

LOCAL BREVITIES.

See the fine and low priced clocks at the Watchmaker's.

Weather has remained cool, and is a subject of general remark.

The whole is releasing for the natal day, and contemplations going into camp up the creek.

Deputy Sheriff Fisk is on a trip to the northern part of the county on official business.

Fine line of clocks never before seen in Grant county now at the Watchmaker's.

McKee and Merritt, charged with threatening the life of young John Fisk, were acquitted.

Dave Dutton is on the bench at the City Brewery, meeting members of the bar with his usual smile.

Sheriff Cresap will probably remove the remainder of Murray Bros. store to this city and sell the goods at auction.

Thornton Williams and wife, and Dr. Ashford, of Burns, passed through our town last week on their way to Baker City.

After the closing exercises of the public school Friday evening the young people tripped the light fantastic for a short time.

The last legislature enacted a law to protect song birds, but robins and cherries cannot be made to dwell together in harmony.

A telephone line has been erected between Gospel Ridge and Rebel Hill, or in other words, from the postoffice to Mr. Parrish's residence.

Go to the Red Front Billiard Hall for a cool refreshing drink of the finest lager beer in Eastern Oregon. Hack beer on tap on and after May 1st.

Judging from the extensive preparations being made for Grant county's various Fourth of July celebrations, the feeling against the British on that day will be intense.

Middle Fork ore contains silver and lead. It is free milling, and will be of great value in filling the ores of the Greenhorn section, aside from its own intrinsic worth.

Jas. Small and Jake Helmsbach who came in from their valley last Monday saw some new in the valley before they started, and met with had on the mountain.

Tom Williams recently turned his race horse "Jockey" out on the range, and now he cannot be found. It is feared by Mr. Williams that some thief has crossed the river with Jordan.

Predictions of the weather prophet have been verified in a great down-pour of rain, amounting almost in a cloud here in some places. Down about Dayville and Spanish trugh the country is said to have been nearly deluged.

Dayville section was visited by a violent thunder storm last Friday. Lightning was seen to strike the high rimrock on the north side of the river, and a large mass of rock, perhaps 10 tons, was loosened by the bolt and fell down the hill.

Joseph Putnam, of Monument, was in town last Friday and gave the News a pleasant visit. Mr. Putnam reports crop prospects flattering. His crop of rye hay is simply immense, and all other crops are in proportion in that part of the mountain valley.

Whitman & Co. run a tunnel into the mountains by near Marysville nearly two hundred feet, through hard rock most of the way, and it is thought that the ledge they intended to strike is only about twenty feet farther on. Work will be resumed next winter.

Grant county has sent to market a great many loads of wool this season, and many more are to follow. Some wool is even on the backs of sheep yet. Mr. Oliver, of Dayville, was in the city last Saturday, and informed us that Harvey Fields had not at that time finished shearing all of his bands.

John Laycock informed the News man some time ago that farmers were only waiting for the weather to settle when the work of mowing alfalfa would commence. Alfalfa is a more profitable crop than wheat at highly cultivated farms, and the farmers from John Day down would not hasten to plow up their rich meadows.

Precious metal is being found on our hills and mountains whenever any one goes out to look for it. Every prospect pleases, and only water or capital is lacking, as the occasion may require. If it is quartz, then they want money, but if gravel diggings, they are generally rich enough to require no outlay of cash in opening them—only water.

Mr. John Muldick has returned home. He did not visit the placer mines on a tour of inspection as contemplated, but talked with representatives from the mines in Idaho, and from a camp at Yreka, Cal. From reports he was not favorably impressed, although the machine at work in California was hoisting the gravel some fifty feet. In consequence of this great strain the breakage and wear was considerable, and the enormous cost of repairs was discouraging. However, correspondence is being had with the manufacturers, and all hope is not yet abandoned.

The sale of Murray Bros sheep takes place at Dayville next Tuesday.

Jas. Finnegan, of Malheur county, has been in our city on business lately.

Burns will celebrate the 14th, and will also have racing to begin July 1st.

Sheriff Cresap started to the asylum Tuesday with the insane man Yuletka.

Get your eyes fitted with the right kind of spectacles at the Watchmaker's Canyon City.

Bill Clark is running a hydraulic plant, piping in a gravel claim near to old Marysville.

The auction sale of the Dr. Horsley stock of drugs will take place in this city next Tuesday.

Bill Gray once in a while gets hold of an exceedingly fat hog, which fat indicates a splendid outside range.

A recent Times has been waiting for the weather to settle before starting out to finish with the property of the county.

It is said huckleberries will be plentiful this year, and Grant county's mountain view cannot be excelled in the production of this fruit.

Notwithstanding the cold and lack of snow, new potatoes are becoming plentiful along with other such grain "cases" in this noble country.

Everybody must try and be on the picnic grounds at Soda Springs by 9 o'clock sharp to hear the grand opening of the day by the Brass Band.

W. J. Baldu and Son, of Union county, were in town a few days ago, having been over to Harney county canvassing for an improved stock register.

Don't fail to see the large posters of the 4th of July celebration at Soda Springs 12 miles up Canyon creek. The best picnic grounds in Eastern Oregon.

People have been constrained to ask, if it will ever quit raining. A season ago we expected if it would never rain, and still mankind is not satisfied.

Mr. John Powell is breaking sod, and intends sowing a large acreage of fall wheat this coming season. Fall grain is said to fall better than the spring sown.

Rev. Father Champagne is very committal of securing a Catholic Indian school for Lakeview. But how will Champagne agree with the untutored and untamed savages?

Some of the solid stockmen of the upper South Fork were over after supplies this week. They are in good spirits over the prospect of abundant crops and fat range stock.

At the assignee's sale last Saturday, of property of James Norman the quarter section of level land was bid in by J. S. Haptonstall for \$30,000. We understand Mr. Haptonstall made an offer of \$30,000 for it at private sale.

An effort is being made to have Canyon City's streets gravelled. A good move, and one that should be urged to perfection. In fact Marshal Cunningham has already commenced the commendable work, assisted by a number of the youthful citizens.

Renewed efforts should be made toward having a mail route established between this city and Stewart, as soon as our friend Bingie Hermann returns to Washington. No doubt this line would have been in operation now if the fallers had deposited the usual per cent. with their bid, but this they neglected to do.

Jack Chambers and a prospector named Rush have found a ledge of free gold bearing quartz on Canyon Mountain a short distance above the ditch. The ledge is narrow, but the precious metal sticks out in a manner calculated to encourage prospecting. They will investigate the extent, as the ore is the richest yet found in the camp, except "float."

In our account of the homicide at Monument last week a number of mis-statements occurred, as is always the case where news has traveled a long distance and been repeated from time to time. These mistakes arose over a lead bill which Chartered Hadwell, and by way of set back to the south, and a quarrel occurred prior to the shooting. Zollinger, who was reported killed near Heppner, was only shot through the leg, and is now about well.

Frank Fisk came in from his Bear valley ranch last Monday leading the mare that was sold by the sheriff some time since to satisfy a judgment held by John Nosen against John Murphy. She was bought by Walt Berry and taken over to Bear valley, and Mr. Fisk knew her as soon as he saw her, and recognized her as one he had lost three or four years ago. In addition to his brand, the mare had another, J. A. B. connected. Legal proceedings will be instituted for her possession.

The Oregonian mentions a rough room found at Amusville, that measured 18 1/2 inches in circumference. We are away ahead of that, for Jas. Small found one at his place in Bear valley that was over 14 inches in diameter after the outer surface was removed. He intended to bring it to town, and was ready to start, when he found the food delivery would not go into the bucket in which he intended to haul it, and it would not bear transportation otherwise. Grant county is far ahead of Wolflost land in mushroom production as well as everything else. And still, we have no mushroom towns, and such things.

**GRANITE GRAINS.**

GRANITE, June 19, 1891.

Taylor Atholme passed through to the Greenhorn district.

Mr. Barnhart, of Sheep Ranch county, was in town a few days ago.

Somebody said Walk Tabor had gone to Baker—sure enough the public school there has closed.

All the North Fork claims are being run to their fullest extent. We hope their cleanups will be good.

F. Parker passed through on his way to Baker. He had been making a business trip to the Cabell Bros. mine.

Mr. Burdham, who has been stopping for some time with H. Met arm, left yesterday for Greenhorn equipped for a prospecting tour.

T. P. McEvoy changed his mind and will not return to Granite this summer, so the white blacksmith shop will be without a workman.

B. Dunning, who is managing the Milwaukee player claim, has laid the hydraulic elevator on the shelf. It is not a financial success this season.

Tabor & Son have had a two months run on their placer mine and the water still looks out. They will make a splendid cleanup as their ground is good.

Everything is very quiet here in Granite. Although nearly every day some prospecting outfit may be seen wandering their way towards the Greenhorn country.

It rains and it boils and it boils stormy weather and has been for two or three weeks, but it makes the placer miners smile a lengthy "smile" because it increases the water.

Grant Thornberg, the general landlord of the Granite belt, has inspected a very fine race of animals of the bovine genus, horned species, scale perforation, of Hereford lineage. He seems very proud of this accession to the attractions which he is making a hotel life pleasant. Call and ask him about it.

The postmaster general has informed our postmaster that the change of mail route petitioned for by us cannot be granted, because of the remoteness of people along the route. The people of Granite have been credibly informed where the kick started, and from the sentiment generally felt and expressed the kickers will fail to get the change of longeing so many of the granite dumps are heretofore. This is as it should be, there are other places where lodging can be had. They will eventually see they have killed the goose that laid the golden egg.

Mrs. McCann and daughters Maggie and Letta are soon expected to return to their home in Granite. They have been in Baker the past winter where the young ladies were attending school. Miss Maggie is to be congratulated on her prospective inheritance, and should hold in sacred reverence the memory of her father, who anticipated her welfare by leaving such a bequest for her. Such an example as this might be followed by other fathers. What a great "boast" it would be to the hapless citizen who takes upon himself the responsibility of taking care of the dear creatures for the remainder of their natural life.

**Notes of sale of New York goods.**

Rails on the Sumpter valley railroad are being laid at the rate of about a half mile per day.

At Moody's warehouse in The Dalles 1,818,750 pounds of wool have been received this season.

Hines & Mason sold in Buckeye mowers to Geo. Zollinger the other day. Several notes are spoken for, but freight is difficult to get in.

That was a level headed youth, who when asked by the preacher if he did not want to go to a better country, replied that Grant county is good enough for me!

A man named Cain, residing down about Cabell, had an examination before Judge Bilbush this week, charged with the larceny of a horse. He was discharged.

An upcountry exchange got a marriage notice and a grant's notice mixed up, and the combination read thus: "John Smith and Miss Ella Gray were united in the holy bonds of matrimony which will be sold by the quart or barrel." Mr. Smith is an esteemed cod-fish at ten cents per pound.

While completely chewing Uncle David Rusch's apples these days the thought is, think that in no land in this broad country are such excellent apples, and such splendid keeping apples, raised, as in Grant county. Now is the time to plant more trees, that they may be bearing when we are flat with shipping facilities.

The rich quartz ledge discovered on the mountain lately was found a couple of feet beneath the surface, and they only after much searching and digging. This country has been hitherto only been prospected in a big hurry. If the ledge was seen sticked in out of the ground a few feet a piece was broken off and a location made. But to dig for one, hardly ever. We will say more about this lead when its extent is proven.

A Polk county grower has netted \$300 off an acre of gooseberries.

Exworthy & Fisk took a new Crown mower out to their ranch yesterday, and will set it to cutting Bear valley hay. Their purchase was made of Baische & Co.

Joe Redler, of Crow Camp, will have considerable fruit this year, consisting of apples, pears, plums, etc. Who was it said fruit would not grow in Harney county? says the Burns Herald.

A young girl is under arrest in Newbury, N. Y., who within three months married an old farmer, buried his house and barn, roasted his weak-minded son to death, and finally ran away from the town with a livery team.

Signor Cortis, late Italian consul at New Orleans, in his report on the lynching there, says the victims belonged to no particular society, but were considered simply because they were Italians and competitors in the labor market.

A distillery on quite an extensive scale is soon to be in operation at Troutdale near Portland. It is being built by the Portland Distilling and Cattle Feeding Company, and will have a capacity for using 1000 bushels of grain, wheat and rye per day.

Miss Elan Gosdale, a well known author, who is the government inspector of Indian schools in North and South Dakota and Dr. Charles A. Hartman an Indian of the Sioux tribes, who is government physician at Pine Ridge agency were married recently.

Frank McClure paid a visit to his Soda ranch during the week. He returned home Saturday, and said there was white frost in that country Friday night. His rye crop is not so tall as it ought to be, but will make a good crop. Grass is good, but short.

Particulars have been received of the killing of three negroes and the wounding of another near Clear Springs, Arkansas. The sheriff attempted to levy an execution on some property and the negroes resisted. A public lynch was held with the result stated.

An Oreganite having been appointed by the change of the "Baker" time, a Public Indian of the Walker river reservation, at Bridgeport, Mono county, California, was sprung from the court room by the friends of the murdered man and hauled to prison.

The ruling of Judge Shiras in the number case of the Indian Plenty Horos, that the accused was not guilty of murdering Lieutenant Casey because a state of war existed at the time, may be good law, but the effect will certainly be bad for white men.

Mr. F. Clark arrived here Monday from the Greenhorn mountains. He brought some very rich specimens of brittle river, which under the blow pipe, yielded globules of pure silver, and which assayed over \$2000 per ton. He reports every looking favorable in the mines in the Greenhorn district—Oregonian.

The saloon keepers of Rockford, Wash. are wild over a notice given them by the secretary of the local I. O. O. T. lodge to close their saloons on Sunday or the law of the state would be enforced. As a species of retaliation, they have combined and refuse to contribute anything toward a Fourth of July celebration.

The following are the top prices obtained at the late sale of Tasmanian Woods at the London Wool Exchange: 36, 35, 31, 30, 29, 28 and 27 cents per pound respectively. It is somewhat remarkable that all these clips had been treated with the Cooper Dip, and the makers claim it is indisputable evidence of the excellence of their preparation.

It seems strange that the United States senators did not see how proper it would have been at this time of the year to be absent on a little trip out in some distant part of the state which they have never visited as Grant county or Wallawa or Klamath, when the people are hospitable and the fishing is fine—Oregonian.

The Dalles, Dufer and Silkstone railroad company has been organized with a capital stock of \$100,000—every dollar of which has been subscribed—and the incorporators are R. H. Norton, T. A. Hudson, G. A. Elobe and E. B. Dufer. This is the railroad from The Dalles to the Fossil coal mines. The object is to build a postage railway above The Dalles and complete the line to Dufer, Oregon, this fall.

The sixty Chehalis militia who went to assist the United States troops in suppressing 1889 United States citizens who are living in the Indian country without permits, all became drunk, and it is said they had a gallon jug on each saddle and a barrel in the commissary wagon. They killed a farmer's horse, stopped a white farmer on the road and threatened to shoot him because he was white. So much whiskey in the possession of Indians who are clothed with some authority is liable to result in the loss of several lives, as when they are drunk their only desire is to shoot and kill. Indians make poor soldiers, especially when firewater is handy.

**Church Cleverly Captured.**

Deputy Sheriff Henry Overholt, Fry Wilson and C. F. Goff arrived in town last Saturday evening having in custody Mel Church, the slayer of Hadsell. His capture is thus described by the Heppner Record.

"Parties from Long Creek and Monument were on his trail, but missed it and came in before the news arrived of the attempt to kill Zollinger. Immediately upon the report of the Zollinger tragedy Sheriff Noble sent men out who scoured the foot-hills in every direction. A posse was sent to the spot and traced him to where his horse was found, about two miles southeast of what is known as 'the saddle,' near the head of Cabin canyon. He had abandoned his horse early Monday morning and proceeded on foot, arriving at Charley Long's place, near Colwell grade about five o'clock in the evening. Charley knew Church, but did not make himself known. James Brown, who is stopping with Long, lunked with Church, and says the latter never let go his pistol, sleeping in it in his hand. The boys did not care to attempt his arrest while he was in possession of his pistol. He could be easily cut off from his rifle, which was at some distance in the corner of the building. Long was standing between Church and the gun, when Brown, without arousing suspicion, asked to see the pistol. The weapon was handed over in an unguarded moment, when it was turned on him with a demand to surrender. Church realized that he was a prisoner and made no resistance."

After his capture on Tuesday Church was taken to the Heppner jail, and on Friday evening the officers started with him to Long Creek, arriving there Saturday morning, having traveled all night.

There he was given a preliminary hearing, but waived examination and was committed to jail without bonds to await the action of the grand jury.

Church denied having shot Zollinger, and expressed regret at having killed Hadsell. However, in the heat of passion the young man has placed himself in a position where it is not possible for deep regrets to make amends.

The entire consolidation ticket was elected in Portland by a large majority.

The treasurer's statement shows a net cash balance of but \$1,255,000 in the U. S. treasury, which is the lowest figure yet reached.

Harney county has the honor of being the most civilized county in the state. It has no representative in the state penitentiary, no prisoner in the county jail.—Items.

William Curtis, of Tillamook county, was killed by his vicious stallion. When found, the horse was on his knees tearing him to pieces and had literally eaten him up!

The head of the great Northern Pacific railway system is only forty years old. He began his railroad career as a surveyor's rostrum. Who would not be proud to live in a country where such progress is possible!

A colored philosopher says: "Life is mostly made up of 'pay in' for 'rain in' within 'would clear off.'" This colored philosopher is supposed to live in the South, since a Southern newspaper that reports him; but if he lived in Oregon his habit of observation would certainly have evolved the same truth.

The people of Galena are to be congratulated on the statute of General Grant. It is first-rate American art, with no classic nonsense about it. It shows the general with his hands in his pockets, where he always put them, looking so natural that the only wonder is that he consents to stay on the pedestal instead of getting down and lighting a cigar.—St. Louis Republic.

State controller Colgan has announced that he will refuse to sign the warrants granting \$300,000 to the California world's fair commission for a state exhibit. He bases his action on the provision of the state constitution, which says no money should be appropriated for the benefit of any association or institution not under the exclusive control of the state.

Chehalis county, Washington, a county situated very much like Grant, has just voted over \$300,000 in bonds to construct wagon roads. It is a long time until the bonds mature, but the moment the roads are completed, the actual value of property in the county will be doubled, and the people will be enjoying good roads. A much less sum than this would build excellent highways throughout Grant county. Good roads and bridges are the foundations of the country's prosperity. Without them its resources remain undeveloped, and business of all kinds is stagnated and retarded. The richest and most prosperous communities of the state are those in which the public highways are generously provided for and maintained.

**Smith-Southworth Nuptials.**

In Woodstock, Illinois, on Wednesday, June 17, 1891, Mr. Seneca Smith and Miss Sue E. Southworth, Miss Southworth is a sister of our fellow townsman, W. S. Southworth; and Mr. Smith was formerly judge of Multnomah county, and is one of the leading business men of Portland, Oregon.

Scrofulous eruptions, such as pimples, discoloration of the skin, especially on face, are caused by impure blood and will disappear rapidly by using Pfunder's Oregon Blood Purifier.

The price of sheep pelts, hides, etc., still keeps at a good figure. We quote Pelts, 14c to 15c, hides, etc. Regarding wool the market is still very inactive, although the product is in good condition and in quantities not equalled in any previous year.—Mountaineer.

When you send away for goods remember the firm of Collins & McFarland at Heppner. They not only guarantee you first class goods at lowest prices, but they pay mail or express charges on same to any stage office in Grant or Harney counties. See their new "ad" for further particulars.

The Pontleiton militia company tried to disband the other day, but Col. Houghton declined to allow them to doff their uniforms and lay down their muskets. He instructed the commanding officer, Lieut. White, to call a meeting for the election of a captain, and to compel attendance if necessary. There is a good deal of "play soldier" about the militia, but some things are really in earnest.—Oregonian.
