CONCERNIOG DR. DARRIN.

The presence of Dr. Darrin in Portland is filled with interest in many particulars. When he first sively, and the cry went up that there was some catch in it. Then he cured one case that was considered hopeless, and surprise was felt. After that the very worst cases in existence were given him as a test by doubters. If he cures this one I will believe it, the doubters echoed, him another test case, and another, and so on, but nearly all with the same result. He effected a cure in nearly every instance. Then the doctor's terrible rade of patients began, and the stream has been grows ing larger every day, unmbering

some of the best people in the state. A visit to the offices of Dr. Darrin is certainly a curiosity as well as a wonder. Patients are carried in one day, and after a week's time instead of being carried there they walk up the stairs as sprightly as young boys. What there is about him is certainly mysterious, for he has performed most remarkable cures, as the testimonials we have heretofore published have proved. Anyone offeeted who has not visited the famons Dr. Darrin should not lose the opportunity to do so at once, He will treat the wo thy poor free
