

HINTS FROM INDIANA MAN

Says His People Run Seattle and Suggests That We Get Some of Them to Portland.

That Portland is far behind in the matter of advertising is well known, not only at home but abroad. The following extract from a letter by a member of the Indiana Board of Trade, who has traveled considerably in the Northwest and through the East, and who intends to finally invest considerable money in Portland, is of real interest to those who have the welfare of this city at heart.

A PLACE FOR RECREATION

Many Portlanders Are Spending Pleasant Evenings at Mount Tabor.

Through the enterprise of Assistant Manager Simons, of the City & Suburban Street Railway another place of recreation has been given to Portland people. Recognizing that hundreds of people were at a loss for a place to spend the evenings, the company has fitted up the grounds at Mount Tabor and are giving a free vaudeville entertainment every evening in a pavilion there.

COMMERCIAL CONGRESS.

Mayor Williams is looking for some one to appoint as a delegate to the 13th session of the Trans-Mississippi Commercial Congress which will be held at St. Paul, August 19-22.

ABOUT PEOPLE.

O. H. Thornton, from The Dalles, is in the city today. C. W. Niles, of Baker City, is registered at the Portland.

MINING NOTES.

J. G. LeRoy, president of the LeRoy Mining Company, was a visitor in the city yesterday from the Bohemia district. He reports the mining industry in his section to be in a flourishing condition.

RIVER AND OCEAN.

The steamer George W. Hilder from San Francisco, passed in over the bar at 11 o'clock this morning.

HINTS FOR WOMEN

are the high foot boots, brush-covered in Mission style, the tops of which being opened disclose a box of shoes or slippers.

A MATCHLESS DESSERT. With strawberries at a low price, the home caterer should depend on the fruit one of the prettiest dishes ever known.

FOR PROTECTING CARPETS. The new lines intended for covering carpets during the summer are very attractive. The designs are pretty floral ones, and floor and stair coverings are made to match.

TO BRIGHTEN A RUG. The colors in a rug carpet can be brightened by sweeping it with a broom dipped in salt water.

FOULARD STILL POPULAR. Foulard is likely only to be second best to taffetas this season. Foulard is not new but it has many good points, and for morning wear in warm weather nothing surpasses it.

THE DRESSY STOCKS. Nearly all the stocks for dressy wear are transparent. Plain collars of plique ending in narrow ties, these to be fastened in front with a tie pin, are numerous.

TO PROTECT SILK. Silk should never be folded away for any length of time in white paper, since the chloride of lime used in bleaching the paper produces a chemical change in the silk and impairs the color.

HINTS FOR MASSAGING. Don't rub the lines the wrong way, or they will become more, instead of less, prominent; rub across the wrinkles with a rotary motion.

LITTLE THINGS THAT COUNT. Vails must be neatly hemmed. Otherwise they will be a nuisance.

SILK TRAVELING CASE. A home-made case for simple remedies which the traveler is likely to find of service is made from yellow silk.

PASTE THESE IN YOUR COOK BOOK. Chocolate Cake—One and one-half cups sugar, one-half cup butter, one-half cup milk, one-half cup boiling water, one teaspoon soda, two of cream of tartar, one square chocolate (first melted), two cups flour, two eggs. Mix well. Very nice with white frosting.

CARE OF THE POTS AND PANS. How few cooks enforce on their kitchen-holds, or carry out themselves, the rule that all pots and pans must be put away clean and dry.

THE SMART SKIRT. The real smart skirt has a graduated flounce or is cut with a taut curve in the seams that gives it a decided froon-frou flare at the border.

BOX FOR SHIRTWAISTS. A very convenient device is what appears at first to be only a rust-covered tin, but with a few alterations it becomes a box for storing shirt waists or other articles.

Demand for Babies. At least 100 foundlings—that is, technically, children less than 5 months old to whose parentage there is no clue—are picked up every year in the streets of this city.

Ostrich Drags Sulky. Ostriches can travel at great speed. This has long been known and the day may be not far distant when ostriches will be seen in all large cities drawing sulkeys and other light vehicles.

Reduced Rates to Newport. Commencing June 15, the Southern Pacific Company will sell round-trip tickets, Portland to Newport and return, good via either East or West Shore divisions, in connection with the Corvallis & Eastern Railroad.

Come to Me. If you are sick from any cause and have failed to get relief, come right away. I will not charge you for a consultation. Vital Science will cure you, most likely.

LAKE VOLCANOE

Strange Body of Water Near the Mexican Line.

SETTLERS FEAR AN ERUPTION. Mud and Flame Are Being Spouted Forth Daily—Indians Have Fled in Terror.

Squire Redwine, who has been in Phoenix for several days, yesterday described a smoking lake not far from the country where he lives.

Within the boundaries of the new lake there has been for several years what the Indians have believed to be a volcano. Smoke was almost constantly rising from the ground, but there had been no other sign of an eruption.

At first the disturbance was confined to the volcano, but now the water is boiling over a considerable part of its area and explosions are growing more and more frequent.

Trust in Providence. "Years ago, when I was in the fruit business," said a Michigander the other day, "I used to take some long chances on the apple and peach crop.

Went Too Far. "We used to have a lot of trouble getting our hired girl up in the morning. She wouldn't rise in time to wait on the milkman. She was such a good girl, however, that we didn't dare to say much—even if we went without cream for breakfast."

Older Than Pyramids. Practically the English women of today use the same "beautifiers" as did the women of two or three thousand years before the Christian era—but they use less of them.

A Tax on Culture. Mr. Henry Walters has just brought to city nearly a thousand paintings, statues and miscellaneous art treasures, which are to enrich the art gallery in Baltimore.

Woman. "Oh, woman," he cried, "you are as cold as ice and—"

She turned upon him with a sudden frown. "—as dear."

Her features relaxed again.—Kansas City Independent.

VALUE OF QUIET.

When the outdoor and open-window season of the year rolls round, happy are they who can escape the heat and the noise of the city by an indefinite summer vacation.

That windows and doors must be opened to widest extent goes without saying. Every stray breeze must be enticed indoors. Then all at once one becomes conscious of the medley of insistent irritating noises that had previously penetrated only to subdued fashion.

ABOUT TITLED PEOPLE. The Kaiser, when he makes up his mind to do a thing, does it thoroughly. He actually disguises himself when he wishes to remain unrecognized.

The Kaiser vowed that he would enjoy the sights in his own way, and not be personally conducted. Eventually, a compromise was effected.

It is not often that the czar has a chance of having aside state and ceremony, but even he does so occasionally.

One morning three summers ago he got up early and, in the simple uniform of a colonel, cycled across the park at Gatchina to the lodge of the keeper of the fountains, where His Majesty of Russia often enjoys a quiet hour's sport.

FACTS AND FIGURES. In a coal mine in Derbyshire, England, has been found the trunk of a tree in a vertical position. This is an extremely rare discovery.
