

Absolutely Painless Dentistry

Is no longer a theory. Through years of study and experiment we have perfected practical methods that are **POSITIVELY PAINLESS!**

Our experience has taught us that considerate treatment and fair charges are as necessary to the success of a dental business, as is skill. Upon these foundation stones we are building, not for today alone, but for the future. Our wonderful success is due as much to this, we firmly believe, as it is to the high quality of our work.

Fifteen Years Established Practice in Portland

We Refer to With Pride as a Guarantee of Our Reliability.

Perfect Crowns and Bridges

PRACTICAL
ILLUSTRATION
OF THE
DIFFERENCE

We take especial pride in building crowns and bridges, and guarantee perfection of workmanship in each case. You will be surprised when you learn how low we make the cost. These illustrations represent a practical case. The first picture shows the mouth before it was bridged; the second shows the work completed. This is only a sample of the artistic work in this specialty that we are performing every day.

Plate Trouble Corrected

Plate trouble is a common thing, and there are various kinds of it. Many plates never were right. Others are properly made, but the mouth is not placed in proper condition for the wearing of plates. The membranes become tender, red and inflamed. The gums become swollen and the plate is uncomfortable. Sometimes a little shaping, or a little grinding, or polishing, is sufficient. Occasionally a plate is so utterly wrong as to be worthless. If your Plates are in any way unsatisfactory, we will be glad to make an examination and tell you the cause of the trouble.

Our flexible rubber plates have been found to give perfect satisfaction where persons had worn a number of plates of different makes with constant annoyance and positive discomfort. We guarantee our flexible rubber plate to give satisfaction.

While you are delaying your visit to a dentist, decay is bringing about the result as illustrated here, just as surely as one day follows another. Tooth troubles are universally progressive, and prompt attention to decaying teeth is imperative. Often if a tooth is neglected, it may become so diseased that extraction must be resorted to. This is unfortunate, especially if it be a front tooth. We have a variety of methods of extracting teeth, and each one is guaranteed to be positively and absolutely painless. Patients are allowed to express a preference. Our vapor method is generally preferred.

Our corps of assistants is composed of practical, experienced and thoroughly reliable operators. Our electrical instruments and appliances throughout are the most advanced known to the dental science.

NO DENTAL STUDENTS EMPLOYED IN ANY CAPACITY.

WISE BROS., Dentists

The New Failing Building, S. E. Corner Third and Washington Sts.

Open Evenings and Sundays.

Phones: Columbia 368
Oregon South 2291.

You will certainly not fail to visit the Elks' Carnival, to be held in Portland from September 1st to 13th. All railroads have granted a single fare rate for the round trip. It will be an excellent opportunity to have your teeth attended to by thoroughly reliable and up-to-date practitioners.
