerly direction now. Then everything was toward the south.

Subscribers who do not get their News regularly will please make the fact known and we will try to have the matter remedied. The paper is mailed regularly at this office, and if not delivered to the proper person it is surely the fault of the U. S. postmasters.

Among the projected features of this year's Fourth of July celebration at Portland, is a mammoth balloon ascension. While moving between heaven and earth, a marriage ceremony is to be performed, the daring couple to be presented by the committee with an elegant set of furniture and a magnificent diamond ring.

It looks like Cleveland and Gray for 1892, but it may be Cleveland and Penney. The delegates to the Illinois democratic convention were canvassed to ascertain their preferences to the next presidential ticket. The vote stood: For President, Cleveland 521, Palmer 67, Hill 7, Abbott 2, Whitney 2; for vice-president, Gray 381, Palmer 112, Morrison 76, Black 39, Stroughton 21—E. O.

Baker City Democrat: In the case of J. P. Faull vs. W. H. Cooke, the decision of the lower court, verdict in favor of defendant was affirmed by the supreme court, the supreme court holding that when a settler takes up a piece of land, through which a stream of water flows and perfects title thereafter under the land laws of the United States, his rights date back to the first day of his settlement, and that no person can divert the stream from its natural channel, after the day of his settlement.

The old phrase "a bad man from away up the creek" used to be all the go, but the men quieted down and the phrase fell into disuse. A couple of Canyon City residents had been away up the creek last Sabbath and were returning in the grating of dewy eve when holy thoughts alone should possess the soul. Holy thoughts, however, were far removed from them, for they had a few words occasioned by Jack Powers omitting to make the grade sufficiently wide to admit a fast team passing a slow one, and fell upon each other's necks—not because one loved the other more, but because brotherly love was up the valley assisting Bro. Eads to convict sinners and was not around when his services were required. No arrests.

Canadian Indians hang their dead on large trees. So do Texas cowboys.

County clerk Shearer and wife were in town Monday looking for a dwelling house.

I will spend next Sunday in Bear valley and therefore will not be in John Day and Canyon City at the usual hours.

It is said that an Omaha doctor kisses his wife seventy-five times a day. That's what might be called a good practice.

A wool buyer says that 600 sacks of wool are stored in The Dalles warehouses, only about 100 of which have been sold.

Chicago has occasional evidence that it didn't hang all the dynamiters in that city while it was about it. More is the pity.

Explorer Stanley evidently believes thoroughly in cleanliness. He has personally indorsed fourteen different brands of soap.

The Siwash are becoming civilized. A tenas klutchman up at Sauk, Wash., hung herself a few days ago because of disappointment in love affairs.

A "black list" has been distributed among Pendleton saloonkeepers containing the names of so-called habitual drunkards, to whom they are forbidden to sell liquor.

Scrofulous eruptions, such as Pimples, Discoloration of the Skin, especially on face, are caused by impure blood and will disappear rapidly by using Pfunder's Oregon Blood Purifier.

It is unsafe at this time to write an editorial upon the present state of the weather, for the same is liable to change within six hours. At this writing we are thinking of praying for rain.

Some Kansas people held a meeting at Topeka, the other day, and drafted resolutions asking the governor to call a special session of the legislature, to re-submit the prohibition law to the people.

A cloud burst on the 4th inst., totally destroyed destroyed Bradshaw, Neb., and nearly washed away Underwood. Many were killed and wounded and hundreds of thousands of dollars worth of property was destroyed.

The superintendent of the census says that no one will be punished for declining to answer the "chronic disease questions," but full answers are expected to the mortgage inquiry, and any one who refuses to give information must take the consequences.

The village of Loveland, Iowa, was almost totally destroyed by a water spout last week. Several lives were lost. The town is located in a gully in the Boyer valley. A terrible storm passed over the valley, and near the upper end a cloud-burst occurred, the water sweeping down through the fatal village leaving hardly a house intact.

Reports from Sutter county, Cal., on the Sacramento river, are to the effect that not an acre of wheat or barley will be raised this season. This district, which is one of the most fertile in the state, has been flooded since December last. Not only was the grain ruined, but also fruit trees of all descriptions, excepting pear trees, which still flourish.

Hunt is expected in Baker City within a few days after he arrives at Walla Walla from New York. He comes here to look over the situation with a view to extending his road from Union on through Powder river valley, via Sumpter, to the Harney country. Baker City can't have too many roads, in fact all roads should lead to our own particular Rome, and Hunt's will be as welcome as any other—Blade.

At Virginia City, Mont., says the Denver Mining Industry, it is supposed that the quartz vein which was the source of the gold found in Alder gulch in the early days has been discovered. That gulch has yielded first and last over \$600,000 in placer gold. Somewhere toward its head the gulch must have crossed an immense vein of gold-bearing quartz. If the vein that threw off all the millions of gold has not been found, it is pretty certain that it will one day be discovered. The gravel washes to the eastward of the local character, therefore they may be traced throughout their whole course and the spot whence they derived their gold pretty correctly located. On the west side of the Sierra Nevada range it would be hopeless and a useless task to attempt to trace to its source the gold found in the channels of what is called the "dead rivers" or that found in the deep hydraulic diggings. There the gravel deposits are of hundreds of feet in depth, and extend along the main Sierra range for hundreds of miles. The beds of gravel there appear to have been deposited by some general overflow of water; were probably at one time under the ocean. What are called the channels of ancient rivers run north and south, the same as the main range of the mountains, and some miners think that the source of the gold found in them is somewhere in the far north—up toward the north pole.

Over \$10,000 changed hands on the result of the election for governor in Portland.

Hugh Smith intends retiring from business the first of next month, therefore will not take out another license.

The vote for representative in Wallawa county is a tie, and a special election will be necessary to finally make a choice.

We have a few copies of the abstract of the vote, same as was published in the News, printed on heavy paper, for sale at 10 cents or 25 cents each—whichever is the handiest to make change for.

Green Hill Presbyterian church, in Philadelphia, which has for some time past maintained the largest Chinese Sunday school in the city, has decided to give up the work of teaching these people after July 1. Stories of leprosy have frightened the young lady teachers.

The emigration of Mormons from Utah into the Sierra Madre, has been large during the last six months. At Juarez there are seventy families at Corvallis and Cove valley twenty families each. The Mexicans give much encouragement to Mormon colonies, as they will aid in destroying the Apaches, and are rapidly developing the agricultural resources of the state.

Our new "ad" from the enterprising firm of Coffin & McFarland, Heppner, speaks for itself, and it is worth your while to read the same. In order to gain new trade they intend presenting a fine large book, which retails at \$4.00 each, to every retail purchaser of dry goods, clothing, boots and shoes, hats etc., to the amount of \$25.00, allowing until Jan. 1st to make out the amount. Give them a trial order, when you send away for goods.

It is believed that the remains of George Nutting, of Crook county, who so mysteriously disappeared about a year ago, have been found. The Princeton News says: "About three weeks ago a young man, the son of Hon. Robert Mays, of Wasco county, while herding horses on the Muddy, in the northeastern part of this county, found what he believed to be the burned remains of a man. Young Mays asserted that the skull was burned so hot that it was easily recognized as that of a human." This is the neighborhood in which Nutting was last seen.

It has come to the knowledge of the Blade that two new additions to Baker City have been located in the desert hills southeast of town. They are two and a half miles out of town, and are out of sight and reach. Pastoral parties are manipulating them, and the lots are being sold to the Williamses, on the same principle that boys "swap" jack knives, "unsight unseen." This sort of thing will act as a boomerang for our boom if it is persisted in. Baker is already saturated with additions that have merit, but these fake towns ought to be exposed—Blade.

When you want to buy a really good and reliable time-piece at bottom price, that is a price which cannot be competed with by any big jeweler on account of the interest he has to make on the money invested in his stock, besides his clear profit, not to speak of his other high expenses as \$100 to \$200 a month rent, etc., come and see watchmaker Albert Hirsch, at Canyon, you can be sure that he will do anything possible to please you and get you just that kind of a watch you would like best, both as to the outside looking of it as well as to works that will stand rough handling the best. Fine watch repairing a specialty. All work guaranteed at very moderate prices. Waltham and Elgin watches.

Divine Services.

The Rev. Mr. Goss will (D. V.) hold service and preach at Prairie City, on Thursday, June 19th, and Tuesday June 24th, in the evening; and on Sunday June 22nd, at Canyon City, morning and evening. The Holy Communion will be celebrated at the morning service, Canyon City, June 22nd, and at the evening service, Prairie City, June 24th. All communicants are requested to be present. Holy Baptism will be administered at any service or in private.

Notice!

All persons indebted to the estate of Martin Gundlach, deceased, or to either of the firms of George Gundlach & Bro., and James Norman & Co., are urgently requested to come forward and settle immediately, as the business of said estate and partnership must be closed. All notes and accounts remaining unpaid after 20th of July next will be placed in the hands of an officer for collection.

Geo. Gundlach, Administrator.

Closing Out Sale.

The stock of goods belonging to the late firm of Geo. Gundlach & Bro., of Canyon City, Oregon, is now offered to purchasers at cost for cash. The books of said firm are positively closed, but cash purchasers can procure bargains by calling soon.

Geo. Gundlach, Administrator.

Hermann is elected by high vote 9,000 majority.

Go to the Red Front Billiard Hall, Canyon City, for fine wines, liquors and cigars.

A Chicago hotel furnishes a sharp razor to those of its guests who desire to shave themselves.

A good Singer Sewing Machine for sale—almost new. A bargain for cash. Enquire at H. R. Sels' store.

For information concerning the Victor Mower, the best made, address D. B. Fisk, Baker City, Oregon.

The next Oregon legislature will stand: Senate, republicans 22, democrats 8; house, republicans 40, democrats 19.

The Pacific Brewery's Celebrated Beer, the best in Eastern Oregon, is now kept constantly on tap at the Red Front Billiard Hall.

Lake Chelan, Wash., never freezes, although in 48 deg. The reason given is that it is deep, and the warm water rises from the bottom to supplant the cold.

The Humboldt mining company have struck a rich lead of gravel in their claim, leading off into the hill, and will follow it up with their giant hydraulics.

Notwithstanding the constant heavy emigration the population of Great Britain has increased more than 4,000,000 since 1885. The total population is about 38,000,000.

The fourth quarterly meeting will be held at Canyon City, June 28th, and 29th. Quarterly conference and preaching by Elder Wakefield at 2 o'clock Saturday, June 28th. Baptizing on Sabbath.

A. Eads, P. C.

There is a man in Southern Illinois who laughs at the idea that marriage is a failure. He has just married his sixth wife. Each successive wife brought him a farm, and he is now one of the largest landowners in that part of the country.

THREE YEARS AGO.

A Long List of People Cured by Dr. Darrin in California Three Years Ago. Thus Showing the Permanency of the Electric Cures.

Oregonian.

Mrs. H. F. Bailey, Benicia, Cal.—Total deafness in one ear twelve years, caused by catarrh troubles; cured last May and remains permanent.

Mrs. K. Deswrote, Fresno, Cal.—Cured two years ago of female weakness, falling of the womb, and change of life, also liver and kidney complaint.

Mrs. E. F. McKinley, 1397½ Polk street, San Francisco—Deafness two years; cured in ten minutes.

J. H. Zweifel, 10 Hayes street, San Francisco—Catarrhal deafness fourteen years in one ear, and total deafness in the other, caused by paralysis of the drum and auditory nerve; both cured.

Chas. Rogers, 627 Grove street, San Francisco—Discharge of the ear, deafness and noises in the ear since 6 months old; perfectly cured three years ago.

William Heinz's girl, 12 Dale place, off Golden Gate avenue, between Hyde and Lavenworth streets San Francisco—Dropsy, heart disease and inflammatory rheumatism, limbs swollen to an enormous size, life despaired of; cured in one month.

Miss T. M. Jaquein, telegraph operator at Berkeley, Alameda county, Cal.—Troublesome discharge of the ears, seven years; cured.

William Cummings Jr., firm of Cummings & Sons, American jewelers, 327 Kearney street, San Francisco—Paralysis of the muscles of the arms and shoulders and great pain; cured.

George Thistleton, editor Patriot-American, San Francisco, testifies to the cure of his daughter of deafness and soreness of the ear and side of the head.

Dr. Darrin can be consulted free at the Washington building, corner of Washington and Fourth streets, Portland, and Hotel Gandolf, Tacoma. Hours 10 to 5; evenings, 7 to 8; Sundays 10 to 12. All chronic diseases, blood taints, loss of vitality and early indiscretions permanently cured, though no references are ever made in the press concerning such cases, owing to the delicacy of the patients. Examinations free to all, and circulars will be sent to any address. Charges for treatment according to patients' ability to pay. The poor treated free of charge from 10 to 11 daily. All private diseases confidentially treated and cures guaranteed. Patients at a distance can be cured by home treatment. Medicines and letters sent without the doctors' name appearing.

Important Notice.

All persons knowing themselves indebted to J. S. Haptonstall individually, or to the old firm of Haptonstall & Dart, will please come forward and settle, for we must close the business of the old firm, and I want to go to California for my health. All who do not settle up by the 15th of July 1890 their accounts will be turned over to an attorney at that date.

J. S. HAPTONSTALL.

John Day, Or., May 28, 1890.

Pacific Brewery Beer.

Notice is hereby given that I have this day established an agency for the sale of the Beer manufactured at the Pacific Brewery, Baker City, Or., within the county of Grant in Canyon City, and that Mr. H. Stansell is the authorized manager of said Depot. All orders from Grant county for this celebrated beer, either in bottles or kegs, will be filled by Mr. Stansell.

HENRY RUST.

Proprietor Pacific Brewery, Baker City, Or.

Grand Fourth of July.

Picnic and celebration at Thompson's Warm Springs above Prairie City on July 4th. Oration, foot-racing, plug-uglies, etc., during the day, and fireworks and a grand ball in the evening. Music for the ball will be furnished by Ralph Fisk. All are cordially invited to come and celebrate with us.

S. A. TUCKER.

## Dyspepsia

Makes the lives of many people miserable, and often leads to other diseases. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a flat, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and restores the third mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, shrunken feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GARNER A. PAUL, Winstown, Maryland.

**Hood's Sarsaparilla**  
Solely all druggists, 25¢ per bottle. Prepared only by J. C. HOOD & CO., Lowell, Mass., U.S.A.  
**100 Doses One Dollar**

## NOTICE TO CREDITORS.

Notice is hereby given to all whom it may concern, that by deed of assignment made May 8th 1890, Geo. Gundlach, an insolvent, assigned all his property to the undersigned for the benefit of all his creditors, and that the undersigned has duly qualified and entered upon the discharge of his duties as such assignee. All persons having just claims against said estate are notified to present the same duly verified to the undersigned at the store of Geo. Gundlach & Bro. in Canyon City, Oregon, within three months from the date of this notice.

June 12, A. D. 1890.

J. W. MARK, Assignee.

MITCHELL SMITH.
