Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Saraaparilla overcomes that tired feeling, creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

Fagged Out

"Last spring I was completely fagged out.
My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one buttle of Hood's Barsaparilla, and it cured me. There is nothing like it." R. C. Broone, Editor

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an exceltent appetite." Ep. JENKINS, Mt. Savago, Md., N. B. H you decide to take Hood's Sarsaparitla do not be induced to buy anything else

not the nominee of any party. Not less than five days before election, the sheriff shall deliver ballots to election precincts, prepare election booths and appoint deputies to take charge of election in each

precinct. Three booths, where voters can make out their tickets in secrecy, shall be prepared, though in a position that jubges can see that only one man is allowed in a booth at one time. Those who cannot rend or write can have the assistance of two of the judges. The names on the tickets not voted for, must be scratched out with an indellible pencil, which is left on the table in the booth, and the tickets are folded so that the judges cannot see how voter voted.

The clerk of election hands out the tickets to be voted, tearing off one stub on which he writes the voter. The voter retires to a booth and prepares his ticket, and on presenting it, the remaining stub is torn off before the ticket is deposited

in the box. For all violations of the law, any disorderly conduct, obstructing polls, illegal voting, intimidation, etc., the law provides rigorous fines and penalties.

Advices from the American mission on the Congo river near Palla Balla station, state that five American missionaries, three men and two women and seven native converts and servants were murdered. per ct. difference. ROYAL BAKING POWDER Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Covernment reports, with pretended analyses and certificates, wherein an altempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent to 60 per cent, more leavening strength than any other cream of tartar baking powder, and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third, besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit, and cake made perfectly light, sweet, and palatable-advantages not to be had in the use of the low-grade, cheaply made baking powders that contain lime, alum, and other impurities.
