

NOTHING BUT CONVENTIONS

(Journal Special Service.)
WHEELING, W. Va., April 15.—The annual convention of the Amalgamated Association of Iron, Steel and Tin Plate Workers of America was called to order today in the Carroll Club auditorium by President Shaffer, with more than 300 delegates present. A considerable number of delegates had not arrived when the meeting came to order and it is probable that the attendance will be largely increased by tomorrow.
 After brief formalities connected with the opening, the convention immediately went into executive session. The general sentiment which prevails among the delegates is that this convention will be the most important in the history of the organization. It is expected by several delegates that the question of recognizing several non-union mills will be thoroughly discussed at the convention.
 The reports of the district presidents show that there has been some falling off in membership in the Ohio and Pennsylvania fields as a result of the strike of last year, but this has been more than offset by the gains made in Indiana, Southern Illinois and other sections.
 It seems to be the opinion of a large majority of the delegates that the present wage scale should not be disturbed, so that little difficulty is expected in reaching an agreement.
 One of the interesting features of the convention is the contest for the presidency. President Shaffer is a candidate for re-election, but there is undoubtedly an undercurrent of sentiment among many members that the affairs of the organization have not been handled just exactly right during the past year, and attribute the

trouble to the present head of the association.
 President Shaffer on the other hand is working strongly for re-election in order that he may be vindicated for ordering the steel workers' strike. There are no active opposition candidates, though the names of Secretary M. F. Tighe of Wheeling and Thomas Williams of Newcastle are freely mentioned in connection with the presidency.
MINNESOTA SABBATH SCHOOLS.
WINONA, Minn., April 15.—Winona has extended a warm hospitality to the scores of visitors who are here for the annual meeting of the Minnesota Sunday School Association.
 In the Central Methodist Church the convention will be formally opened this evening with addresses of greeting and responses and an attractive musical program.
 The reduced railroad rates have resulted in an unusually large attendance and from all indications the convention will be the most successful of its kind ever held in the state.
 Some of the prominent participants are Marion Lawrence, general secretary of the International Association; Mrs. S. M. Lamoreaux of Illinois and Rev. George R. Merrill of Minneapolis.
POLO CONVENTION.
NEW YORK, April 15.—The annual convention of the National Polo Association takes place at the Metropolitan Club this evening and keen interest is manifested by devotees of the sport.
 Western members of the association, it is said, have come prepared to make an effort to obtain the national championship meeting, which the East has always felt should be played where the largest polo interests are located.

A point in the adoption of new rules which is likely to cause some feeling will be the introduction of a measure forbidding the borrowing of players, which was protested last year by several of the teams that were defeated by the Lakewood Polo Club.
SUNDAY SCHOOL CONVENTION.
PASADENA, Cal., April 15.—Many parts of the state are represented by the delegates and other visitors who are here for the annual state Sunday school convention, which will be in session during the next two days.
 The convention will be formally opened this evening with an illustrated lecture by Rev. William Horace Day.
 For the succeeding sessions an interesting program of music, papers and addresses has been arranged.
FARMERS AND STOCK BREEDERS.
CLINTON, Ia., April 15.—The State Agricultural Society and Stock Breeders' Association began its annual meeting here today and will continue in session until Friday.
 The attendance is unusually large and as the program is an excellent one, embracing the discussion of many questions of interest to agriculturists and stock breeders, the convention is expected to be the most successful ever held by the organization.
ALABAMA DOCTORS.
BIRMINGHAM, Ala., April 15.—The State Medical Association began a four days' session in this city today with an attendance of several hundred physicians and surgeons of prominence in various parts of the state.
 In addition to the discussion of numerous papers on subjects of interest to the profession, the usual attention will be devoted to matters pertaining to the health of the state.

THE FIELD OF LABOR

Organized labor has won a great victory in San Francisco by seriously crippling the forces of the Employers' Association. Neustadter Brothers, manufacturers of shirts and overalls, have been fighting the trades unions for years, carrying on a bitter warfare. They were boycotted and after seeing its business seriously crippled the firm began suing for peace. They promise to employ none but union help and do all else asked of them. Many other of the firms of the Employers' Association are preparing to take the same step, and organized labor down that way is rejoicing.
 A group of citizens was talking on the labor question this morning and wondering where things were going to end. The situation in Belgium was touched upon, and the condition of industrial affairs was deeply deplored.
 "The time is coming," said one of the group, who is a prominent marine engineer, "when the laboring classes will have everything their own way, and I see no other show for the rest of mankind than to join forces with them."
 This was uttered with a tinge of sorrow, but was intended as a clever stroke of sarcasm. He continued:
 "I see that we shall all have to become laboring men. Only the other day I was inspecting some work being done on a ship when I noticed that one of the workmen had neglected to drive a certain nail down properly, and I drew his attention to it. He immediately threw down his tools, told me to mind my own business and jumped his job. All the workmen are too independent to take a word from anyone, knowing that they can go some place else and secure work. Employers must men with positions like myself can not be independent like that, and there is where the workmen have the best of us. No, there is nothing like belonging to the ranks of the independent laborers," concluded the marine gentleman.

THE MARKETS.

The grain market is still keeping up its quietude. There is absolutely nothing doing with stocks. A small amount of chartering is still being done for the fall yield. The quotations are: Walla Walla, 66c; bluestem, 66c; valley, 63c. The softening in the price of fresh meats still continues, and receipts are very light. The pork market is very strong and pork is quoted at 19 1/2c a pound. The eastern markets continue firm with receipts normal. Farmers generally are not taking advantage of the present high rates.
 Butter continues weak at prices quoted. The nearness of the Jewish holidays is having a tendency to temporarily strengthen the egg and poultry markets. Eggs are quoted today at 15 1/2c, and in some instances have brought as high as 16 cents a dozen. Receipts are rather liberal, but are not equal to the demand. As soon as receipts are a little large they are rushed into cold storage. The Alaska trade is taking quite a few eggs out of the local market, and this is about the time that they are needed for hatching, so the scarcity of eggs is easily accounted for.
 The receipts of poultry so far this week have not been very liberal and there was a stiffening of quotations noted in the poultry market today. A few springs arrived this morning, but they were quickly gobbled up.
 The wholesale vegetable market is entirely cleaned out of all lines except asparagus, only a small stock being in the market. Onions went up a trifle in price this morning. They are selling at \$20 2/3 a cental.
