#### OREGON'S OPPORTUNITY.

California business men are planning to extend their energetic efforts to the advertising and uplifting of the state. They are doing what the people of Oralifornia Board of Trade and other kindred organisations have decided to spend the amounth in advertising the resources of the state. The president of the setting at which the action to extend their work was taken explains it thus:

"One of the most auccessful men of the age has said: "Be sure that you have

good thing and then let the people know it.' In the State of California we cer-minly have a good thing. Italy, which is admitted to be the garden of Europe which has a territory smaller than the State of California, sustains 33,000, 600 inhabitants, while in this state we have only a little more than one and a half millions of souls. I have recently visited Italy, and I therefore speak from peral observation when I say that every fruit, flower, shrub, cereal-in fact, sything which is grown in that sunny land-does now grow as well within the

The Oregon people have a good thing, and the only trouble is that they have can too lax in advertising it to the world. The progressive advertising spirit ade California what it is. Oregon is a hundred times better for all classes A California, but the Eastern people will never be astracted here unless they are shown some of our advantages. The railroads have been advertising Orthis winter is the result. Why not assist the railroads to do more advertising? Why not establish an Oregon bureau in Eastern cities? Why not exert more energy on behalf of the state? Something must be done, and now is the time to do it. for several years to some extent and the large influx of Eastern people

#### M'LAURIN AGAIN.

Senator McLaurin of South Carolina has emerged from the seclusion to which the President relegated him at the time Prince Henry dined with gentlemen at the White House. Today in the United States Senate McLaurin, for the first time since his encounter with Senator Tiliman, addressed that body. His speech was in opposition to the Chinese exclusion bill, which he declared would tear down the industries of the South.

To people of the West, who look at matters differently from the view taken by hern pugilist, the drawbacks of the South are traceable more to the things of men of the McLaurin-Tillman caste than from any legislation the

ongress may enact for the protection of labor.

Citisens of the Pacific Coast, familiar with the situation, know that the Chinese and Japanese laborers are a menaca to the prosperity of any community infected by them, hence the great interest manifested here in the final disopsi-

tion of the measure to be voted on next Wednesday,

If Senator McLaurin's vote could accomplish that result, there is no doubt but he would exclude from South Carolina every negro within its borders; yet in the interests of his purse he would fasten upon the Pacific states the blight of Mongolianism. McLaurin is a poor type of American patriotism.

The gentlemen who are giving their time and talents to the furtherance of the interests of the Lewis and Clark Exposition deserve the thanks of this community and of the state—the entire Northwest, in fact. The labor is an unselfish one of love. All the people will profit by it, and all the people should give their hearty support, moral and financial.

Dr. Talmage's voice is forever hushed, and there is heaviness of heart in many a home where his Sunday sermons were weekly visitors. The meek and the lowly, the humble and the poor will miss him most. His was a language that addressed itself to the receptive human heart. His passing is a message of sorrow to all of these.

# ROAST FOR MR.

# Salem Journal's Tip to Portland Politicians.

(Journal Special Service.) BALEM, April 14 -- As a sample of the present feeling of many Marian County Republicans, an editorial under the caption of "Harvey Scott's Inconsistency," appearing in today's issue of the Salen Journal, which is supporting the Republican ticket, will furnish food for reflection for Portland politicians. The Journal editor says:

"Looking over the files of the Oregonian less than two years ago we find un-measured condemnation of the faction which Harvey Scott is now advocating as being about perfect. For 20 years he held Geer up as an ideal public man only to find he was unfit to be Governor after four-year record in that office that met with general approval by the people. For years he denounced this faction he is now standing in with as all that was corrupt in Oregon politics. Jack Matthws, Ike Patterson, Chas, Fulton, George Brownell, 'Judge' Carey were the scum of politicians.

"Brownell was pictured as an archdemagogue and as the epitome of shifty political vandalism preying upon the gnorance of the people. To complete the ycle of consistency Brownell will nominate Harvey Scott for Senator.

"Joe Simon was the pure-quill Republicanism and Mitchell was all that was rotten. Recently this has been reversed by Scott. Harvey Scott fought for years against the ship subsidy. He now praises Mitchell to the skies for voting for it. "Scott fought against a tariff on Porto Rico as an iniquity of iniquities. Now to se consistent he favors tariffing our island possessions.

"The Oregon Senate in 1898 killed the \$250,000 sugar bounty graft that the reckless faction of Republicans led by Flagg of Marion, had passed through the House hy a majority of one. Scott now upholds the graft faction and would favor s sugar bounty if that crowd wanted it. "After fighting the grafter gang of the Republican party for 26 years it would now be consistent for the great and only Portland newspaper man to advocate renstating the American Book Company that robbed the people of Oregon of \$50,-000 a year. He will next advocate a de-

"After an unbroken record of fighting send and keep honest men in the United States Senate, no one need be surprised to see Scott turn around and ad-George Beemis, who resides in Benton vocate the election of George C. Brownell to the Senate if he can not get it him-

"Mr. Scott has apparently come to th conclusion that consistency is the one thing that is admired and appreciated by the people of Oregon and he is going to give them their fill."
