THE JOURNAL MONK. The Journal Monk is industrious and it he loses one job is bound to have another. Today he takes a tumble to himself and sithough he has always avoided all kinds of low dives, does not hesitate about

taking a high one. He told us last night he expected to appear in the parade today, but feared he could not get his uniform in time, and besides he is a little scary about getting mixed up with Uncle

WEATHER FORECAST.

There has been a general increase in pressure in the Rocky Mountain and North Pacific states during the last 24 hours, and a high area of considerable magnitude overlies British Columbia this morning. The pressure is lowest in the upper Mississippi valley. It is much warmer in the central val-

leys of the United States, northeastern Washington and southeastern Idaho. The indications are for a continuation

of fair weather in this district during the next 36 to 48 hours, with slight changes in temperature. Oregon and Washington-Toright and

Col. L. L. Hawkins has put up a number of guide notices in Macleay Park for the benefit of the visiting public, which finds the place an excellent place of recreation during the hot weather.

The Portland Golf Club will give a dance tomorrow night at their club house on the links. The proceeds will be devoted to purchasing necessary furniture for the new addition to the house. .

The local Chamber of Commerce has received an invitation from the National Board of Trade to become a member of that body. This is considered quite an honor, as the National Board of Trade is a powerful organization and of National

The management at Blazier's popular resort, First and Madison street, has secured the renowned Duffy children, These remarkable children have appeared both at Baker's theater and Shields' Park, in this city at both of which places they made decided hits in their acrobatic work, singing, dancing and character impersonation. Their parents also are very clever and altogether the attraction is probably the best ever presented at a free music hall in Portland.

Col. Hawkins is one of the most active members of the Park Commission and when he heard that the City-Park site for the Lewis and Clark Fair site had been turned down, he said that he would fall into line with the advocates of Willamette Heights. He thinks the city may be able to acquire a tract of land at Willamette Heights for permanent improvements but he is not in favor of purchasing property for park purposes. The city now has a large amount of donated park property, which has never been improved.

SAILOR DESERTIONS

And the Reasons Therefore From the Boarding House Standpoint.

"Only 20 men are in the two sailorboarding houses here at present," said Jack Grant yesterday, "and the ships in port need 100 before they are provided with full crews. A great many sailors have deserted lately, but few of them ever came to the boarding-houses. The reason of this is on account of the large number of men that the logging camps and sawmilis are employing all the time at good wages. Sailors soon get on to this fact, and leave for various places of this description without even stopping in town over night. As long as good food and remunerative wages are enjoyed by the workingmen of this country, just so long will desertions from ships at Port land occur. A captain comes to us for men, and quite often we are unable to supply him, simply because there are none to be had. Sallors are like anyone else, and if they can better their condition by getting employment on land they are not going to overlook the opportun-

COL. DOSCH WELL RECEIVED

The Japanese Wish Commercial Intercourse With This Country.

Colonel Henry E. Dosch, Oregon's commissioner to the Japanese Industrial Exhibition, to be held at Osaka in May, 1908, will be accorded a fine reception by the Japanese authorities. This is taken from the following letter from S. Takagi, the Japanese Vice-Consul to Secretary Reed, of the Lewis and Clark Fair:

"Dear Sir: It has afforded me much pleasure in compliance with your kind suggestion of the 27th inst., to give Mr. Dosch a letter of introduction to the Minister for Foreign Affairs in Tokio, and also letters to friends in Yokohama; and am glad to be able to assure you that Mr. Dosch, and the interests of your state, represented by him, will receive kind attention at the hands of our people. "I have also written to the Department of Foreign Affairs, at Tokio, in relation to the visit of Mr. Dosch, asking that he should be aided in his undertaking in every possible way; and am fully assured that my request will receive the kindest consideration, since the promotion of friendly relations between our two countries is one of the chief efforts of my wovernment.

"Your expressions of kindness and appreciation are most highly esteemed. I can only assure you that it will always be a great pleasure to me to do all within my power to promote commercial and other friendly relations between your city and state and the country I have the honor to represent in your midst."

FREE! FREE!

TO KIDNEY SUFFERERS

An Opportunity Worthy of Your Notice.

If you suffer with kidney disease or any ailment arising from an improper action of the kidneys or urinary organs, this offer we make to the people of Portland should interest you. In the advancement of medical science, the kidneys, the organs of the greatest importance to human health, have not been neglected. and in placing before you such a cure as Doan's Kidney Pills the proprietors reqognize how far so many statements of the makers of similar preparations have fallen short of their claims, being convinced that no remedy for kidney complaints in existence equals Donn's Kidney Pills for such allments; strenghtened in these convictions by letters that are daily received of the work they are doing for mankind's benefit, old backs and young backs are being constantly freed from never-ceasing aches, and many a lame and shattered one, stopped and contracted, is strengthened, invigorated and infused with new life. With such a medicine an offer of this kind can be made without hesitancy, for while we lose the box we give to you, we make a friend that assists us in the sale of many others.

FULL BOXES

of Doan's Kidney Pills will be given away free to every person suffering with kidney aliments at the undersigned address. First come, first served, and only this one chance offered. Remember this is not a sample box, but a regular size box of Doan's Kidney Pills, which retails at 50 cents. Remember

CORNUCOPIA LOOMS UP

Twenty Stamp Mill Running to Its Fullest Capacity.

THE GREENHORN AND CRACKER

Sumpter Is Building a First-Class Modern Smelter.

Baker City can always be depended on for something new in the mining line nearly every day. The Herald last week had an article on the Cornucopia district part of which we quote:

"The Cornucopia group of gold mines contains what is probably the mrgest ore body in the Pacific Northwest, if not in the United States. In the group, which s the property of the Cornucopia Mines of Oregon, are 29 claims of 30 acres each, making nearly 600 acres of rich gold fields. Only a small part of these claims have been developed, but all of them have been found to be very rich. The developed Jacket, Union-Companion and Whitman,

"At present the Last Chance and the Red Jacket are being worked and sufficient ore is being taken out to keep a 20-stamp mill busy day and night. The mines and mill are under the generalmanagement of Robert N. Jones, who maintains an office in the Lynndale building at Baker City. The efficient foreman of the mill and mines is F. C. Dobler who is one of the most capable men for the work in Oregon. Mr. Dobler will have none but the best men and these he tries to keep by good treatment.

"At present there are so men working on the Last Chance and about the same number on the other mines. The mill is running at its full capacity and employment is given to about 100 men at the camp. This does not include the teamsters. Twenty horses are engaged in hauling ore from the mines to the mill and 30 in hauling concentrates to Baker City, from whence it is shipped to the

MILLIONS IN SIGHT

"It has been estimated that the ore in this group of claims will average \$20 per ton. Professor Robert Kelly stated in an exhaustive report made in 1890 that there was then upwards of \$45,000,000 in sight. The ore is refractory, yet it carries the largest amount of free gold.

The motive power of the mill and mines is electricity generated by a new plant one mile below the village of Cornucopia where the power is water from Pine Creek. The capacity of the plant is 500 horse power. The mill, air compressors and hoists are all operated by electricity The illumination for mill offices and the superintendent's handsome apartments come from the same source. J. H. Hoyt is the efficient electrician in charge of the power plant. Much of the success of the present operations at the Last Chance s due to the management of the mines

oreman, L. A. Kippes. "About three miles north of the village Henry Mantel is operating the Panama mine, which is the property of Louis Blumauer of Portland. Eight men are at work erecting cabins, etc., for a winter

GOOD FIND AT CRACKER. Commissioner Gleason, of Baker County, thinks he has made a good find in pects, says:

"We have discovered what I believe will prove to be a good strike. Of course the claims are now only prospects. There are four of them. They are in the Cracker Creek district, one mile from the North Pole. One 40-inch lead assays \$58.88 to the ton. Another streak goes \$142.51 to the ton. We have opened the property by cuts and sufficient work has been done to show a true fissure vein 1000 feet long. carrying values the entire length. The main ledge is six to twelve feet wide.

Sumpter is to have a big smelter and it is being pushed to completion as fast as men and money can do it. One kiln of 220,000 and another of 300,000 brick are now being burned for it, and the site 's being cleared and graded, six teams and 25 men being employed at the work. The smelter will be located across the river

from the town. The Pine Creek placers, Superinenten lent McCov says, will have 600 feet more flume next spring, and also a large reseroir, greatly increasing the water supply The clean up recently made was so satisfactory that the company will put in two nore giants for next spring's run.

BADGER CONCENTRATES Two carloads of concentrates were shipped to the Tacoma smelter last week from the Badger mine at Susanville. This is the second shipment of concentrates made from this place since they oult shipping by way of Penaleton, and from the present time on, regular shipments will be made from Whitney via Baker City. Superintendent Kennedy, of the Badger, states that the new mill s running steadily and is giving complete

The North Pacific mine in the Greenhorn, is getting in the machinery for a 10-stamp mill. The boiler has already reached Whitney, the terminus of the Sumpter Valley Railroad, and a carload of machinery is expected daily.

THE STOLEN GOODS.

Chief of Police Fuckler, of Tacoma, is in the city to see if any of the goods found in the trunks seized by the police here, were stolen from Tacoma. Frank Marshall, George Carr and their two female companions, all of whom are notorious pickpockets, were arrested in Victoria several days ago. In their possession were found checks for the trunks in storage in a Fourth street warehouse. The checks were sent to the police here, who secured the trunks, and upon opening them found property of every description. The baggage had been shipped here from San Francisco.

New Burglar Policy.

Clemens & O'Bryan are now issting a new and very liberal policy which protects against theft by employes as well as hurgiars. It covers private dwellings and costs but \$10 per year,

possession, was fined \$25 for diorderly conduct yesterday. The case of Gus Ugleford, charged with the larceny of a diamond ring by Mark Schlussel, will have a hearing today.

Mary Reed was fined \$15 for vagrancy. A. C. Danford and G. Sullivan, who are charged with extortion, in charging a boy named Alex Hoberg \$7.50 for a hair cut, will have a hearing today.

THE BANFIELD CASE

Fine Imposed for Blocking Street With Slabs.

Municipal Judge Hogue yesterday delivered his long delayed decision in the case of the Banfield-Veysey Fuel Company. He imposed the lowest fine of \$5. His decision was given at length. He stated that there was no question that the wood was piled on the sidewalk as charged, and that the ordinance under which the case had been tried had been violated. However, the obstruction was in a place where there was but little travel, and no one had been greatly in convenienced thereby. That the wood was there when the defendant purchased the business, and the damage to the sidewalk had been done prior to this time. That up to the time of his arrest he had never been notified to remove the wood, but immediately upon the complaint being made had exercised due haste in removing the obstruction. That the ordinace was one that is intended to protect the public only in cases of actual inconvenience.

AROUND POLICE STATION.

Ernest Allison and R. McGloin, a couple of Albina boys, are under arrest for the crime of larceny. They are charged with setting fire to the O. R. & N pattern shops.

Word has been received at the station that G. W. Roberts, who disappeared last week without any explanations, has been seen near the city. George Forbes is under arrest for at-

tempting to rob the safe of Peters & Roberts on Front street yesterday after-W. C. Cartney is charged with larceny
