

#### Mothers' Meetings.

There were two well-attended mothers' meetings on the East Side yisterday. At the Williams-avenue school there were in attendance over 200 visitors. The meetom being handsomely decorated. An dress was made by Superintendent Frank Rigler, who urged closer relations between the parents and the teachers. Rev. W. T. Kerr and Mrs. Goddard both

made pleasing addresses. The meeting in the Brooklyn school was also well attended by the parents of the upils. Frank B. Gibson, president of the Lewis and Clark Civic Improvement League, made an address and told about the objects of the league and its efforts to make a more beautiful and cleaner city. Mrs. Helen D. Harford, president of the state W. C. T. U., spoke about the bad effects of eigarette smoking. Addresses were also made by Mrs. Sarah M. Kern and Joseph A. Strowbridge, Jr.

#### Ran Over a Boy.

Harry Jackson, aged about 10 years. mas run over last Friday by an East urnside-street grocery delivery wagon Young Jackson was coming home from school about 12 o'clock and while trying to cross the street at the corner of East Eleventh and East Everett streets, was run down by the vehicle, which passed over his body, breaking both legs. He was taken to a house near by and two surgeons called. He was afterward removed to his home in North Irvington, and is slowly recovering.

#### Turn on the Water.

The water fountain, corner of Williams avenue and Russell street, is dry and the residents of Upper Albina are complaining. The fountain is the only place that the teamsters have a chance to water their herses between Vancouver and the West Side. A great many farmers travel over this thoroughfare and the fountain has been a great convenience to them. The residents want to know why the water is shut off in their fountain and not in the others in the city.

MONTAVILLA.

At the meeting of the Montaville Sub-Board of Trade held last Friday, the board took up several matters of importance to their section.

A committee was appointed by the president to look after the holes and pitfalls around the neighborhood.

A life membership was unahimously voted Chauncey Ball for the good work he has done in the interests of Montavilla in the past.

The proposed erection of a cannery at Montavilla was talked of at considerable length, but, as there was no majority of the committee appointed to look after that project present, no further action was taken in the matter. William Deveny, in talking of the cannery, said he thought that its establishment is a cer-

The board expects to establish the organization of a volunteer fire department at the next meeting.

the college will bear his name. Mr. Simmons died in 1870. When his will was offered for probate it was discovered that the greater part of his property, consisting of real estate, was left to establish maintain an Industrial college for and women

The provisions of the will were peculiar. Mr. Simmons left two daughters to be provided for. The will gave them a life nterest in the estate.

After their death the trustees were to ake charge of the property till the accumulations should reach \$500,000. Then the whole property was to be turned over to a board of trustees, who were to obtain a charter and to establish the women's college, which Mr. Simmons wished to perpetuate his name.

The instructions in the will were broad and comprehensive. The legacy was left to found and endow an institution to be called Simmons Female College, and to be maintained "for the purpose of teaching those branches of art, science, and ndustry best calculated to enable the scholars to earn an independent liveliboot.

Whether the college should be an industrial school, reaching the larger numper of women with instruction in elemenatry subjects or should offer intellectual, artistic, and scientific training in a more advanced degree, was left entirely to the trustees. But it was inferred that Mr. Simmons' desire was rather o found an institution of advanced training than an elementary school, and that is being done.

The trustees have decided that the best use that can be made of this legacy for the public benefit will be to endeavor to alse the standard of occupation open to vomen. They believe that by training students to this end they will do more to advance the industrial status of women than by adding. however generously, to the opportunities already in existence for elementary industrial instruc-

**Provides That Religious Healers Must Report Contagious** Diseases.

Copies of the new health ordinance No. 12.638 were received by Health Officer Menefee at the City Hall today, and their general distribution has been commenced Superintendent Rigler of the city schools was given copies to be distributed in the various schools. It has been suggested by the Health Office that the provisions be read to the pupils. The parts relating specially thereto are as follows:

"Sec. 5. It shall be the duty of the Health Department upon receiving a notice as provided for in section 3, or when any communicable disease shall come under the notice of the department in any manner whatsoever, to forward a written notice signed by the Health Officer of the city to the teacher or teachers of any

child afflicted with, exposed to or suspected of being exposed to any of the communicable diseases herein mentioned, and to the teacher or teachers of any child in the mime building who has been exposed to or is likely to be exposed to any of the diseases hereinbefore mentioned, if in the opinion of the said officer the same may be necessary. Said notice must state the residence of the child, the nature of the disease; that it is unlawful for such child to attend school untfl the child shall present a certificate signed by a reputable physician, stating, first, that all danger of communicating such disease is past; second, that all the wearing apparel and the school-books of said child have been disinfected under the supervision of the Health Department of the City of Portland, and the said certificate shall be indorsed by the City Phy-

sician. "Sec. 6. It shall be unlawful for any child who is or has been afflicted with any of the communicable diseases herein mentioned or exposed to or is suspected or having been exposed to any of such diseases to attend such school unless he present the certificate mentioned in section 5.

"Sec. 7. It shall be unlawful for any school teacher or other school officer to admit to any school as a pupil or otherwise, any person afflicted with, exposed to, or suspected of having seen exposed any of the communicable diseases herein mentioned.

"Sec. 8. It shall be unlawful for any parent, guardian or other person having the care, custody or control of any child or other person afflicted with any of the communicable diseases herein mentioned. or exposed to or suspected of having been exposed to any of the diseases herein mentioned, to permit such child, or per-son, to attend any school, church, library or place of amusement, or to ride in any public conveyance or apeapr on the public streets of the city, until in the opinion of the City Physician the danger is past."

The ordinance strikes a hard blow upon all faith curists and religious healers. making it the duty of "any physician practicing the art of healing, either for or without compensation; or any person who is consulted on the ground of religious belief, and who offers advice either for or without compensation, when such advice is likely to be followed in accordance with a common belief in certain religious tenets existing between the per son offering the advice and the person afflicted with the communicable disease, or patient, or guardian of any such chilà or person, to immediately notify the De partment of Health of the City of Portland, when one of these cases comes un-

Bride Chooses Husband By Lot INDIANAPOLIS, Ind .-- One of the strangest love matches in the history of Indiana has just been concluded at Jeffersonville in the marriage of Miss Elizabeth Wright of that city and Arthur Van Clay of Momence, Ill.

The bride, a pretty young woman of 2 years of age, proved the truth of the old aphorism that "marriage is a lottery," for she chose her husband by lot.

Van Clay, together with two other young men, were infatuated with the Jeffersonville girl, and Miss Wright was consequently in a dilemma. She was unable to choose between them.

As a last resort she prepared slips with the names of the three suitors written thereon, and, placing these in a hat, with her eyes blindfolded, drew forth a slip. It was opened and Van Clav's name found on its face. Forthwith the Momence youth was summoned to Miss

Wright's presence and his good fortune disclosed. The wedding fellowed as soon as Van Clay could procure a license, and the couple after the ceremony started for Van Clav's home in Momence.-Chicago American.

### NORTHWEST PROSPEROUS.

Potatoes and Flax Brought High Prices, but Wheat Was Cheap.

The potato crop of the Northwest is quite well sold out. The prices have been very satisfactory. The yield last year was much larger than the yield in other late years, and owing to the high prices farmers have realised very satisfactory results.

Potatoes now are bringing, in Minne apolis carlots, from about 65c for mixed stock, to \$1 for choice early Ohio. There is also a large demand for seed, of the choice varieties, and also a good demand for stock in the Bouthwest for consumptive purposes.

With these high prices for potatoes in the Northwest and having produced such good crops of other grains as well as potatoes, it has made one of the most-Milwaukee famous." He is the Portland prosperous farm years that the Northwest has realized.
