# BEAUTY.

## HOW IT CAN BE OBTAINED

How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DEFECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious complexion, its sparkling eyes, its pleasant smile and perfect symmetry. But the crowning glory of the face is a radiant complexion with its lustrous glow, its youthful tinge, and its fine, smooth texture.

But the question is: can such a complexion be attained? In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible?

By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.

This remedy is **Mme. A. Ruppert's Face Bleach**. It is not a cosmetic to cover up, but it also liberally removes once and forever all the discoloredations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin cannot fail to remove every defect. It's a well-known fact that the blood in order to cleanse itself is constantly throwing off its impurities through the pores of the skin; now if the pores are not kept open the impurities of the blood cannot escape, but collect below the surface, and produce all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, SALLOWNESS, ECZEMA, ACNE AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS.

**ACTION OF FACE BLEACH**—Now Face Bleach has this two-fold action; first, it has a magisterial action, which attracts and draws to the surface the impurities which have collected under the skin; and, secondly, a chemical action which removes by scaling off (in the form of a fine dandruff) the surface of the outer, diseased or dead cuticle, leaving the under-skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.

**THOUSANDS BENEFITED**—Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Ruppert's Face Bleach has produced in their skins. Many complexions, covered with pimples, redness and excruciating eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their locks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Premature wrinkles and lines—those inroads of beauty—are quickly effaced, and those middle-aged, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skin—which also marks the ravages of time—becomes firm and smooth after a few applications. Skin troubles which have baffled the most skillful physicians have been removed and cured promptly, and many have expressed, personally and to others, their heartfelt and reverend thanks for this wonderful Face Bleach.

A positive guarantee is given if Face Bleach is used according to the new special directions which are furnished with each order, that it will remove every discoloredation and imperfection from your complexion.

All of Mme. A. Ruppert's world renowned preparations are sold by us at reduced prices.

## NEWS OF THE STATE CAPITAL

### Matters of Interest of and to Salem and Marion County.

**(Journal Special Service.)**  
**SALM, Oct. 5.**—Charles Claggett, a pioneer of 1852, and one of the most highly respected and honorable residents of Marion County, died at his farm four miles north of this city at 8:30 o'clock Sunday morning, after an illness of only a few days, of old age, aged eight days short of 89 years.

Deceased was born in Woodford County, Ky., October 13, 1813, and came to Salem on October 13, 1852. On his arrival here he bought a Donation Land Claim four miles north of Salem, containing 200 acres, and on this land, now one of the most valuable farms in Marion County, he reared his homestead and raised his family. As he prospered he bought additional lands, increasing his holdings to about 800 acres, and this property is in an excellent state of cultivation. Mr. and Mrs. Claggett resided on the farm for a third of a century, raising a family of ten children, of whom only one—W. D. Claggett, of this city, is now living. The funeral is being held this afternoon at the Claggett homestead near this city, and interment will be had in the family cemetery on the farm.

Deceased was one of the most highly respected residents of the county. He was a man of sterling integrity, and his counsel was sought by many of the best people. He was not a member of any religious organization, but was a regular attendant of, and a large contributor to, the Cumberland Presbyterian Church, and for a number of years—strange as it may seem—he was a member of the official governing body of the local congregation of that denomination. In politics he was originally a Democrat, but since the war between the states he affiliated with the Republican party, in the councils of which he always stood high.

### THE MEYERS CASE.

The reply of H. W. Meyers, plaintiff in the case of H. W. Meyers vs. Joseph and M. L. Meyers, for an accounting, has been filed. The plaintiff denies that he was a clerk in the store and reiterates the allegation made in his complaint, that he was a partner in the firm of Joseph Meyers & Son. He denies that he worked for a salary, or that he made erroneous entries in the books of the firm, as alleged by the defendants in their answer, or that he took any money by improper means. The issues of the case are now made up, and it is expected the action will now come to an early trial. The case is attracting great attention here, owing to the prominence of the parties involved. The firm conducts the largest dry goods and clothing store in the city. The suit was brought for the appointment of a receiver, and the winding up of the firm's business, and for an accounting, the plaintiff being the oldest son of the head of the firm and for the past six years the manager of the store.

## DOINGS IN OREGON CITY

### Clackamas County Items and Matters at the Big Falls.

**OREGON CITY, Oct. 5.**—The City Council will decide tonight whether or not it will grant the Oregon Water Power & Railway Company the franchise for which that company has asked. If it passes the first reading tonight, it will probably be granted, for the intense interest which has been given this matter since Wednesday night, when it was laid over until tonight, makes it certain that strong fights are to be made both for and against it. The company already has a franchise over Main street for five years from the present time, being allowed to run only one car at a time twice a day through the town, paying nothing for the privilege. It now asks for a 25-year franchise to run a train of not more than three cars twice a day between the hours of 7 a. m. and 9 p. m. After that hour and 7 a. m. it would run as many cars and as often as it might deem necessary. The right to lay a track on Third street is also asked for, with the privilege of loading and unloading freight on this street west of Main street. For these privileges the company agrees to pay, as a license, \$300 per year the first five years, \$400 per year the second five years, \$500 per year the third five years, and \$600 per year for the remaining ten years; a total of \$12,000. Both the petition and remonstrance which have been presented to the Council have many signers. On the improved portion of Main street there are 47 lots and the owners stand divided as follows: Those in favor of granting the ordinance control 15-3 lots; those against it control 29-3 lots; those who own the remaining ten lots have not been heard from.

Geer and ex-Governor Moody, followed the remains to the Masonic cemetery, where the beautiful ritualistic service of the Masons, of which the deceased was a member, were held. It was a day of mourning for Eugene. Flags were displayed at halfmast, ministers spoke of the dead statesman in their sermons, and the attendance at the funeral was general.

## GRANTS PASS.

**(Journal Special Service.)**  
**GRANTS PASS, Oct. 5.**—Consul H. B. Miller was tendered a reception by the Grants Pass Board of Trade and his old-time friends in this city Saturday night. Consul Miller was one of the original founders of this city, and the meeting the other night was a reflection of the appreciation felt by the citizens here of the good Mr. Miller has done for Josephine County and Southern Oregon. An address of welcome was given by President Coe, of the Board of Trade. Attorney R. G. Smith also made an address, in which he reviewed the early history of Grants Pass and showed the important work done by Mr. Miller in the building up of the town during its early years. A musical program was rendered and the evening's entertainment closed with an banquet. Consul Miller made an interesting address, in which he not only spoke of his work in Josephine County many years ago, but also of his more recent work in the Orient, reviewing the conditions of things as he found them there. ## DEATH OF CAPTAIN CLARK.

Captain J. F. Clark died last Saturday at the residence of Fred Painter in Canemah, after a lingering sickness. Funeral services were held from the house by the Rev. Mr. Bevens, of the Baptist Church, and interment took place at the Canemah Cemetery. In the passing of this man this state loses a man with a war record which is seldom equaled. At the outbreak of the Civil War he joined the Union army and fought with it until its end. He was soon made a sharpshooter, and it was while serving in this capacity that he was struck by at least 15 bullets, his body being covered with scars. His discharge papers show him to have been a soldier of exceptional merit. Since coming to Oregon 13 years ago, he worked for the P. G. E. Co. as a millwright, but of late years has spent most of his time on a ranch on the Molalla River. His hobby was rifles and his judgment concerning them was always respected. His relatives live in the East.
