

66 Where Rolls the Oregon. 99

OREGON CITY.

(Journal Special Service.)
OREGON CITY, Aug. 18.—Secretary J. H. Howard, of the Federal Labor Union, who has charge of the arrangements for the celebration of Labor Day in this city, has his work well in hand, and has practically completed the program except in detail. He has engaged the Woodmen Band and Milwaukee Band, and in addition to these will have a band in Indian costume, composed of members of Wachemo Tribe, Improved Order of Red Men. It is very probable that all of the mills will close on Labor Day. The grand parade will form at 10 a. m. and the line of march will be north on Main street, countermarch on Main and proceed to Canemah Park, where the exercises will be held. The orator of the day is yet to be named. Senator Mitchell was invited to deliver the oration, but was compelled to refuse as he leaves for Honolulu August 24. One or two local orators will speak, and there will be music by a glee club and the Macabees quartette. G. R. H. Miller will read a labor poem of his own composition. The parade will contain many interesting features. Four lodges, the Red Men, Macabees, Woodmen of the World and A. O. U. W., will be represented by floats on wagons. Five unions will be in line, Federal Labor Union, United Textile Workers, Clerks' Union, Painters' Union and Carpenters' Union, probably 200 men strong all told. Manager Howard is trying to arrange with the Portland Lodge of Elks to place a float on a street car to advertise the Portland Elks' Carnival, and if he is successful, the labor float will also be on a car. From 25 to 50 horsemen in cowboy costume will be in the parade, and C. A. Willey has offered a fine bride for the best appearing "man on horseback." After the program at the park there will be a basket lunch on the grounds, and the first event of the afternoon will be a baseball game at 1:30. The Oregon City team will play one of three teams, either Forest Grove, Coquille, who will make a tour north about the time of Labor Day, or a nine from the O. R. & N. shops in Portland. The ball game will be followed by other games and sports, and there will be dancing in the afternoon and evening. The display of fireworks will surpass anything of the kind ever shown in Oregon City and will be exhibited on the ball grounds, where they can be witnessed to the best advantage. They are composed principally of large set pieces, all made to order. Of the ten large set pieces, the largest is the labor display, which measures 14 by 30 feet, and contains the union emblems in the center, with the words "American Federation of Labor." In addition to the set pieces there will be a display of rockets, Roman candles, etc.

A meeting of the trustees of the Methodist Episcopal Church will be held in the church tonight, and important business will come up for action.

Mrs. Samuel E. McKee, who has been visiting her daughter, Mrs. Norman R. Lang for the past two months, left last night for her home in Oakland, Cal. She was accompanied by Miss Marian Lewthwaite.

J. H. Howard leaves on the night of September 1 for Norfolk, Va., to attend the Great Council of the United States, Improved Order of Red Men, and will be absent about one month. The council will be in session a week and will hold the biennial election of officers. Mr. Howard is great representative from Oregon and with his associates will work to bring the great council to Portland during the Lewis and Clark Fair in 1905. Before returning to this city Mr. Howard will go to Washington, D. C., for a conference with President Comper, of the American Federation of Labor, and will secure the renewal of his commission as district organizer.

Noble Watt, who has been in the employ of M. Michael for the past year, left yesterday for Antelope, where he has accepted a position with Bolton & Co.

The steamer Gray Eagle was floated Saturday night, and was sent to Portland.

Reports from the country districts indicate a large amount of rain yesterday and Saturday. Rain fell as far east as the Cascade Mountains, and while the crops are too far advanced to be benefited, no particular injury was done.

Rev. A. J. Montgomery preached his farewell sermon yesterday, and his church was crowded in the morning and evening. He will preach his first sermon in the Third Presbyterian Church in Portland, where he has been called next Sunday. A congregational meeting of the members of the Presbyterian church of this city will be held next Wednesday evening in the church for the purpose of acting upon Mr. Montgomery's resignation. Services in the church will be conducted next Sunday by Rev. Frank H. Mixsell, of Horton, Wis.

VANCOUVER.

(Journal Special Service.)
VANCOUVER, Wash., Aug. 18.—Mrs. Cora D. Haworth and her attorney, Judge Northrup, arrived in the city yesterday in quest of her five-year-old son. It seems the father had placed the child in the keeping of Miss Frank Neston, of this city. Mrs. Haworth has been granted custody of the child pending the decision of the court in the divorce proceedings which she brought against her husband, Henry M. Haworth. But when she arrived in this city she met with a great disappointment, as the child had disappeared, presumably again kidnaped by the father.

While Mrs. H. Heffner and Mrs. W. E. Huston, of Vancouver, were driving home from the Artisans' picnic at Fourth Plain Saturday, their horse became frightened at some rock piled at the approach to the Burnt Creek bridge and backed off the bridge, throwing Mrs. Heffner down the embankment. Mrs. Huston jumped from the carriage. Fortunately neither of the ladies were seriously injured.

Covenant Lodge, 133, I. O. O. F., met last Saturday night and installed the following officers: M. C. Seymour, noble grand; W. S. Wood, vice-grand; W. L. Vanderpool, secretary; Wm. Ranck, R. S. N. G.; Neil Henderson, L. S. N. G.; Mr. Schoonover, R. S. V. G.; A. Bigham, L. S. U. G.; George Johnson, warden.

Marriage licenses were issued Saturday to Victor C. Martin and Clyda E. Wilson, and Albert R. Staley and Clementina D. Steelman, all of Clark County; Frank Stelzel and Mrs. Ada Love, of Portland.

FAIRVIEW.

(Journal Special Service.)
FAIRVIEW, Aug. 18.—Mrs. W. Heiny, who has been visiting her mother, Mrs. J. E. Heslin, has returned home.

W. E. Jacobs is ill with typhoid fever. School will open in the Fairview public school September 15.

A surprise party was given the other afternoon to Ruth, Eva and Helen Jackson. Games were played, after which light refreshments were served. A delightful time was enjoyed by all. Those present were: Blaine and Eva Turner, Arthur and Ralph Dustin, Susie Hall, Maud, Mabel and Harriet Donnelly, Ruth Shaw, and Perry and Laura Dolph.

The mill of H. C. Campbell is idle for a few days awaiting repairs.

Mr. A. L. Stone has 25 acres of cucumbers, and will begin picking regularly in a few days, employing a large number of Chinamen. They average 50 tons per acre, and must be picked daily. The Columbia slough regions are especially productive.

The Fairview Cheese Company recently made a sale of 12,000 pounds of cheese to Glafke & Co., Portland.

ROSEBURG.

(Journal Special Service.)
ROSEBURG, Aug. 18.—Sheriff E. L. Parrott has taken Prof. F. A. Nourse to Salem to the insane asylum. The unfortunate man is laboring under the mental delusion that he is a wonderful singer. He is a veteran of the Civil War and about 58 years of age. Prior to his commitment to the asylum he was in jail on a charge of extracting a check of \$36.00 from an envelop entrusted to his care by N. Myers, an inmate of the Soldiers' Home, and afterwards cashed it at the Douglas County bank.

Mrs. A. F. Morrison, of San Francisco, is visiting in Roseburg with her sister, Mrs. G. R. Childs. Mr. and Mrs. G. G. Childs and Mrs. Morrison will leave tomorrow for Crater Lake for an outing.

James Rodgers, who has been an inmate of the Soldiers' Home for over a year, has taken his discharge and gone to Forest Grove, where he has relatives with whom he will reside.

Mrs. T. M. Berry returned home to Salem today after a few days' visit in Roseburg with Mrs. W. W. Cardwell.

CORVALLIS.

(Journal Special Service.)
CORVALLIS, Aug. 18.—"Flora," the old pet mare that has been used for nearly everything on the college farm passed to the great beyond last Monday. Her death is supposed to be the result of violent attacks of colic. Her market value was not great, but she was tractable and could be used for any purpose, consequently her demise has occasioned some regret.

AURORA.

AURORA, Aug. 18.—The hot spell last week is claimed by hogrowers to have materially reduced the hopcrop, but has also insured a first-class quality. Picking is expected to begin in three weeks, but there is a great difference in yards, many of which ripen even before that time, should the weather again turn warm.

MYRTLE CREEK.

MYRTLE CREEK, Aug. 18.—A depth of about 1200 feet has been reached at the Umpqua Valley Oil Company's well near here, and the indications for striking oil soon are very favorable.

N. Selig and wife are in San Francisco on business and pleasure.

Joe Foreman and C. J. Richey have just finished digging a very remarkable well, for this place at least. At a depth of nine feet they struck a vein of water so strong that it kept a man busy bailing while digging was progressing, and to keep the water under control it was necessary to put on a night shift.

It is intended to put up a wind mill and utilize their abundance of water for irrigating purposes.

Mr. Curry, a representative of the Oregon Timber & Boom Company, has been in this vicinity for the past two weeks securing the right of way of the farmers along the Umpqua river to clean out the stream and to make it suitable for floating logs and timber from its head to tide water.

W. P. Johnson, manager of the saw mill project for this place, is still negotiating for rights of way through property adjoining South Myrtle Creek to boom the stream for logging purposes.

ASHLAND.

ASHLAND, Aug. 18.—Freight Agent P. B. Whitney and Clerk Blaine Klum were unloading a car of miscellaneous freight and Klum was tumbling down a 500-pound barrel of bluestone, each looking at the point where it was to land. It is needless to ask how they felt when they suddenly discovered that it would land on a stick of Hercules giant powder eight inches long and one inch in diameter, which had in some manner broken out of a whole box of it lying alongside. The 500-pound weight landed and smashed that stick of giant powder into several pieces. It was remarkable that the powder did not explode, as it was quite warm and much of the nitro-glycerine free.

LA GRANDE.

LA GRANDE, Aug. 18.—It is seldom the trip across the plains is made in the good old-fashioned way—but Lon Lewis, accompanied by his wife and two sons, has arrived here with two teams, all the way from Nebraska. They were joined on the road by M. Collins and wife, from Kansas, with a fine two-horse team, and report having had a very enjoyable and pleasant trip. They were headed for Walla Walla, but were so well pleased with this valley they concluded to remain here a while and look for a location in this county.

BAKER CITY.

BAKER CITY, Aug. 18.—The marriage of Claude Basche of Sumpter, son of Mr. and Mrs. P. Basche of this city, will occur August 20 at Eugene to Miss Grace Campbell, a charming young society lady of that city. After the wedding the young couple will visit San Francisco and various California points of interest and will then return to Sumpter, where Mr. Basche is in business. The groom has already secured the prettiest dwelling-house in the mining town for his new home and his marriage will add much to the social importance of the Upper camp.

ST. HELENS.

ST. HELENS, Aug. 18.—The St. Helens mill will start up in a few days. There is a shortage of water in the usual supply and the deficiency is being supplied from the Columbia by the aid of pumps.

The fishing season just closed has been unusually good here.

SCIO.

SCIO, Aug. 18.—The hauling of the new wheat crop is in full blast and is coming in at the rate of 200 bushels a day.

Henry Scheiman met with a painful accident while hauling logs near Dugley's. His team became frightened at a steam thresher and running away he was thrown off the wagon, fracturing his kneecap and dislocating his knee.

SILVERTON.

SILVERTON, Aug. 18.—The wheat in this locality is not up to the expectations of the farmers in general, but from reports coming from the hills the average yield is not so bad after all, it being about 30 bushels per acre, while on the prairie it runs nearly as well and is of good quality.

OSWEGO.

(Journal Special Service.)
OSWEGO, Aug. 18.—For the past month the town has refreshed itself by indulging in a small sized boom, much gas inflated to be sure. Nevertheless, with enough of the "substance of things hoped for," to make it interesting. An engineer with chain and rod came up out the south, engaged some native talent and went to work. When he headed up Goose Pond and skirted the classic shores of Sucker Lake the mystery vanished, and excitement knew no bounds. The oldest inhabitant knew the South-east Pacific never could manage that grade up Fourth street—told them, so when they built it. Another knew just how the grade should be run in getting down from Bertha, while another commented that a house now stood where he had once advised the aforesaid road to be run for depot purposes. Property has gone up 50 per cent, and the daily patrons of the "local" are looking at their commutation tickets wondering whether their 90 rides will have been used ere they are called upon to brave the dangers of Elk Rock no longer. This is the humorous side to those who seriously feel Oswego has some railroad property ahead of it yet realize how slowly good fortune travels when it depends on railroad building. Yet it is bound to come. Oswego, with its valley and easy grade to the west side road holds the key which will sooner or later solve the Fourth street problem. Not only the grade must be overcome but it is a question of a very short time when Portland will demand the removal of a railway line down one of its principal streets. It has long been wondered why the railroad company holds on so persistently to the little island in the river opposite Elk Rock. It might serve as a hint were it known that not long ago came a whisper from the inner circle that bridge experts had been skirting the island carefully taking notes, and set to work at making estimates of—what?

The face of every Oswego property owner has that question mark.

A few days ago Mrs. Gardner, her sister Miss Morgan, Mrs. Fisher and a number of others went to St. Johns on a basket picnic. They report a very enjoyable time.

Mr. and Mrs. Fred Russell, of San Francisco, are visiting Mr. Russell's father. They expect to return to California by boat Wednesday. Mr. Russell is a successful lumber merchant of that metropolis.

The Artisans held their monthly social Saturday evening. Ice cream and cake was a feature of the entertainment. This organization is quite strong here, and their plan of making every other meeting a social one is proving quite popular.

Mrs. H. D. Chapman, of Seattle, visited during the week, and accompanied them on their camping trip to Lewis river.

Mrs. John Gardner is expecting to arrive from Scotland the coming week, her father, brother, sister and cousin. She has had word of their safe arrival in New York. They will remain with her until fall, and on their return will be accompanied by Miss Agnes Morgan, a sister of Mrs. Gardner, who has spent the last year in Oswego.

Mr. and Mrs. Wm. M. Gray will soon leave "The Cabin," their Oswego summer house, and return to Portland for the winter. Their Oswego friends had hoped The Cabin would prove attractive enough to hold them as permanent residents, but the dark morning and the 6 a. m. train are not alluring prospects for Billy.

NORTHWEST NEWS.

Whitman County, Washington, reports an excellent grain crop with average yield of about 25 bushels per acre.

Prince Chen Tuen arrived in Vancouver, B. C., yesterday and sailed for home today on the steamship Empress of Japan.

The run of fall salmon has begun and is very good. The fish caught in Baker's Bay are mostly silversides of exceptionally fine quality.

The Chehalis County Republican convention completed its labors Saturday night, having nominated a full ticket without much contest.

Considerable rain has fallen in the Palouse, and harvest work has been suspended. Not much damage was done, the grain being hard and dry.

The Ilwaco Railroad & Navigation Co. is in receipt of the largest donkey engine on the peninsula. It weighs ten tons and will be placed at Narcocta for logging purposes.

McMINNVILLE.

BROWNSVILLE, Aug. 18.—A destructive forest fire has been raging on the east side of the Middle Santiam River, between Cascadia and Fostier. It is supposed to have been started through the carelessness of hunters in not putting out their campfire before leaving it. We learn that it is now under control.

AMITY.

(Journal Special Service.)
AMITY, Or., Aug. 18.—A. C. McKinno and wife have returned from Ocean Park.

J. W. Bridwell and wife have returned from Newport.

Grain in this vicinity is not yielding up to expectations, the yield so far reported being from 8 to 15 bushels per acre.

EUGENE.

EUGENE, Aug. 18.—The first copy of the book on the geology of Oregon which Dr. Thomas Condon has just published has been received here by H. T. Condon. This book represents the result of some of the best years of work of Oregon's venerable geologist and will be welcomed by his many friends and admirers and especially by those who have been associated with him as students during his 30 years of classroom and lecture work.

OVER THE WIRES.

Forest fires are raging in the vicinity of Florence, Wis.

Muzaffer Ed Din, Shah of Persia, arrived at Dom, England, yesterday.

In a fight near Anardarka, O. T., yesterday, Frank Basin, a sub-chief, was killed.

The Bourse at Berlin had an irregular tendency. Redenhuetten Iron Works stocks fell from 46 to 18.

President Mitchell says the strike situation is unchanged, and the men are as determined to win as ever.

The Lafayette, Indiana street railway has been declared unfair and the union is running hacks in opposition to it.

T. S. Sharrett, the Treasury expert commissioned to negotiate a tariff treaty with China, reports the same signed.

The London money market is maintaining its strength, and railroad stocks remained firm in spite of decreased earnings.

Two members of the Casey-Cram gang were captured at Cardell, Oklahoma, and compelled to reveal the whereabouts of the gang.

Baren Von Waltershausen, of Berlin, advocating the erection of a common tariff barrier against the United States by all of Europe.

Arrangements are being made for establishing banks in the Philippines to loan money to farmers, the government to guarantee 3 per cent interest.

A wagon containing a picnic party of 15 was struck by a street car in St. Louis yesterday and Harry King was killed. Two others were fatally injured.

The body of Mrs. Jessie Tuman was found last night near Muscatine, Iowa, the head split open with an axe. Her husband was mortally wounded and unconscious. They were killed for their money.

Grand Master Fitzpatrick, of the Brotherhood of Trainmen, has completed his tour of the anthracite coal regions and has addressed the brotherhood on their duties should the roads attempt to haul non-union coal.

Savannah, Ga., was visited by a severe electrical storm with high winds yesterday. Three houses were struck by lightning, one man killed, and cotton badly damaged.

The Moro situation in Mindanao is critical, and it is expected a fight will take place at Ilocor, where they are fortified. Cholera report from Manila shows few cases in city. Up to date 23,636 cases have been reported, and 17,586. The total amount of cases including those not reported to police is believed to be 30,000.

CORSET SALE

Entire Manufacturer's Stock for FIFTY CENTS ON THE DOLLAR

Thousands of Corsets

Greatest range of styles and by far the best bargains ever offered west of New York. But you must see the corsets.

BEAUTY.

HOW IT CAN BE OBTAINED

How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DEFECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry. But the crowning glory of the face is a radiant complexion with its lively glow, its youthful freshness, and its fine, smooth texture.

But the question is can such a complexion be obtained?

In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible?

By a careful study of the nature and texture of the skin, and a thorough research in the realm of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.

This remedy is **Wheat Face Bleach**.

WHEAT FACE BLEACH IS—Face Bleach is not a cosmetic to cover up, but it absolutely removes once and forever all the discolorations and blemishes which the complexion is subject. It can positively guarantee every woman it will do all I claim. Its action on the skin cannot fail to remove every defect. It's a well-known fact that the blood in order to cleanse itself is constantly throwing off its impurities through the pores of the skin; now if the pores are not kept open, the impurities of the blood cannot escape, but collect below the surface, and produce all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, SALLOWNESS, EYEBAGS AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS.

ACTION OF FACE BLEACH.—Now Face Bleach has this two-fold action; first, it has located under the skin, and, secondly, a chemical action which removes by scaling off (in the form of a fine dandruff) the surface of the outer, diseased or dead cuticle, leaving the inner skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.

THOUSANDS BENEFITED.—Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Ruppert's Face Bleach has produced in their skins. Many complexion covered with pimples, freckles and excruciating eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Freckles wrinkles and lines—those marks of beauty—are quickly effaced, and those muddy, disfiguring, sallow, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skins—which also mark the ravages of time—become firm and smooth after a few applications. Skin troubles which have baffled the most skillful physicians have been removed and cured promptly, and many have expressed, personally and by letter, their heartfelt and profoundest thanks for this wonderful Face Bleach.

A positive guarantee is given if Face Bleach is used according to the new special directions which are furnished with each order, that it will remove every discoloration and impurity from your complexion.

All of Mme. A. Ruppert's world renowned preparations are sold by us at reduced prices.

AIRY SPIRITS A WOMAN'S BANE

Catholic Bishop and Priests Have Their Ghosts Around Mrs. Mary Brainerd.

Mrs. Mary Brainerd, aged 40, called at the Courthouse Saturday for the purpose of securing the arrest of the ghost of Bishop McGoldrick of Duluth, Minn., and the spirits of innumerable priests who haunt her nightly. After wandering around among the different offices Mrs. Brainerd finally confronted Deputy H. C. Smith, Chief Clerk in the Circuit Court department.

When she announced that she desired the arrest of a Catholic bishop and a bunch of priests Mr. Smith became greatly interested, wondering what on earth had happened to the church. It may be said, in passing, that the deputy is not very long on church history or ministerial biographies, and when the lady said that the chief officer was Bishop McGoldrick, Mr. Smith scratched his pate in an effort to locate the individual.

"Can't place him, to save my life," the clerk remarked. Where does he live?"

"Duluth, Minn.," was the reply.

Mrs. Brainerd then explained that once she was a member of the Catholic church but had become converted to Protestantism. Since then the spirit of Bishop McGoldrick, whom she knew in Minneapolis, but who is now a resident of Duluth, has constantly haunted her. In addition the bishop's ghost has enlisted the services of dozens of Catholic priests and they, too, are worrying the life out of her.

She conducts a dressmaking establishment in the Marquam lodging house, Sixth and Alder streets, and she charges that the spirits keep customers away from her and raise her generally. She told Mr. Smith that Catholicism is forming a network of electricity around the globe and will soon destroy the world by fire. The spirits of Catholicism control the world, she says, and is destined to ruin it.

Mrs. Brainerd did not secure the "relief" demanded in her complaint, and returned unsatisfied to her apartments. Among her associates the unfortunate is spoken of as a most estimable woman. Her mind is merely wandering.

INSPECTING CREMATORY.
 E. W. Hand, president of the City Council of Spokane, is in Portland inspecting the crematory. Spokane is about to build a crematory, and Mr. Hand is posting himself. City Auditor Devlin photed him around.

STATE FAIR

(Journal Special Service.)
SEDALIA, Mo., Aug. 18.—Sedalia is rapidly filling with visitors to the Missouri State Fair, which was formally opened today to continue through the week. For thus early in the week the attendance is exceptionally large and augurs well for the financial success of the fair. All departments of the exhibition are well filled with choice exhibits, the display of live stock, agricultural products and minerals being particularly notable.

An Englishman traveling in Siberia was astonished to find that "all Irkutsk should have gone out of town for the summer just as if it were New York or Naples."
