(Journal Special Service.)  
EUGENE, Aug. 11.—At a meeting of the board of directors of the Eugene Public Schools held yesterday afternoon with Clerk Reimer in the County Treasurer's office, several important questions were discussed among which was the matter of providing for more needed recitation room in the High School building. If the population of the city increases as rapidly in the next two years as it has in the past two, a new building of six or eight rooms can be comfortably filled at that time.

The Eugene Water Company has just begun the work of enlarging the capacity of its water works in this city. A big well 30 feet in diameter and 40 feet deep is being dug, the well from which the water is now pumped, which is 40 feet wide and 40 feet deep, being inadequate to supply the demand for water. The company will put in a monster power pump, capable of pumping 78,000 gallons of water per hour to take the place of the one now used which has a capacity of only 20,000 gallons per hour. At present the consumption of water from the water works is 225,000 gallons per day.

R. Ray is president and manager, and O. C. Crawford, secretary, both of Gold Hill. The dam will be 445 feet top measure and 26 feet in height from the head of the river. Sanford, the leading merchant at Shaniko, was in The Dalles Saturday and reports that the people of that city are heartily in favor of the new road, and also states that work will soon begin on extending the roadbed of the Columbia Southern further south. The scene of the fire is about seven miles east of Springwater, and the section contains many valuable timber claims. A Springwater farmer was in Oregon City Saturday and said that about 1000 acres were burning. # BEAUTY.

## HOW IT CAN BE OBTAINED

How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

How to Remove Pimples, Freckles, Moth, Brown Patches, Blackheads, Oiliness and All Defects from the Face, Neck and Arms.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry. But the crowning glory of the face is a radiant complexion with its lively glow, its youthful tinge, and its fine smooth texture.

But the question is such a complexion be attained?

In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible?

By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.

This remedy is **Mme. A. Ruppert's Face Bleach**.

**WHATEVER FACE BLEACH IS.**—Face Bleach is not a cosmetic to cover up, but it absolutely removes once and forever all the discolorations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin cannot fail to remove every defect. It is a well-known fact that the blood in order to be bright, beautiful, and healthy, needs a chemical action which removes by scaling off (in the form of a fine dandruff) the surface of the outer, diseased or dead cuticle, leaving the under skin beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.

**THOUSANDS BENEFITED.**—Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvements Madame Ruppert's Face Bleach has produced in their skins. Many complexions, covered with pimples, freckles and scumous eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Freckles, wrinkles and lines—those inroads of beauty—have been completely removed and cured promptly, and many have expressed, repeatedly and with a hearty and profound thank for this wonderful Face Bleach.

A positive guarantee is given if Face Bleach is used according to the new special directions which are furnished with each order, that it will remove every discoloration and improve your complexion.

All of Mme. A. Ruppert's world renowned preparations are sold by us at reduced prices.
