

THE GRANT COUNTY NEWS.

March 5, 1891.

Charles Foster of Ohio has been appointed secretary of the treasury to succeed Mr. Windom lately deceased.

It begins to look as though Canadian annexation might soon become a national issue in this country.

The legislature of California has passed a law making fortune telling a misdemeanor. It should now make a law declaring all the fools insane who believe in fortune telling, and then build an asylum in every county.

Jumping claims in Idaho is dangerous business. A man at Wallace found three men putting up a cabin on a lot owned by him. They refused to leave, whereupon he got his gun, shot two of them dead and dangerously wounded the third.

Many Canadians are talking favorably of annexation to the United States. England's bosses are growing red in the face and call this treason. Canada will soon get her back up and come over to our side where she will have a much better time.

...together in a hydraulic press, is much more durable than an iron shoe.

And now the negroes are threatening to boycott the World's Fair because they are not represented in its management. This thing is getting monotonous. Isn't it about time for hard horse sense to take the reins, in order to save us from the ridicule of the entire world?

Mr. Cleveland and Mr. Harrison seem to occupy precisely the same position on silver legislation, and it now looks very much as if both of the old parties would nominate anti-silver men next year. In that case free coinage will have to select a standard-bearer of its own, if it expects to enter the light, which it unquestionably does.

Deadlocks in Senatorial elections which are very expensive to the states in which they occur, will never be heard of when United States Senators are elected by direct vote of the people, as they should be. Bribery and attempted bribery will also disappear, to say nothing of the general advantage of bringing the Senate nearer to the people.

Just now much unnecessary discussion is going on in relation to General Sherman's religion. It matters little what religious belief the General entertained through life, now that he has passed out of the reach of earthly comfort. Religious sects would accomplish more good by trying to make the path of the living more smooth than in quarreling over the soul of the dead.

Here's another reason why ordinary people should oppose trusts: John E. Parsons, the New York lawyer who organized the sugar trust, received what is thought to have been the largest fee ever paid to a lawyer in this country—\$400,000. Although this enormous sum came primarily out of the pockets of the sugar refiners, it will eventually have to be paid by the sugar consumers, and every reader of this paragraph will have to pay a portion of it.

Bancroft, Windom, Porter, and Sherman—as illustrious a quartette of Americans as ever crossed the mysterious river of death within the same short space of time, and representing in their personal careers the triumphs of peace and war to a marked extent. They have gone, but the honor of their accomplishments remains as a national heritage, and will for untold generations to come be held up as examples worthy of being emulated by American boys.

HOW TO SECURE HEALTH.

MENTAL worry, it is thought, is the chief cause of cancer. DR. HAMMOND says that thin soles are the worst propagators of disease among women.

NEVER use the first water that comes from the tap. It has been in a lead or iron pipe all night, and is not healthful. SLEEPING rooms ought to be located not lower than the second story of the house, and should be large and airy. Pure air and plenty of it is more efficacious than drugs, and is cheaper.

KEEP the back, especially between the shoulder blades, well covered; also the chest well protected. In sleeping in a cold room, establish the habit of breathing through the nose, and never with the mouth open.

While as yet we have discovered no way of avoiding contagion which comes to us in the air, we know, from recent investigations, the extremely important fact that the air does not become contaminated with bacteria unless they are allowed to dry.

HONEY is one of nature's purest sweets, valuable both as food and medicine. It has always been esteemed a luxury—the food of kings. Eaten in small quantities with other food it is very nourishing, and favors the cure of pulmonary diseases and colds.

FLUTE-PLAYING for women is recommended as a means of health and bodily development. "Filling" a flute necessitates lung expansion. The continued daily practice begets deeper and deeper inspirations. Stooping shoulders become thrown back and the chest contracted by the habit of tight lacing becomes expanded and broadened.

AGAINST damp or cold beds a medical writer says: "Not only the guests, but the family, often suffer the penalty of sleeping in cold rooms and chilling their bodies at a time when they need all their bodily heat, by getting between cold sheets. It is a needless peril and the neglect to provide dry rooms and beds has in it the elements of murder and suicide."

COSTLY AUTOGRAPHS. BONAPARTE'S autograph is worth \$25. RUSSELL'S autograph is worth \$100.

Autograph of Dean Swift can not be purchased for less than \$60.

AUTOGRAPHS of Louis XIV. and of Henry IV. are valued at \$200 each.

The signature of Christopher Columbus finds ready purchase for \$800.

The autograph of Gambetta, which is somewhat rare, will bring \$80.

A LETTER that Raphael wrote a lady was sold for \$500.

AUTOGRAPHS of Bonaparte, Carlyle, Thackeray, Bismarck and the Duke of Wellington bring \$20 each.

NO LETTER of Moliere's is to be had; it is not known that any is in existence; but the great playwright's signature is to be had for \$200.

BONAPARTE'S last letter to the Empress Marie Louise sold for \$800, yet what is termed an ordinary Bonaparte letter is to be had for \$100.

The autographs of Victor Hugo, Zola, Melancthon, Millet, Patti, Nilsson, Mary Anderson, Walter Scott, Dickens and Gladstone bring from \$5 to \$15 each.

ONE and only one letter written by Corneille, the dramatist, has ever appeared in the trade, and that was purchased for \$200 by Mr. Morrison, of London. Corneille's signature alone sells for \$200.
