

# LOOK FOR THE LITTLE TRADING CHECKS

**THE CHASE PAINT & OIL Co.** use a check and make its value 10 cents. If you desire to buy some material for your house you can easily make money by using these checks. Ten of them are worth a dollar.

**J. N. BRISTOL, THE MORRISON street grocer,** uses the check. Save up 10 cents worth of these and see how it works. Like getting money from home.

## THE JOURNAL HAS INTRODUCED A NEW IDEA IN ITS ADVERTISING COLUMNS

It is something which will profit both the reader and the merchant using them. The idea consists of a check, mostly of the value of One Cent. These are put in the body of the advertisements and when cut out and presented to the firm using them will be the same as the coin when accompanied by additional money. That is to say if you cut out a check and present it to the store, together with 9 cents, it will buy 10 cents worth of merchandise. Supposing you are trading at a grocery store and at the end of the month you desire to settle. Keep your checks for the month. If the advertisement is run every day there will be 26 of them. This is the same as 26 cents and it will pay that much of your bills. They will save money for you. It will make advertising more attractive and give it a greater value to the ordinary reader. This is what it is for. Build up the value of advertising. It is to teach the public that it pays to read advertising, particularly The Journal kind.

## THE JOURNAL IS WORTH FROM 10 TO 15 CENTS TO YOU EVERY NIGHT THIS IS MORE THAN THE SUBSCRIPTION PRICE FOR A WHOLE WEEK

### MUST HANG.

#### Will Create a Sensation on Scaffold.

(Journal Special Service.)  
**CHEYENNE, Wyo.,** March 22.—Charles Woodward, the murderer of Sheriff Rucker of Montana county, will be hanged at Casper on the 28th of this month, when the mandate of the court will be carried out by Sheriff Tubbs and his deputies. Attorney Bennett who defended Woodward is in Cheyenne today. No bill of exceptions has been filed and it is said that the case will not be appealed to the Supreme Court. The wealthy relatives of Woodward in the West who were reported to have done so to his assistance and offered to pay the expenses of an appeal, failed to materialize and Woodward is doomed to hang at the time set by the court. Woodward is aware of the fact that there is now no hope for him and he is preparing for the end. He still insists that he will make a speech on the gallows and that his remarks will cause a sensation.

### DINING CARS.

#### Union Pacific Lines Resumes Charge April 1.

The experiment made by the O. R. & N. Company several years ago in relation to its dining car service has not proven satisfactory. Three years ago these were turned over to the Pullman Company. April 1 these will again pass into the control of the railroad company. Not alone on the O. R. & N. will this change take place, but all over the Union Pacific lines. The cars are already owned by the respective roads, so that no very great sum will necessarily be expended in making the change. It will surprise the public to know that railroad companies generally do not make any money out of their dining car service. The prices charged upon the menu card are thought to be excessive, yet the average traveler would rather pay 50 to 75 cents for a meal than to bolt a cup of alleged coffee and a few sinkers at a station at his seat.

### SEEKING INFORMATION.

President J. T. Omo and the nine members of the Spokane City Council, who spent Thursday and Friday in Portland inquiring into the desirability of two competing telephone companies operating in the same territory, left for home last night. The body divided into four parties and interviewed telephone subscribers on the subject. None of the visitors are willing to say what will be the result of their inquiries. Thursday night the Spokane lawmakers attended the Baker theatre in a lobby and witnessed the refined vaudeville that is being given there. The party was under the guidance of the Pacific States Telephone & Telegraph Company Thursday, and yesterday was the guests of the Columbia Telephone Company.

### HOUNDING DEER.

State Game and Forestry Warden Quimby said that his deputy, E. G. Hodson, at Roseburg, who had arrested two men after in a charge of hounding deer, failed to secure a conviction, the men take advantage of a legal technicality. They were found with the meat in their possession, and a complaint was filed against them, but was made to read venison hams instead of deer hams. It is Mr. Quimby's opinion that had the case come up in the Circuit Court, instead of the Justice's Court, a conviction would doubtless have resulted.

### STREET IMPROVEMENT.

An important meeting of the South Portland Improvement Association will be held this evening in Hokkita's hall. A report of the committee which was in charge of the first street gully filling will be heard. There are several other important measures to be brought before the meeting.

### NEW PLACES ARE MENTIONED

#### Votes for the Exposition Site Coming Lively.

Now comes the Knox and Abrams tract and Cycle Park into the contest for the Exposition site. One voter, speaking of the Knox and Abrams tract, writes that it is located between Multnomah tract and the Willamette river, contains 90 acres, now a cow pasture, is high and slightly and lies not more than three quarters of a mile north of Aloha. He says that lakes may be had at the base of the bluffs and that, in his opinion, this is the ideal spot at which to hold the show. Captain W. S. Griswold seconds the motion, and praises the Knox and Abrams tract for all that's out. Cycle Park is recommended by several voters, who praise its location for its sightliness, its fine grove of fir trees and its hundred acres of perfectly level ground. Sellwood is lauded to the skies, and so is the Peninsula location. A half a dozen ladies attach their signatures to ballots all enclosed in one envelope, and express themselves as hopeful that Ladd's Field and Hawthorne Park may be chosen. They ask the Journal to ask their friends to "be up and doing," and rush in the votes for this location.

This contest has just begun and the Journal will not end it until every person desiring has cast his or her vote. Remember, it is not necessary that voters shall be stockholders. Every reader of the Journal is entitled to vote. Send in your preferences. We want them. The following will show how the ballot stands as we go to press:

Peninsula	12
Sellwood	12
Ladd's Field	12
Cycle Park	14
Knox Tract	9
Fulton	6
Cycle Park	4

Cut out this coupon, write your choice and send it in.

### JOURNAL CONTEST.

#### MY CHOICE FOR THE EXPOSITION SITE

Name.....  
Address.....

### THE CHURCHES.

At the First Baptist church, Alexander Blackburn, D. D., pastor, will preach Sunday, 10:30 a. m. Subject: "The Baptist Churches in America." At 7:30 p. m., subject: "Why I am a Baptist."  
The Woman's Christian Temperance Union will hold its regular meeting with the Volunteers, at their hall, 28 North Second street, at 8 p. m. Sunday.  
The Ladies Aid Society of the First Baptist church has chosen the officers for the next year, as follows: President, Mrs. E. M. Runyon; vice president, Mrs. Addie Mohler; secretary, and treasurer, Mrs. W. H. Seigener. A meeting is called at the church on Wednesday, March 27 at 2 p. m. The Young People's Society has suspended its meetings the past two weeks on account of the revival services. These will be resumed on Tuesday evening at 7:30. Easter will be observed by a Sunday school welcome day at the church hour in the morning, and special services in the evening.  
There will be no services at the Y. W. C. A. building Sunday as the members will attend services at the First Congregational church.  
Purim services will be held this evening at the various Jewish houses of worship.  
Preferred Stock Tomatoes. Enclosed (with green peppers) appetizing.

### GLADNESS NOW.

#### Hundred Year Battle for Happiness of Today.

(Journal Special Service.)  
**DENVER, March 22.**—Judge Ben B. Lindsey, of this city, has returned from Havana with good reports of what he saw while in that country. Among other things, he said today: "The public school system in Havana has reached a remarkable stage of development since the American soldiers occupied the island. The greatest strides have been made within the last year under the management of Lieut. Hanna, who is superintendent of schools in the capital. The principal teachers are all native Cubans. The largest school in Havana is installed in a mammoth building that was used under the Spanish regime as a yellow fever hospital. About 1,500 pupils are taught here. The state industrial school for girls is the most perfect institution of its kind one can find anywhere. An old Spanish post house has been cleaned and utilized for the school. "You would be surprised to witness the educational work that is being accomplished here under the tuition of the sisters of Mercy. I visited the school for dependent children at Santiago de los Caballeros, 30 miles from Havana, where more than 400 boys are reared. There is a similar institution for girls about 10 miles from Havana. Every modern convenience is found at both schools. Capt. J. H. Crawford is in charge of the boys' school, and under his management the boys are taught useful trades. "I met Col. Shelton, of Wyoming, a cattle man. He told me that there were greater prospects in Cuba for cattle raising than in his own state, and that he intended to locate there. Gen. Greenville M. Dodge, who built the Rio Grande Western railroad, is in Cuba constructing the Cuban Central railroad, which will be between 200 and 300 miles long, running from Matanzas located about 10 miles from Havana, to Santiago. The corner of the island will be traversed and some of the richest country in the world opened. There are great opportunities for Americans in Cuba who can place themselves in touch with the situation. A good American hotel is badly needed and the who starts one will make a fortune. "The public school system in Havana is yet in the embryo stage, but the day before I left I saw a school which had a kindergarten, with the principal, teachers and it was deemed to be \$1,000,000 for constructing a sewerage system. The water works system is one of the finest in the world, and the water is excellent. There has not been a case of yellow fever in Havana for a year. "The 20 are being held in Havana. I witnessed part of the trial of Neely. In the preliminary proceedings the prisoners are required to have their hair cut. "April 15 the day when President-Elect Estrada Palma will be inaugurated, is looked forward to with great pride and interest by the natives. They have arranged 100 days for such a day and after it is over I think they will then begin to consider seriously of annexation to the United States."

The Columbia Telephone Co. has its printing done in Portland. Are union men sure of that?

### FISH LAW VIOLATION.

It is reported that salmon fishing is still being carried on quite extensively on the lower Columbia, despite the close season. One of the fishermen said yesterday that a show had been stationed near Brownport by a cold-storage company, and that the fishing is being carried on openly. It is said that one of these fishermen in Astoria is preparing to ship three carloads of frozen spring salmon to New York.

### SOMETHING FOR NOTHING NOT EXACTLY.

But we do not get the BEST GROCERIES, Ferris' Delicious Buns, 1-lb cans Maple Cream, Malted Crabs (6 cans), Chase & Sanborn's Tea and Coffee, Chase Standard Tomatoes—new goods—TODAY ONLY, one can for each cash customer, 5c.

### OLDEST ACTRESS.

(Journal Special Service.)  
**NEW YORK, March 22.**—Mrs. Henry P. Lovell will celebrate the 5th anniversary of her birth at 151 Greenwood avenue, East Orange, N. J., next Tuesday. She is America's oldest actress. Over fifty years ago Mrs. Lovell was one of the shining lights of the stage, and was the leading actress supporting Julius Brutus Booth, the father of Edwin Booth. She also was associated with other great players of the days gone by.

### BOWEN'S TRADING CHECK

GOOD FOR ONE CENT IN TRADE. Cut a bank of One Cent of the value when accompanied by lawful money of U. S. by the bearer.

J. N. BRISTOL, 292 MORRISON, bet. 4th and 5th Sts.

### CAMERON'S OPINION

#### In Deciding the Fire Escape Case.

In deciding W. K. Smith guilty of not complying with the ordinance, in his failure to erect a fire escape upon his building, Judge Cameron gave the following written opinion: "In deciding the defendant in this case I found on all the propositions that were raised on the argument yesterday, with the exception of the evidence. "This defendant is charged with failing to provide a fire escape, or escapes, on his building, on which it is admitted that he owns a half interest. "The testimony is to the effect that the defendant had been notified a number of times to comply with the ordinance prior even to the time that the commissioners gave him a written notice, such notice being required, by the ordinance before any penalty can be inflicted. "Such ordinance was objected to by the defendant, but was admitted subject to the objection, and I am more than satisfied now that it was properly admitted. "It was well said by one of the witnesses at the trial yesterday, that such an ordinance is for the protection of all interested in the building, and also in protection of our firemen. "It was said in a New York case, A landlord is not permitted to wait until directed by the commissioners to provide a fire escape, but is bound to provide such a one as is required, and for him to procure their direction and approval of same. This attitude is very similar to the one in question. "In the case of Scott vs. Harvey, 107 Pennsylvania, State 22, the court construing an act "That the owners, superintendents, or managers of factories and in every tenement house, etc., should provide a fire escape, therein the question arising as to the work owners, the court speaks of the statute as being of great importance and having meritorious object. "Statutes similar to this one exist in almost every state and have been passed on by the courts of the several states and found constitutional. "Taking this view of the case there is nothing left for me to do but to impose a penalty commensurate with the offense charged."

### LUMBERMEN

#### Coming from the East to Inspect Our Timber.

About 150 lumbermen and millowners of the East are preparing to visit Portland June 12, a portion of a party which they have planned to visit the Pacific Northwest. They will remain in this city only a day or two and will probably be entertained by local millmen. Wealthy Eastern millowners have been buying the West for several years, and since the forests of their section are about exhausted a great many of these are looking to the Pacific Coast to secure the bonanza timber lands that are awaiting the invasion of the lumbermen. The examination will come by the Southern route, starting from Chicago and Minneapolis. They will make a short stay in California and then come to Portland. They will return by way of the Canadian Pacific, taking a look at British Columbia. Many of the lumbermen will be accompanied by their wives, and it is thought that at least 300 of them will be in the party.

## THE BAKER THEATRE

GEO. L. BAKER, Manager. PHONES: Ore. North 1076; Col. 506

WEEK STARTING SUNDAY AFTERNOON **MARCH 23**
