

THE GRANT COUNTY NEWS.

July 30, 1891.

Don't destroy the News after you read it; send it to a friend in the East or elsewhere.

The supreme court of Minnesota has held that evidence that the payee of a note intentionally included therein a greater sum than the amount loaned with 10 per cent. interest on the face amount of the note, whereby he secured to himself a greater compensation for the forbearance of the sum actually loaned than the statute allows, was sufficient to support the charge of usury.

Willamette valley is being flooded with Eastern Oregon horses and it is almost impossible to sell them, so says every one coming from there. The Fopiana horses that passed through here some time ago are meeting with a dull sale. When such horses as those were cannot be sold readily, there is not much use of trying to sell an ordinary band of horses. *Prineville Review.*

We haven't any right to stane the European "snob" as long as our newspapers persist in giving the public the most minute details, as far as they can get them, of the president's domestic life at his seaside cottage, and the more of this sort of stuff they print the more papers the public will buy. The American "snob" is getting entirely too numerous for the good of the country.

The Rural New Yorker says: "The farmers of Eastern Oregon and Washington are jubilant at the enormous wheat crop of this year and the excellent prices offered for it. The yield and acreage last year were the greatest in the history of the country, and trustworthy estimates make a probable increase of from 30 to 50 per cent in this year's output. Interior shippers, however, are becoming alarmed lest the railroads again find themselves unable to move the crop as fast as offered, and lest last year's blockade should be repeated. So long as farmers can contract their wheat at 70 to 75 cents per bushel, delivered on the cars, they have no ground for complaint."

There is no end to red tape monkeying in affairs connected with the federal government. The accounting officers of the treasury department have decided that the judges and other officials of the recently created private land claims court must not be paid their salaries until they have been confirmed by the senate; another decision by the same august authorities is that assistant secretary of the treasury, Crouse, who was appointed to succeed Gen. Bacheller, who was appointed minister to Portugal, can draw no salary until he is confirmed by the senate. Judge Beatty, of Idaho, who was nominated before congress adjourned, but not confirmed by the senate, and who was after congress adjourned appointed by President Harrison in the same predicament, no salary will be paid him until he is confirmed by the senate. These decisions may be in strict conformity with the law, but they certainly are not in touch with plain everyday common sense. These officials are all performing the duties for which they were appointed and they should be paid their salaries.

The postmaster general is anxious to change the unfavorable showing made for the fiscal year ending in 1890, during which only 60 cents were earned by American ships in carrying United States mails to Europe, while nearly \$400,000 were paid to foreign ships for carrying similar mails to Europe. He aims to put a first class rapid weekly service on two transatlantic routes, one to Great Britain and another to a continent al port. The requirements of the new service in connection with the enlargement of the old service will, it is estimated, call for the building of five vessels of the first class, seventeen of the second class, five of the third class, and four of the fourth class, at a probable cost of from \$27,000,000 to \$30,000,000. Vessels of the first three classes are to be so constructed as to admit of their prompt and economical conversion into naval cruisers. The maximum bounty to be paid by the government is to be \$4 per mile for the first class, for the second and third class \$2 per mile, and for the fourth class two thirds of \$1 per mile of the shortest practicable outward voyage.

TOTAL DEAFNESS CURED

In Twenty Minutes by the New Electric Cure as Practiced by Dr. Darrin—Elder Wm. Harrington the Happy Man.

To the Public—I am so surprised and pleased at the cure of total deafness of ten years' standing that I wish the whole world to know it. My experience with Dr. Darrin was so brief that I hardly know what he did, only that I was treated with electricity and cured in twenty minutes so I can hear a watch tick and ordinary conversation and the rumbling of wheels and cars in the streets which I could not do before. I have preached the gospel for thirty years, being an elder of the Christian church. My daily sermons in the future will be to praise the electric cure and Dr. Darrin. I am seventy-four years old. I reside at Middleton, Or., and was sent to Dr. Darrin through the influence of Wm. Parrot, of Middleton, Or., who was cured of deafness four years ago by Dr. Darrin. Wm. Harrington.

Dr. Darrin's Place of Business.

Dr. Darrin treats all curable private and nervous diseases, secret blood and skin diseases, sores and swellings, nervous debility, impotence and other weaknesses of manhood. He corrects the secret errors of youth and their terrible effects: loss of vitality, palpitation of the heart, loss of memory, despondency and other troubles of mind and body. Prevents consumption, heart disease, softening of the brain and spine, insanity and other afflictions caused by errors, excesses and diseases of boys and men. He restores lost vigor and manly powers, removes deformities and restores organs to health. He also cures diseases caused by mercury and other poisonous drugs used in the improper treatment of private diseases. He continues to treat all classes, the rich and poor alike, free of charge, at his office, 703 Washington st., Portland, from 10 to 11 a. m. daily. Those willing to pay from 11 a. m. to 8 p. m., at half his former price. He gives free and confidential examinations to all at the office or by letter. Patients visiting Dr. Darrin will take cable car one block from depot, and ride within one block of his office.

Used the Crown Six Years.
BERRY RIVER, March 1, 1890.
MESSRS. BASCHE & CO.
I have been using the Crown machine for six years. It is a very light running and durable machine. As long as I have used the machine it never has raised a sweat on my brow. It is also very light on the horses' necks. Yours Truly,
GEO. W. ELLIOTT.

Simply the Best.
DUNSMY, Or. March 17, 1890.
MESSRS. BASCHE & CO.
The machine I bought runs like a top and I think it beats all others in the shade in all kinds of grass and all kinds of ground. It is simply the best for light draft and speed.
M. F. HOWARD.

His Favorite.
PRINEVILLE, Feb. 27, 1890.
MESSRS. BASCHE & CO.
I will state without hesitation that the Crown mower that I purchased of you last year has given good satisfaction, and is my preference of any mower I have ever used. Very Respectfully,
G. W. McHALEY.

The Acme of Perfection.
JOHN DAY, March 14, 1890.
MESSRS. BASCHE & CO.
I think the acme of perfection has been reached in the invention of the Crown mower. We have been disgusted every year in trying to mow our meadow, on which grows a peculiar kind of grass. All other machines we tried would leave half the hay standing, but the Crown cut it as smooth as a new-shaven face. We tried it with like results in all kinds of grain, hay and rye grass. All our neighbors who see it work think it is the best of all mowers. Yours Respectfully,
T. H. COLE.

The Very Best Mower.
CAMP LEWIS, March 2, 1890.
MESSRS. BASCHE & CO.
In regard to the Crown mower, I like it very well. It works well in all kinds of grass, and where the grass is lodged or very rank by putting on the increased speed it works to a charm. It is the best mower we have in this country, and I can recommend it to any person wishing to purchase a mower. Yours Respectfully,
J. J. COZART.

THE HEPPNER WAREHOUSE

Has been enlarged to accommodate the increasing business. The wools of this section which accumulate at Heppner, attract all the leading Western buyers to that point, and make it the best market in which the grower can dispose of his clip. Last season over 1,000,000 pounds of wool was sold in Heppner at prices which averaged the grower more clear money than was realized by sales of similar wools in other western markets more distant from the manufacturing centers of the East.

Teamsters charges advanced on written orders. Cash advanced on wool in storage.

T. E. FELL, Manager.
