McMINNVILLE, Aug. 4.-Saturday

SUBURBAN NEWS OF NEARBY TOWNS IN BRIEF.

A GOOD MEETING

Gompers and Morris Had a Big Crowd at Salem.

(Journal Special Service.) SALEM, Or., Aug. 4 .- The labor mass

meeting here last night which was addressed by President Gompers and Vice-President Max Morris, of the American Federation of Labor, was largely attended.

The meeting was called to order by Governor Geer, who made a few appropriate remarks after which he introduced G. Y. Harry, president of the State Federation of Labor, who acted in the capacity of chairman. Mr. Harry made a short address in which he spoke of the good record made by the Salem unions since their organization. Reduced hours and improved conditions generally had been brought about, and great credit is due them.

Vice-President Morris then made a pleasing address and created a good imupon his audience. Labor pression unions, he said, are making a most rapid advancement and gaining for the workingman privileges of which he never dreamed several years ago. He urged that all those who favored the principles of unionism should exercise the greatest precaution when purchasing goods, and to accept none unless they carried the union label. He also asked that the early closing movement be closely adhered to, and that no one make purchases after 6 o'clock.

President Gompers was introduced as the next speaker, and when the noted labor leader arose to make his address he was greeted with great applause. He is a most interesting talker, and every sentence he uttered was listened to with the closest attention. Among other things he said that it is the purpose of labor unions to keep the industrial conditions of the country up to as high a standard as possible. As the condition of

the laboring class is elevated or debased, so also is the condition of the whole human family improved or made worse. If wages are low and hours of labor long, those in the ranks of labor are unintelligent and degraded. But if wages are good and a day's work is limited to a reasonable number of hours a contrary result is attained. He asked the laboring classes to stand united, and work for the interests of all. It is the policy of capitalists, he said, to create dissension in their ranks, and this they should guard against. He recited the progress that unions had made, and enumerated the many desirable results which had been accomplished. He argued at some length against the employment of child labor, and hoped that laws would soon be enacted for the abolishment of the

practice.

and furniture in the fire. Loss, \$1800; insurance, \$800. State Treasurer Charles S. Moore on Saturday evening made his annual ap-

portionment of school funds to the various counties of the state. The amount distributed, \$214,639.35, is the largest sum ever paid out in this state for this purpose, and consists of the interest recelpts of the past year on account of the irreducible school fund. There are 138 .-477 children of school age in the state, and the amount per capita is \$1.55.

Wedding of Miss Ethel Cook and L. Bush Livermore.

(Journal Special Service.)

BAKER CITY, Aug. 4 .- The marriage of L. Bush Livermore, editor of the Baker City Herald, and Miss Ethel Cox, was solemnized last evening at 6 o'clock at Stephen's Episcopal church, by Rev. Alexander Corbett. The maid of honor was Miss Louise Neuhaus and the best man Charles W. Hill. The newly married pair left on the midnight train for Sait Lake City, where they will spend their honeymoon. Mr. Livermore has lately, although yet a very young man, achieved considerable distinction in a literary way and is becoming quite popular as a magazine writer. He is the son of Lot Livermore, the recently appointed postmaster

of Pendleton. The bride is one of the most accomplished and popular of the younger Baker City set. She is an artist as a vocal singer and possesses a lovely contralto voice. She is of the Gibson-girl type of beauty and for this reason was made Goddess of Liberty at the recent Fourth of July celebration here.

A rather humorous condition of affairs, which, however, does not appear so humorous to the management of the property. is on at the Don Juan mine, up Geiser way. The manager had a crew of men who were dissatisfied with their wages. He told them that the income of the mine did not justify an advance. Recently they made a big strike of fabulously rich ore and at once went on a strike for higher wages. The increase was refused and the men walked out. The manager was left with a few Frenchmen, who could cook and wash dishes, but could not mine. The shaft soon filled with water, the pump was covered up and a Frenchman was sent down to disconnect the pipes that the pump might be drawn up. He fixed things so the pump was a fixture and the management was forced to procure another and the mine will again' be in operation within a few days. The extent of the strike is being kept a secret, but it is known to be a rich one

Last Wednesday evening the Blacksmiths and Horseshoers held a smoker at their hall which was largely attended. An interesting program was carried out, one of, the features of which was a boxing match between "Kid" Swanson and Bob C. Day.

> The Southern Pacific section hands are demanding of the company increased wages. They now receive \$1.40 per day and they ask for \$1.75. They work 10 hours a day. The company has taken the matter under consideration. The bridge carpenters are also asking for concessions. They desire to be paid for the time consumed in going to and returning from work.

Union teamsters will handle the ballast from the British ship Eskasoul. This was decided upon yeterday when E. Tooley, business agent of the Sand & Fuel Teamsters' Union, called on Captain Townsend yesterday, the latter assuring him that he would employ no The vessel was at the Montgomother. ery dock No. 1, and the Banfield-Veysey Company usually gets all this work to do. But the captain got tired of waiting for the ballast to be moved, and the ship was shifted across the river to the Star Sand Company's dock, where the cargo can be discharged at once. Union teamsters will try and arrange it so as to get all of this kind of work to do.

The painters, decorators and paperhangers met Wednesday night, and discussed matters of interest to their union. The paperhangers are considering the proposition of withdrawing and organizing a separate union. The object of such a move is to place them in a position where they could command better wages At present they receive \$2 per day, the same scale as is paid the painters. From \$3.50 to \$4 is paid paperhangers in San Francisco, and they are entitled to this amount in Portland. The matter will be more fully discussed at the next meeting. A notice was also received from the Waiters' Alliance, designating the hoters and restaurants in the city which are employing Chinese and non-union cooks. Local No. 125, Independent Brotherhood of Electrical Workers, has procured for the Labor Day parade a very handsome banner, of which the members are justly proud. In the center of the banner is a large picture in which electrical sparks

and flashes show up prominently. It is a very pretty design and the entire work is well executed.

BEAUTY. HOW IT CAN BE OBTAINED

How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DE-FECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, There is nothing more beautiful than the human face with its vivacious countemance, its sparkling eye, its pleasant smile and perfect symmetry. But the crowning glory of the face is a radiant complexion with its lively glow, its youthful tinge, and its fine, smooth texture. But the question is can such a complexion be attained? In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible? By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected thas will accomplian these results.

realms of chemistry and compounding of ingredients, a remedy has been at last perfected thas will accomplian these results. This remedy is Mune. A. Buppert's Face Bleach. WHAT FACE BLEACH IS.-Face Bleach is not a cosmetic to cover up, but it abso-lutely removes once and forever all the discolorations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin cannot fail to remore every defect. It's a well-known fact that the blood in order to cleanse itself is constantly throwing off its impurities through the pores of the skin, now if the pores are not kept open, the impurities of the blood cannot escape, but collect below the sur-face and produce all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, SALLOW-NESS, ECZEMA. ACNE AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS. ACTION OF FACE BLEACH.-Now Face Bleach has this two-fold action; first, it has a magnetical action, which attracts and draws to the surface the impurities which havecol-lected under the skin; and, secondly, a chemical action which removes by scaling off (in the form of a flue dandruff) the surface of the outer, diseased or dead cuticle, leaving the under skin method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two fuctors which we must adhere to and follow if we wish to permanently im-prove our personal appearance.

and nature the two factors which we must adhere to and follow if we wish to permanently im-prote our personal appearance. THOUSANDS BENEFFTED. — Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Ruppert's Face Bleach has produced in their skins. Many complexions, covered with pimples, meekles and eczematous eruptions (itching, burning aud annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this won-deful remedy. Premature wrinkles and lines—those inroads of beauty—are quickly effaced, and those muddy, disfguring, sallow, jauudiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skins—which also mark the ravages of time—become firm and smooth after a few applications. Skin troubles which have baffied the most skilful phy-sicians have been zenowed and cured promptly, and many have expressed, personally and by letter, their heartfelt and profoundest thanks for this wonderful Face Bleach. A positive gramatuce is given if Face Bleach is used according to the new special directions. F.W. BALTES & CO. A positive guarantee is given if Face Bleach is used according to the new special directions which are furnished with each order, that it will remove every discoloration and impure. MIDDLESBORO, Ky., Aug. 4.-The Republican primary being held today to select a congressional candidate for the Eleventh District is one of the liveliest seen hereabouts in several years. Congrorsman Boreing aspires to a renomination and expresses confidence in the result. The opposing condidates for the nomination are Colonel D. G. Colson, of Middlesbolo, and Captain Edward Parker, a well-known politician of Lauren County. The district being overwhelmingly Republican, a nomination is equivsient to an election,

BIG HOP PRICES.

SEATTLE, Aug. 4 .- Hop growers of Washington are more than pleased with the prospects of great profits from their yards this year. Twenty and 22 cents a pound are now currently offered as contracting figures, it being the first time in a number of years that these figures have been reached. The rise is so pronounced and seems so well founded upon substantial market conditions that many of the growers believe they are justified in waiting for still higher figures.

DON'T YOU THINK YOU WANT A PIANOLA?

WELL, hadn't you better cut off this coupon and have Mr. Wells send you his book so you can tell if you want a Pianola? Then you'll know just what it is, and who have bought Pianolas in Portland and elsewhere.

The good the Pianola does you is simple: By means of it you instantly become a great piano player-you can play any piece ever written. This is hard to believe, but get a book and read what your neighbors say. It's worth looking into we assure you. It costs you nothing to send for this beautiful book and you are committed to nothing.

The Planola may be purchased by Moderate Payments.

LYNCH NEGRO' FIEND

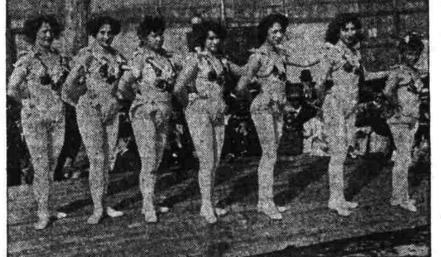

Assailant of White Woman Riddled With Bullets.

(Journal Special Service.) SAVANNAH, Ga., Aug. 4.-John Wise, the negro assailant of Mrs. John Smith, a young and beautiful bride of Pem broke, was lynched at Pembroke today. The fellow was shot down and captured by a posse at Pooler, nine miles from here, at an early hour this morning. His wound would have soon caused death, but the mob took him back to Pembroke, where he was identified as the assailant of Mrs. Smith. He was immediately strung up to a telegraph •pole and riddled with bullets. He refused to confess his crime.

Died of Glanders.

(Journal Special Service.) ST. PAUL, Minn., Aug. 4.-The State Board of Health has received a report of the death of two men in Becker County from glanders, a disease common among horses.

The victims were Henry and Robert Schram, two brothers. The men lived on the same farm, and last April one of them cared for a horse affected with glanders. Shortly afterwards he became ill, and it fected with smallpox. Seventeen days af- after an illness of 17 days.

The saven Grunaltho sisters, a family consisting of a mother, her five daughters and a sister, who will be one of the many attractions at the Elk carnival, are said to give acrobatic performances that are surpassed in skill by nothing m that line. The Grunalthos came last winter from Berlin, and it was but a short time until they had established an enviable reputation in this country. They turn somersaults, build pyramids, do various posturing acts, and always form the mose graceful groupings.

ter his illness began he died Some weeks later the other brother
