THE WEATHER MONK.

The Journal's Weather Monk wants to quit his job and go out to work in the harvest fields. That's why he got that myth. But he was refused his request.

For The Journal believes the children will always be interested in the Weather Monk, who will tell them every day about the weather that is to come. When he went today up to see Mr. Beals, the Weather Forecast of the Government Bureau, that dignitary told him the following:

WEATHER FORECAST.

The disturbance yesterday over British Columbia has moved slowly eastward and it is central this morning north of Western Montana. No rain has yet fallen as the result of this storm, but the weather is cloudy and threatening in Western Oregon and along the Washington coast. It is warmer in Southeastern Idaho, Southeastern Washington, Wyoming, and Montana, and cooler in the Upper Mississippi Valley.

NO. 2.

One of the large advertisers on State street assured me week-day morning paper advertising never has paid him, and that he uses it only occasionally in the best morning paper, when he has a very special sale. His firm probably spends about \$45,000 annually in evening newspaper advertising. People have so little time to devote to papers in the morning that advertising to be of any value should be of the bold, striking kind, and not given up to arguments or prices. I believe that general advertisers who use the morning papers with such advertising do so to supplement the work done and impressions made in the evening papers.—Extract from article in Mahin's Magazine.

The Sellwood woolen mills are weaving a bale of blankets for the county jail.

The Annual County Institute of Multnomah County will be held at the High School building from September 19 to 23. Professor T. L. Heaton, of California, will be in attendance, together with other noted educators.

The Overland Warehouse Company will be notified today that cars on the Southern Pacific Fourth street line must not be detained in unloading to exceed two hours, or the Council will take stringent measures to abate the nuisance.

WILL GO TO NEW YORK.

An appropriation of \$50 was made by the City Council yesterday to defray the expenses of Fire Chief Campbell to New York and return to attend the International Convention of the Fire Chiefs, beginning September 15. Chief Campbell has been furnished transportation by the association, and the small appropriation made yesterday and will be used for expenses incident to the journey.

A TOUR OF INSPECTION.

Mr. Williams and City Auditor Devlin are out on a tour of inspection this afternoon. They will look over a great number of streets, the post house and crematory. Mayor Williams actually acts like a hired man of the city—and works him tight.

IN BETTER DRESS.

Local Theatres Have Been Renovated and Beautified.

When the theater-going public makes its first visit of the theaters this season it will be surprised and pleased at the changes and improvements that have been made to enlarge the accommodations and beautify the places.

THE MARQUAM GRAND. The Marquam Grand has been dressed up with some very striking designs in art work. While it has always been attractive, this year will see it an ideal pleasure resort that will be greatly appreciated by all lovers of the beautiful.

CORDRAY'S HOUSE. Manager Cordray has been seeing that the public is not disappointed when they flock in to see the curtain go up for the first time this year. Painters have been distributing colors in the most beautiful designs, carpenters have been adding new features and all in all, the place presents newer and grander face.

THE POPULAR BAKER. Manager Baker is not behind in his theater by any means. There has been a general overhauling and renovation throughout the whole place. Many of the former loges have been removed to give place to chairs; in the center of the house chairs have given place to boxes, to increase the comfort and accommodations to those who desire to enjoy a good play. One stage has been enlarged and made more commodious, thus facilitating the enlargement of dressing rooms for the actors. Chas. Johnson, the man brought from the East Side where he was found asleep on the sidewalk, told a rambling story. He stated that he had just arrived from California, and when arrested was on his way out of town, and had stopped to rest for a few minutes when he was taken into the toils of the law. On looking at the court records it was found that Johnson had only been released from the rock pile about 10 days before. He was given 30 days.

THREE BIG WAREHOUSES.

Construction work is progressing rapidly on the Columbia River & Northern Railroad, running from Lyle to Goldendale, but it will not be ready to handle this season's crop of grain. On this account Balfour, Guthrie & Company, who will handle the grain along this line, are building three large grain storehouses, one at Goldendale, one at Centerville and a third at the head of Swale canyon. The three storehouses will have a total capacity of about 1,000,000 bushels. The rolling stock of the road, consisting of two engines, two passenger coaches and 45 freight cars, is in Chicago now awaiting shipment.

CAN'T WIN

The Oil Tanks Will Not Go to Upper Albina.

FATE SEEMS SETTLED

Sentiment Against Them Appears to Predominate—Big Remonstrance.

It appears to be settled that the Standard Oil Company's tanks will not go to Albina. A poll of the Council has been made and there are enough votes in opposition to the measure to defeat it.

"Not that there is the slightest danger to adjoining property attending the location of the tanks at the place selected," a Councilman says, "but the people of the neighborhood fear them, and this universal sentiment prompts me to oppose the wishes of the Standard Oil Company. It is not a question of justice, but one of sentiment, pure and simple.

"If it were possible for the manager of the Standard Oil Company to carry its tanks around in his arms from place to place I would not fear to wager everything I own that he would not find a spot in Portland where he would be invited to deposit them. Every man in the city would oppose their location adjacent to his place of residence, or inflammable property of any description. All want them somewhere else, and as The Journal has pointed out, if driven to the west side of the Willamette the company's present plant will be destroyed. It cannot use its distributing depot unless it is connected with the storage tanks, and the storage tanks will not feed the distributing tanks unless at a great elevation."

Still, this Councilman said he would not foist the tanks upon the objecting residence section of Albina because the people do not want them there. Others expressed themselves in a similar vein, and it is now next to a settled question that the hearts of the Albinites need not longer be sorrowed by oil-tank apprehension.

AT THE COUNCIL MEETING yesterday a long communication, written by W. D. Fenton and signed by George C. Flanders, manager for the Standard Oil Company, addressed to the Mayor, was read. The letter stated that the company, if granted the franchise it had asked for, would grade the tank site down to 17 feet below the level of its surroundings. The gulch would be partially filled with the excavated earth and an earthen wall four feet high would surround the tank site so that if every drop of oil stored there should be emptied upon the ground none of it could escape from the inclosure. The communication further stated that the tanks would stand in so great a depression that from two sides even the tops of them could not be seen, and on the opposite sides but a small portion. The tanks would be kept painted and the ground clean, so that instead of a nuisance their location would abate an already existing nuisance, and no danger could possibly exist.

Subsequent to the reading of the communication AN ORDINANCE PREPARED by Mr. Fenton was read and referred to the committee on health and police. The ordinance merely granted a pipe-line franchise from the proposed tanks to the distributing tanks, aside from the right to locate the former on the selected Spencer tract.

M. J. MacMahon was present to represent the belligerent community and W. D. Fenton, George C. Flanders and C. A. Watson the Standard Oil Company. But there was nothing for these gentlemen to say, when the letter and ordinance went to the health and police committee. They therefore departed as noiselessly as they came.

COUNCILMAN ALBEE from the Tenth Ward stood ready to present a remonstrance signed by 150 taxpayers and representing 15,150 feet of street frontage, against the granting of the franchise. The petition is signed as follows:

GRAND JURY TO ACT

The Trio of Alleged Burglars Have a Preliminary.

Fred Reynolds, John Johns and Geo. White had a preliminary hearing in the Municipal Court yesterday afternoon.

The men in company with Frank Reynolds, who is now in the county jail, are accused of breaking into a Japanese store on Seventh and Couch, on the night of August 2.

Reynolds testified on the stand that on the night in question, he in company with White, Johns, his brother and a man named Watkins, had come over from the East Side, and after eating a meal at a 5-cent cafe on Burnside street, had gone to the Japanese store and robbed it, by breaking in at the back window.

White and Fred Reynolds remained on the lookout while the other three boys went in and secured the goods, which consisted of gloves, suspenders and tobacco.

The plunder was taken to the East Side, where it was cached near the depot under some logs. The following evening the goods were divided among the five.

Johns admitted that he was guilty and was the one that broke into the store, and was in the company of the other four. That Frank Reynolds and the boy Watkins had entered the building with him and Fred Reynolds and the man White had remained outside.

Johns stated that his home was in Salem, and later confessed that it was at the reform school, from which he had run away. Also that he had committed several robberies in that place.

Detectives Ford and Cordano testified that they had made the arrests and had secured the confession of Johns and Reynolds by "awakening" them. Upon the arrest of White they found a pair of the stolen suspenders in his pocket.

White argued his own case and showed a slight knowledge of court procedure. Johns and White were bound over to the grand jury under \$1,000 bail, in default of which they were taken to the county jail.
