MARKETS OF THE WORLD

CHICAGO. Sept. 5.—In the oat pits there is an idea that Patten is taking profits on his long line and isaving to the other fellows whatever there may be left in the market. It rather looks as if he did not want to have a repetition in Beptember of the July experience with anybody. The December wheat in Chicago is barely three cents over the December at Minneapolis and only 2% cents over the December at Minneapolis and only 2% cents over the December at Duluth. The full shipping difference between Mindeapolis and Chicago is 6 cents, but it is assumed that 4% cents premium here would invite Minneapolis wheat to this market. Some wheat people are beginning to believe there is to be repeated in their market this year the experience of the last two or three years in cotton. Large yields, but small stocks with persistent selling by the growers. This experience in cotton for two years has made a big speculative market with an unhappy experience for short sellers. There is no doubt about the big wheat yield this year. It begins to look as if the wheat farmer was not to sail very freely. Primary receipts yesterday were 500,000 bushels under last year. The southwestern receipts have now dropped under last years. The northwestern car lots year. There were claims the farmers were stacking; were not satisfied with the price, and, being in comfortable circumstances, and under no necessity of selling, proposed to hold.

M. K. & T. people are optimistic on the outlook for their property. In all the recent laudatory utterances concerning the Southwest there has been practically no mention of that M. K. & T. for the reason that it lies entirely within the region that seems likely to enjoy the greatest advances. It can be said with considerable confidence that the in-By Bolton de Ruyter & Co.

tically no mention of that M. K. & T. for the reason that it lies entirely with in the region that seems likely to enjoy the greatest advances. It can be said with considerable confidence that the inside buil pool in Missouri Pacific, which has been in existence for something like two years, has liquidated its holdings with a very substantial profit. The amount of that profit is not made public, but a glance at the stock list will show that this has been one of the most skeptical pools in Wall street history. Dividends declared—Rubber goods preferred, 1% per cent; books close September 8th; payable September 16th. St. L. & S. F., first preferred, 1 per cent.

A message from Sloux Falls yesterday said an exceedingly heavy frost last night spoiled all the corn in this section.

night spoiled all the corn in this section. It is safe to say that none will be husked this year in this county.

Beveral reasons were offered for the complete reversal in the market movement yesterday and for lack of support given. Some of those were representatives of frost in the corn belt, another was the rumor that President Roosevelt was dangerously ill, as a result of the accident to him on Wednesday and finally there was the sharp advance in money rates to as high as 8 per cent. This is the highest figure recorded in some months. The truth of the case is that the stronger financial interests in the street who have the market in hand decided that it was the policy of wisdom and prudence to discourage any outburst of speculation such as that which had set in on the day previous and incihad set in on the day previous and inci-dent to an apparaetly legitimate demand for such investments required as New York Central, Pennsylvania and St. Paul. This movement had lowered the close of This movement had lawered the close of wednesday's trading, and assumed so "runaway" a look that it promised, if it were not nipped in the bud, fairly to carry the speculative element off their feet and in the end likely to impair serfeet and in the end their a blanks to work hurt to the market. Accordingly, these financial interests not only withdrew their support but offered stocks rather freely around the room. An active demand for stock means active demand for stock means active demand for noney, so liquidation of securities tiles Hauldation of loans. If the stock nifies liquidation of loans. It the stock recognized this fact and as one banker puts it, with "go slow" for the move-ment, it will, in the end, be the better for everyone concerned. St. Louis reports that weather condi-tions continue to interfere with seeding of winter wheat. In some sections the soil is too dry and in others too wet, but work is progressing and there is ample time to get the next crop in the ground. Deliveries of wheat by farmers are

LOCAL MARKETS. Portland markets continued steady to day with the single exception that hides and wool went off a triffe and were ruled duller. Prices were shaded down half a cent. Hops found contract prices unchanged and the new crop ruling a cent higher than the old on open sales. Wheat was stronger, the range on Walla Walla

tending slightly upward. Fruits were increasingly on the move, receipts large and sales big, prices standard. In the past seven or eight days stocks of peaches have averaged 5,000 boxes daily.

Three cars of Crawfords were in from Albany this morning, as reported by Glafke.

Melons continue a large feature, Southern Oregon beginning to take up the entire song, from the refrain of first arrivals last week. Bell & Co. had a car of Idaho nutmegs, which soon disappeared on the street. Watermelon prices have shaded down a little, but stand firm now at \$2.50. The Page-Pearson

Company had a car just in. There was an exceedingly large line of that delicious new meion known as the Casaba, the California-Oregon muskmelon that has succeeded the original Chinese variety. Its development is rather hard to trace, but developed it is, and has come to stay among the delicacies. It is immense in size, more like a squash than References-Ladd & Tilton, Portland; U. S. CROWDS OF PEOPLE.

The proprietor of one of the leading

hotels in the city says that during the

past three days he has been compelled to

turn more people away than ever before

in the same length of time. "During the

five years that I have run this place I

never saw anything like the crowds com-

ing here at present to attend the Elks'

carnival. If such a large influx of peo-

ple should be seen at Seattle the resi-

dents there would set up a howl to the

effect that the city is booming beyond all
