Of course the usual passtimes, sea bathing, tennis, golf, riding, boating, billiards, bowling, etc., are indulged in freely during the days favored with balmy salt air, and there are many people from the East who have been astounded with the magnificence of the great natural park which surrounds the hotel and stretches off miles to the westward. Portlanders seem also to have again awakened to the fact that here at their very door is one of the most entrancing vacation retreats to be found on any ocean shore in the world To add to the guests' comfort another chef has been brought from the San Francisco "Louvre." The management has also bought a pianola of the latest design from the Aeolian Company of Portland, which gives every guest the oppor tunity of playing any musical selection he may choose on the big grand plane in the main parlor. The planola under the manipulation of a skilled planolist from the Acolian Company, will help furnish music for the Saturday night hop, this week, and each evening a fine concert will be given. On Friday night, September 1, the officers from Fort Stevens join Mrs. Mitchell in giving a social hop that is expected to be quite the swellest thing of the season.

SALEM BRIEFS.

(Journal Special Service.) SALEM, July 26.-State Senator B, F Mulkey of Polk County, recently elected president of the Ashland State Normal School, was in Salem last night, on his way home from an outing in the mountains. He said he would not be a can

lidate for president of the Senate. Governor and Mrs. T. T. Geer and party of Salemites who joined the Mazamas recently on the trip to and ascent of Mount Adams, in Washington, have returned and they are delighted with their experience.

The Salem City Council held a special session last night, and ordered the cleaning up of the alleys in the business district. All piles of rubbish and inflammable material are to be promptly removed in order to minimize the danger from fire. The Council also passed to second reading an ordinance to regulate the building and repairing of sidewalks in

the business section of the city. August Walter, a German, 64 years of age and a resident of this city, was yesterday committed to the asylum for the insane. His mental illness is due to a general collapse.

Samuel Hutchins and Leonard Litscher who are putting up the lines, are receiving requests to extend the line to other cities. Perhaps McMinnville and Salem will soon be connected by this system with Dayton.

An accident happened to one of the timbermen at Trudell's mill at North Yambill, in which he suffered a pretty badly lacerated arm. It appears that he was working with a cross-cut saw on an elevated platform which fell and the saw in falling struck him on the arm cutting it quite badly.

Another victim of giant powder was brought into The Dalles Thursday, W. H. Durham, whose place is about five miles below the city on Chenoweth Creek, being the unfortunate. He was blasting some logs and set a can containing four pounds of powder down behind him while he went to light a fuse. By some unaccountable means the powder ignited in the can and a bad explosion occurred, in which Durham had both arms burned, the left one terribly. The left side of his face was burned.

(Special Correspondence.)

NEW YORK, July 20 .- One of the first

hings visitors to New York ask to see, as a general rule, is Brooklyn Bridge. If here are other sights of so much interest they are either Grant's Tomb, Central Park, St. Patrick's Cathedral or one of the many famous residential dwellings on Fifth Avenue; but in nine cases out of ten Brooklyn Bridge will be asked for first. This famous structure will become of increased interest to visitors if a moving platform is installed on the bridge, as has been proposed. Everybody will want to take at to indorse President Roosevelt for reeast one ride on a moving platform two and a half miles long, for that would be after the explicit and warm commendaits length in crossing the bridge and its approaches twice. The proposed platform would be in three parts. The outer rim would move very slowly. From this it would be easy to step to the last section, running 10 miles an hour. Arrangements are hoped to be made by which the trolley cars will withdraw from the bridge, but with such a close connection that the cost of transportation may be covered for the same 5 cents.

It was noved and seconded that as he was the owest responsible bidder that he be awarded the contract. The motion carried, but subsequently the matter was to be decided at 2 o'clock today by another meeting of the board. This change was all due to the fact that Mr. Wakefield had in his bid an additional charge of \$5000 for the construction of the truss n two pieces. These figures were considered too high and Wakefield was asked to make a reduction. He emphatically refused to do so, and after lengthy argument the postponement as mentioned
