

The FIELD OF SPORT

REFORM INDEED

The Like Has Not Been Known in America.

NEW YORK, April 11.—District Attorney Jerome is kept very busy in his new quarters in Rutgers street, one of the poorest sections of New York's East Side. He maintains his family in a more congenial neighborhood, but he himself sleeps at the Rutgers-street house part of the time, maintaining an office there all of the time. The office is opened from 8 o'clock in the morning until midnight, so that the tenement-house people may find it easy to get at him and his deputies with their wants and complaints. In other words, Mr. Jerome is introducing the university settlement idea into the conduct of official business. Instead of waiting for the people to come to him, Mr. Jerome goes to the people.

GREAT GATHERING

Manufacturers of America to Meet at Indianapolis.

(Scripps-McRae News Association.)
INDIANAPOLIS, Ind., April 11.—No more important gathering of men of business has ever been held in America than that which will assemble in this city next week on the occasion of the annual convention of the National Association of Manufacturers. It promises to be not only the largest assembly of the kind ever held, but the most practical. It will be composed of men representing every branch of industry as well as every section of the country. Its main purpose is to develop all American industries to the highest point and to widen the scope of American trade with other nations. The association was organized in Cincinnati in 1895, and its annual conventions have been held in Chicago, Philadelphia, New York, Cincinnati, Boston and Detroit.

President Theodore C. Search announced at Detroit last year, when he consented to accept the presidency for the sixth time, that he could not serve the association in that capacity beyond the expiration of the present year. Mr. Search has recently made known his adherence to this determination, and one of the most interesting problems which the coming convention has to consider is the selection of a new president. This matter has been discussed quietly among the members for several months, but at present there is nothing to indicate upon whom the choice of the association will fall.

TOBACCO TO BE GROWN IN TENTS

(Journal Special Service.)
SPRINGFIELD, Mass., April 11.—More than 100 acres of Sumatra tobacco will be grown under tents in the Connecticut valley this year, as against 47 acres last year, and two or three acres in 1930. Growers expect to receive big prices at the sale of Connecticut valley Sumatra, which the Department of Agriculture will conduct in New York next month.

AN AUTO SHOW

(Journal Special Service.)
COPENHAGEN, April 11.—Several American firms are represented at the international automobile exhibition, which opened in Copenhagen today. The show is held under the auspices of the Danish Automobile Club and the Society for the Promotion of Industrial Arts. While the exhibition is designed mainly for automobiles, considerable space is given to motor cycles and articles relating to the driving of automobiles.

AUK'S WING BONE FOUND.

New York.—Dr. Oliver P. Hay, assistant curator in the department of vertebrate paleontology at the American Museum of Natural History, has made a remarkable discovery, which will cause a stir among ornithologists. Among a number of bones and shells sent to him recently for examination by State Geologist Blatchley of Indiana, Professor Hay found the humerus, the upper bone of a great auk's wing, the bird having been extinct since 1844. The remarkable feature of the discovery is that the bone was dug from a mound at Armond on the southern coast of Florida. Hitherto the northern coast of Massachusetts was supposed to have been the most southerly point ever reached by the bird—Chicago Inter Ocean.

SCHURMAN HONORED.

(Journal Special Service.)
EDINBURGH, April 11.—President J. G. Schurman of Cornell University may now write L. D. Edinburgh, after his name if he so chooses, as the congregation of the University of Edinburgh today conferred the honorary degree upon the distinguished American educator and diplomat. In the interesting ceremonies that accompanied the event the various speakers touched on the many ties that linked together the United States and the United Kingdom.

TO BE SETTLED TONIGHT.

DUNKIRK, N. Y., April 11.—The debate between the Dunkirk High school and the Erie High school in the Inter-scholastic League of Western New York and Pennsylvania takes place here this evening. The question of debate is embraced in the following: "Resolved, That the elective franchise in the United States be confined to male citizens thereof above 21 years of age, who can read and write the English language."

RAILROAD EXTENSION.

There is a report to the effect that a corps of railroad surveyors will start from Vancouver to lay out a route up the north bank of the Columbia River, and that this is but preliminary to extending

the Vancouver and Kalama line eastwardly to connect with the Northern Pacific at either one of three possible points. The surveyors are said to be working under direction of the Washington & Oregon Railway Company.

The line of survey, it is said, may deviate from a parallel with the Columbia at the mouth of the Klickitat River, and proceed up the Klickitat Valley. If so, it will go through Conterville and Goldenale, and from thence through the Simcoe Pass to North Yakima, making connection with the Northern Pacific there. Should such line pass the mouth of the Klickitat, it would be impossible to leave the river with North Yakima as the objective point. In such case the line may be made to touch the Northern Pacific at Pasco, about 25 miles from Vancouver.

CURING CRIPPLES

(Journal Special Service.)
NEW YORK, April 11.—The report of the first 30 months' work of the State Hospital for the Care of Crippled Children, of which Bishop Potter is president and Dr. Shaffer is superintendent, shows that the institution has achieved splendid success. The hospital is full and there is a long waiting list. The inmates are from the poorest classes and would have grown up hopeless and confirmed cripples but for the treatment given them by the State in this institution.

ROYAL CRACK SHOTS.

Many Kings and Queens Are Adepts With Guns.

A number of royal women are adepts with the rifle. One of these is Portugal's plucky queen, who recently received the German medal for saving life. Her majesty is a keen sportswoman and can handle her gun with a precision which is positively deadly. Queen Helena of Italy is another clever shot. She spends much of her time in her pretty little hunting lodge in the island of Monte Cristo and is as clever with the revolver as with the rifle. The Duchess Carl-Theodore of Bavaria and her sister, the Arch-Duchess Luise-Ludwig, the grand duchess of Luxembourg and the grand duchess of Hesse are others who can hold their own with the gun. The Queen of England and her daughters prefer the rod to the gun and may be regarded as expert fishermen.

New Salem Post Office.

(Journal Special Service.)
SALEM, April 11.—An agreement between Mrs. Mary Payton, the owner of the building in which the Salem postoffice is at present located, and Henry C. Payne, Postmaster General, was yesterday filed in the office of the County Recorder. By its provisions the Federal Government agrees to lease from the owner the old postoffice for the further term of one year from June, 1932, or "till the new Government building now under construction shall be ready for occupancy," at an annual rental of \$1,200.

A CHRISTIAN GATHERING.

(Journal Special Service.)
PENSACOLA, Fla., April 11.—Members of the Society of Christian Endeavor have gathered here in force from all parts of Alabama, the occasion being the 30th annual convention of the state organization. Birmingham, Montgomery and other cities of the state are well represented. The proceedings will continue through Sunday and the outlook is for the most successful gathering ever held under the auspices of the Alabama state organization.

HUNG TOO SOON

(Scripps-McRae News Association.)
ST. LOUIS, Mo., April 11.—Henry Fulcher, colored, was hanged here this morning. Twenty minutes after the body was cut down a reprieve from the Governor arrived in response to an appeal from the Circuit Attorney, new evidence having been found to show that Fulcher had committed murder in self-defense. He had killed a 14-year-old white boy during a quarrel with the latter's brother.

POLICE RECORD.

Deputy Constable Wagner journeyed down to Holbrook yesterday, and 30 miles beyond that town, arrested John Norden on a charge of seduction. The defendant is now in the county jail but will have a hearing in the justice court late today. It seems that Norden brought Lida Karlson out from Sweden and then wronged her.

The case of James Carling, charged with larceny by bailer of a number of tools, was continued and will be dismissed, providing the defendant returns the property to F. McNamara, the owner.

The charge of assault and battery against W. S. Babb, preferred by his wife, Clair, was dismissed as the plaintiff did not appear.

Upon paying the costs of the case, the charge of assault with a dangerous weapon against William Armstrong and Dan Williamson was dismissed. It was alleged they used brass knuckles on William Allen.

HORSEMEN MEET.

(Journal Special Service.)
LOUISVILLE, Ky., April 11.—The American Saddle Horse Breeders' Association held its annual meeting here today with a good attendance of prominent horsemen from various parts of the country. A number of papers treating of subjects of interest to those engaged in the breeding industry were read and discussed. The election of officers resulted in the reelection of General John B. Castleman as president without opposition.

LOOK FOR THE CHECKS.

The Journal of March 28 was worth more than 50 cents in trading checks. This one issue pays more than it costs to pay for the paper for an entire month. Do you realize that fact? Do you read the advertisement?

THE FIELD OF LABOR

BUTCHERS' JOINT TIME.

The Amalgamated Meat Cutters and Butcher Workmen of North America, Local No. 143, held their regular weekly meeting at Eagles' Hall, corner of Second and Yamhill, last night. Officers elected at the previous meeting for the ensuing term of six months were installed. These are: Michael Scott, president; James Weston, vice president; James T. Welch, financial and corresponding secretary; Fred Himesey, treasurer; William J. Petrain, recording secretary; J. E. Barton, guide; Edward Keith, guard.

The trustees chosen were: J. I. Greenfield, E. L. Peck and John Kurath. The following were selected as delegates to the Federated Trades Council: Frank N. Westphal, Michael Scott and James T. Welch. Delegates to the Retail Trades' Section selected comprise: J. I. Greenfield, Frank Westphal, Edward Keith, Thomas Healey and Joseph Westphal. After the regular order of business the members enjoyed a "stag" social. Refreshments were served. A pleasing program was also presented. There were two boxing contests, in which John McKinn and John Bird appeared in the initial number and Thomas Healey and "Chuck" Taylor in the second. W. R. Nutter gave an exhibition of his athletic powers and proved himself a lifter of heavy weights, for he succeeded in raising from the floor six men whose total weight was about 1,500 pounds.

Comic and sentimental songs were rendered by Nicholas Wambold, Otto Wiebel, Fred Himesey, Frank Kinser, W. R. Nutter and George Hahn. Frank Kinser sang his old-time favorite, "The Arkansas Traveler."

A great many proprietors of the various meat markets were present at the social.

PAINTERS MEET.

The Brotherhood of Painters, Decorators and Paperhangers had a good attendance last night at their weekly meeting. Four new members were initiated and several applications, to be acted upon late, were received. A communication was received from Salem, stating that the workmen there are desirous of organizing a union. The report showed that all members are at work, and that the organization is making rapid progress.

The sum of \$5 was donated to the waiters' fund.

Banquet to Al Fields.

Two hundred Elks tendered Al G. Fields a banquet at the Hotel Portland last night. Mr. Fields is one of the highest officers of the order. He was made toastmaster of the evening and filled the position with becoming grace. Fifteen members of his minstrel troupe, who are also Elks, were present, and contributed the greater part of the entertainment.

LIKE A FAIRY TALE

(Journal Special Service.)

BUFFALO, N. Y., April 11.—The police have arrested Edward W. Kappelle, superintendent of agencies for the Equitable Life Assurance Society of New York, living in Buffalo, and Edward W. King, secretary-treasurer of the Nash Improvement Company of Niagara Falls, and Suspension Bridge, New York.

But only one arrest was made, for one man has played both roles. As Kappelle, he was a prominent Buffaloan, a member of the Acacia Club, a Knight Templar and an insurance man of such ability that he drew \$1,000 a month. He lived in a comfortable home with his wife and two children.

As King, at Niagara Falls, he maintained an elaborate suite of offices in the Gluck building, where the Nash Improvement Company is located.

He was ostensibly married to Miss Louise Green and supposedly lived on Niagara avenue, at Suspension Bridge, N. Y.

He has been leading this double life, it is charged, since September, 1930. Affidavits have been made to show that he, as Kappelle, induced various men to invest money in the Nash Improvement Company.

It appears that this dual personality has also been used in other cities. In Rochester, Olean and Batavia, he has been known as King and addressed as such.

In Detroit, Cleveland and other cities he has been called by Kappelle, his right name. The warrant for his arrest was sworn out before Justice Horn of Niagara Falls, by George F. Greene, charging him with obtaining a \$3,500 mortgage through false representations.

This mortgage King is said to have sold for \$3,000 to a wealthy woman living in Lockport. It covered a Niagara county farm.

SCHOOL MONEYS.

County Superintendent of Schools Robinson is apportioning the district school funds and states that there will be sufficient funds to maintain the schools in each district till the close of the spring term. A conservative estimate for the ensuing year places the amount per pupil at not less than \$12, a considerable increase over any apportionment of several years past. It will insure to Multnomah County substantial school support and place the schools on a better basis than it has ever been possible to attain before.

Charter Commission Quiet.

Members of the City Charter Commission, Messrs. Mills, Ayer, Hogue, Markey, Morgan, Teal and Westinger, met at the City Hall last night, wound up the affairs of the body and adjourned sine die. It was voted to distribute the remaining copies of the proposed city charter among any of the organized bodies, County Clerk, gas and electric companies and offices of the City Hall.

Feltus May be Arrested.

Richard Feltus, who recently arrived here from Kansas suffering with smallpox, has been removed from his place of isolation to the County Hospital. When he has recovered he will be in direct line for prosecution under the new city health ordinance, which makes it an offense to

OREGON ROSES

Loveliest on earth. A well-rooted, one year plant, 10c. Name your choice: Maman Cochet, White Cochet, Perle des Jardins, Papa Gontier, Belle Siebrecht, and Safrano. Catalog of 50 varieties free. LAMBERSON, Portland, Oregon.

Eagle Bicycles

\$25, \$35
\$40, \$45
\$50

Coasters \$5 extra

The Eagle clincher tires are as near perfection as any tire has been made.

The advantages of the Eagle clincher tire are expressed in simplicity and durability, hard to puncture and easy to fix.

Why don't you buy an Eagle fitted with the Eagle clincher tire? If you do you will get the best.

The Eagle double combination rim is the best rim ever devised. It is hard to break, remains longer true than any other rim and outlasts all others.

Other features of the Eagle are worthy of your study and consideration in buying a bicycle.

SEAQUEST BROS.

HARDWARE AND BICYCLES
Cor. Sixth and Pine

NINE YEARS EAGLE AGENTS

bring a contagious disease into the city. However, the authorities may be expected to use some discretion in the case of a person who leaves his unhappy home in Kansas to seek a happy one in Oregon.

WARRIOR RETIRED.

Rear Admiral Farquhar Retired From Duty.

WASHINGTON, D. C., April 11.—Rear Admiral Norman Von Heidebreich Farquhar reached his 62nd year today and by operation of the age-limit for active service was placed on the retired list. Admiral Farquhar, who has been chairman of the Lighthouse Board for several years, is one of the most popular officers in the service. He has been in the navy nearly half a century. He was born in Pennsylvania and was appointed to the naval academy from that state in 1854. During the civil war he took part in many of the most memorable naval engagements and since 1886 he has served in all parts of the world and at all of the navy yards in this country. His last command was the North Atlantic squadron. In the Spanish-American war of 1898 he commanded the flagship Trenton. For his services in that terrible experience he was made chief of the Naval Bureau of Equipment with the relative rank of commodore. His retirement results in the promotion of Captain Joseph Bullock Coghlan and James Hobbs Sands.

MARION COUNTY EXPENSES.

(Journal Special Service.)
SALEM, April 11.—According to the semi-annual report of County Clerk Hall, which was completed on Thursday afternoon, it cost \$32,839.60 to conduct the business of Marion County for the past six

months, but the sum of \$2,596.25, which is the total of the pending bills for road machinery which was delivered prior to April 1, will bring up the total expenses to the sum of \$35,435.85, an increase of \$2,596.25 over the corresponding six months of last year.

The reason of this great increase in the expenses of the county lies in the fact that during the past term a very heavy expenditure has been made on roads and bridges, while to make the total still larger the pauper account of the county has also doubled. For this latter item the expense has been \$3,035.67, while the expense of the Circuit Court has been \$2,746.15. The county is now on a cash basis and, according to Treasurer Downing, the collections on the tax roll will be adequate to keep it so.

YOSEMITE OPEN.

(Journal Special Service.)
WAWONA, Cal., April 11.—The Yosemite stage line via Raymond and Wawona is opened permanently for the season. Quite a number of men have been at work for some days repairing the roads, so that they are now in fair condition. But little snow has been encountered at high elevations, although in the high Sierras an abundance of snow has fallen, thus enabling the streams to be fed until well along in the summer, also guaranteeing good falls in the Yosemite until late in the year. There is no snow on the floor of the Yosemite Valley.

LIKE FINDING MONEY.

The trading checks in the advertisements of The Journal are like finding money. Have you seen them?

THE PIANOLA

THE PIANOLA is an instrument by means of which any one can play the piano.

THIS is accomplished by simply rolling the Pianola in front of any piano, allowing the felt-covered fingers to rest upon the keys of the piano, then inserting a roll of perforated paper into sockets, and operating the pedals. Playing directions appear upon the roll as the music unwinds.

Artistic effects and vivifying personality are given to the rendition by the player, who controls the expression. This is entirely subject to his will. He may vary the touch from the most delicate pianissimo to the "Lion's touch of Rubinstein."

THE COST OF THE PIANOLA IS

\$250.

IT MAY BE PURCHASED BY MODERATE PAYMENTS.

Visitors Welcome.
