HERE AND THERE.

Bits of News Picked up Among the Railroads.

The influx of homescekers for Oregon shows no eigns of abatement. All the transcontinental lines are doing a good business. It is prohable that not less that 75 to 100 people are pouring in. Most of the men have families of 4 or 5. From here a large number leave for Western and Southern Oregon, via the Southern Pacific

M. Stephenson, as general agent of the Wisconsin Central, vice O. W. Jonkstone, assigned to other duties. Mr. Stephenson's appointment became effec-tive March 5. The press dispatches announce that the special of President Harriman, of the Union Pacific, is en route for the Pacific Coast, via the Southern route, and is already trundling through Mex-ico. Mr. Harriman's visit to this sec-tion-and he will undoubtedly visit Port-land-will be awaited with interest. Incoming trains from the East are frequently delayed these days, owing to the congested condition of westbound trains. Many of the trains are divided into two or incre sections. The increase in travel is due, to the unusually large number of homeseekers desiring to lo-cate in Oregon and Washington. Civil service will be the order of the day on the O. R. & N. Oregon Short Line, and Union Pacific. A prelimin-ary meeting of the O. R. & N. examin-ing board-M. J. Buckley, S. S. Butter and Frank Weiden-was beld at The Dailes last week. Aspirants for rail-road positions will be given an examin-ation within the coming month. Padific Company has contracted with the American Bridge Company to erect a boller-shop in East Portland for the for-mer. Similar improvements are to be installed at San Francisco and Los Ange-les as well as at El Fuso, Tex., and at Houston, Tex. The Southern Pacific is greatly to be commended for the improvements it has made in the grounds about its shops at the south end of East Twenty-first street. It is the general tendency of railroad companies nowadays to convert sbop grounds into beauty spots. This is in line with good taste.

THROUGHOUT OREGON.

Mining men generally are of the opinion that there is a crying need for a revision of the mining laws of the state. The mining interests have advanced so ma-terially and have developed so largely in recent years, that it would seem Oregon has outgrown original provisions entirely inadequate now. Fruit trees-particularly apple trees-are in great domand, and dealers are cor-respondingly pleased. The inquiry seems to be for no one variety in particular, as most buyers desire a great many kinds.

to be for no one variety in particular, as most buyers desire a great many kinds. Great as are Oregon's possibilities in ap-ple growing, she is evidently still further to be heard from. Jacob Baker recently served a work-house term at Pittsburg. After his dis-charge he attempted suicide because he had been there "humiliated" by being computed to take a wasky bath He had been there "numinated" by being compelled to take a weekly bath. He was arrested and sent by the Justice to the workhouse for further ablutions. CITIES BUILD DOWN STREAM All great cities on navigable streams start at the head of navigation and build down stream. This rule has no exception. The railroad to St. Johns opens the way for Portland to follow the rule. There will soon be a solid city to the point of the Peninsula and University Park will be the center of wealth and culture of all the city between the rivers. Nobody will dispute this statement. If you are a stranger here step into any place of business and ask, "What is the course of the business growth of this city? The answer will be as above stated. Now is the time to get a few lots at University Park while they are yet cheap. We have Columbia University, Portland public schools, Bull Run water, street cars, homes costing from \$1000 to \$10,000, graded boulevards, graded streets, sidewalks, electric street lights. Lots \$75 to \$200 each. Terms, \$5 cash and \$5 monthly. No interest, no taxes, no shanties, no saloons. Abstract with each deed. UNIVERSITY LAND CO. 151 Sixth St., near Morrison

The police committee of the San Francisco Board of Supervisors has de-cided that if any athletic club of that city secures the Jeffries-Fitzsimmons fight, it will be conditionally. The string that is tied to the coming scrap pro-vides that such club must agree to do-nate not less than \$5,000 of the proceeds of the fight to some local charitable in-stitution before permit will be granted.
