NEW YORK SUMMARY.

NEW YORK, Aug. 28.—Plans on foot for resumption of work at various mines throughout the anthracite regions. The output of coal now is 2500 tons per day. Treasury officials are satisfied with the financial situation. Rock Island gross earnings capacity on market value compares favorably with St. Paul, Burlington and Atchison. The Iron Age reports activity in all departments, though coke is still unsatisfactory. The Southern Railway is likely to need continuous expenditures for improvements for years to come. Reading is voting trust have power to dissolve voting trust at any time. Considerable borrowing demand for Atchison. Fifty-two roads, second week in August, earnings increased 6.55 per cent; 20 active roads decreased 0.07; 12 industries advanced 0.40.

PROSPECTS IN GRAIN.

(Journal Special Service.)

CHICAGO, Aug. 28.—"The whole wheat and oats situation looks bearish to me of late," says C. H. Requa. "Wheat cutting," says Editor H. V. Jones of Commercial West, "will be finished practically this week, except for a small area of late wheat in Northern counties. Rains have interfered somewhat with stacking but no important damage has been done. Flax will not yield as much per acre as last year, but there are a good many more acres." Provision people have it that there has been some hitch in the plan of the packing-house merger. The taking over of Anglo-American establishments by Swift expected to take place September 1 has been put off 30 days. There were to be inventories made at certain of the outside establishments on the last day of August. Those who happened to be in communication with those points had it yesterday that employes of plants involved were throwing their hats in the air because notice had been given that the taking of inventories was off for the present. Everybody next to the situation in this market had it from every direction that a mysterious hitch or delay had occurred in the big deal. The point was that Armour looked to as the moneyed man in the undertking was not just satisfied with the way things were being put at the time. There was a hint that some of Swift's figures were not to the fancy of people who were expected to furnish most of the solid cash. Then in the mass of all the other gossip going around yesterday there were hints that some of the inventories that had passed it had looked pretty well "blown-up."

Wheat Clearances.

CHICAGO, Aug. 28.—Clearances from Atlantic and Gulf ports:
Wheat, 458,000; flour, 13,000; corn, 4900; oats, 17,000. Wheat and flour equal 519,000 bushels.

THE STOCK MARKET.

(Journal Special Service.)

CHICAGO, Aug. 28.—Today's early stock market was a repetition of yesterday, but on a smaller scale. The resemblance extended to the reactionary tendency caused by the heavy realization in progress under cover of sustaining strength of a few stocks, but it was not until the announcements of reduction of dividend on Readings 1st preferred that the weakness of the whole market became acute and prices broke all around to well below last night. There has been an impression for many weeks that the Reading dividend would be reduced in order to extend the voting trust, which, under the terms of the trust, would be dissolved by the payment of one year's full dividend on the 1st preferred stock. The announcement requested last week that the Soutnern Railway voting trust had been requested by stockholders to defer the dissolution of the trust by postponement of dividend on the preferred stock was a strong coroboration of expectation of similar action in the case of Reading. It is improbable therefore that the mere fact of reduction of dividend would have shocked the stock market had it not been for the way in which Reading stocks were advanced on the purchase of enormous blocks of stock. The sudden tumble in those stocks caused by the announcement of dividend reduction gave rise to a chilling apprehension that the bold speculators who are leading the preparations for advancing prices are acting without the best information in all cases and may be putting up all prices simply by the force of abundant funds and without substantial grounds for the higher range of values.

LOCAL MARKETS.

Few changes in markets today, either in features or prices, were the rule. The staples were rather quiet, with decreased shipmenth, prices unchanged. Fruits and vegetable lines were active and volumes of both receipts and shipments more than usual; prices somewhat weaker. The fish market was unusually strong, with good demand, but prices somewhat weak. Dealers are feeling well on account of a large catch and larger operations, though the run is closing. Mill middlings and shorts and the home flour market generally were quiet, due, it was said, largely to the fact that it is the cleaning-up period of the country mills, making ready for the new start. Poultry was declared "off," from large supply and smaller demand.

An arrival of early Crawford peaches was announced by W. B. Cafke, of extra fine quality. That firm also announced the first export of apples for the year, being a shipment by that house direct to Siberia, and the same house was making a shipment of peaches to the same distant point. The shipments are made through the North Pacific Company, via their boats from Tacoma. Large shipments of other fruit went to Siberia last season with great success, but this is the first shipment of peaches ever made there.

About Titled People.

King Alexander, like his father before him, is ignored by his fellow-sovereigns when he travels abroad. No official notice is taken of his presence at Vienna when he stays in the Austrian metropolis, while his offers to visit St. Petersburg and other foreign courts with his elderly consort, Queen Draga, have been curtly declined. Nor could any European Prince of the blood, no matter how impoverished, be found who was base enough to be willing to give his daughter in marriage to King Alexander, who married his mother's discharged lady-in-waiting merely because he could find no woman of royal rank willing to become his Queen.
