THE CHASE PAINT @ OIL Co. use a check and make its value 10 cents. If you desire to buy some material for your house you can easily make money by using these checks. Ten of them are worth a dollar.

J. N. BRISTOL, THE MORRIson street grocer, uses the check. Save up 10 cents worth of these and see how it works. Like getting money from home.

THE JOURNAL HAS INTRODUCED A NEW IDEA IN ITS **ADVERTISING** COLUMNS

It is something which will profit both the reader and the merchant using them. The idea consists of a check, mostly of the value of One Cent. These are put in the body of the advertisements and when cut out and presented to the firm using them will be the same as the coin when accompanied by additional money. That is to say if you cut out a check and present it to the store, together with 9 cents, it will buy 10 cents worth of merchandise. Supposing you are trading at a grocery store and at the end of the month you desire to settle. Heep your checks for the month. If the advertisement is run every day there will be 26 of them. This is the same as 26 cents and it will pay that much of your bills. They will save money for you. It will make advertising more attractive and give it a greater value to the ordinary reader. This is what it is for. Build up the value of advertising. It is to teach the public that it pays to read advertising, particularly The Journal kind.

THE JOURNAL IS WORTH FROM 10 TO 15 CENTS TO YOU EVERY NIGHT

THIS IS MORE THAN THE SUBSCRIPTION PRICE FOR A WHOLE WEEK
