nanas are plentiful and are selling well. Another advance was made yesterday afternoon at the close on lard. This makes several repeated advances in that line during the past week. The rise this morning amounted to %c per pound. Wheat and Flour .- Wheat locally is inactive. The markets in the East are weaker. Demands are light. Quotations are not altered. Flour is steady at printed prices. No changes in feed. Groceries .- Beans took another upward move this morning on an active market.

Butter, Eggs and Poultry .- Butter still continues strong at present quotations. Cold storage eggs are coming out and are bringing top quotations. Poultry is in large receipt with the market weaker than supply. Turkeys are arriving in a too large quantity and are dragging on the market. Most of the sales reported are below quotations.

Hops .- The hop market is in a very dilapidated condition. Growers, though, are getting a little anxious and a break is expected soon. The dealers argue that if there was any likelihood of quotations going up to a high figure that they would be in a hurry to buy all in sight, but they are not. Hops are selling today from 18 to 21 cents.

It is adapted to dry climates, and will take root and live wherever there is sufficient soll to sprout the seed. One of the most important questions before you farmers is range for the future. When your wheat field gets tired, you rest it, When your meadow runs down, you cultivate it, but your range you never rest nor cultivate. You must begin a new era of farming. You must cultivate your fence corners and plant your worn-out pastures. I am here to help."

MOUNTAIN AND PLAIN PAGEANT

DENVER, Colo., Oct. 7 .- The annual festival of Mountain and Plain opened this; morning with a novel parade of cowboys, in which more than 500 mounted men were in line, to do honor to the great stock raising industry of the West. Later in the day there was inaugurated a broncho busting contest, which promises to be a most interesting affair. The festivities will continue three days and on each day there will be novel features. The principal buildings are beautifully decorated with the carnival colors of yellow and black, and the city is crowded with visitors from all parts of Colo-

A School of Palmistry will be estab lighed in Portland by January 1st, by Professor B. E. Sterling, the noted Every State and Terripscychologist and palmist. Mr. Sterling claims to have over 1600 pupils now on the Pacific Coast, and substantiated this statement by producing a package of letters and showing them to a Journal reporter. He is very enthusiastic and lauds his

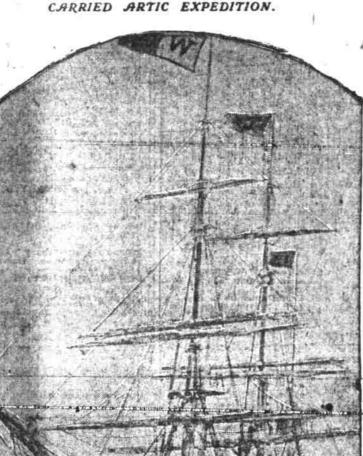

PUBLIC IS EXCLUDED profession as an exact science. Speaking of the school of palmistry which he will establish, he said:

"There is no reason why teachers should not know the intellectual trend of their pupils, why judges should not know the kind of prisoners they deal with and why business men should not know the character of their associates. I will have all of these classes as my pupils so that everyone may know with whom he or she deals. I am going on a lecturing tour now and when I return I will commence work in earnest for this school."

MACON, Ga., Oct. 7 .- Nearly every state and territory of the Union is represented at the Farmers' National Congress, which began its session today in the Academy of Music. George L. Flanders, of Albany, N. Y., is the presiding officer, and John M. Stahl, of Chicago, the secretary of the congress. Owing to the large attendance, of regularly accredited delegates it was found necessary to exclude the general public from today's opening sessions, which were devoted to addresses of welcome and responses and the work of organizing the congress. sons-some 35 feet long.

The saloon men and gamblers are making a united cry against the three.leading clubs of the city where gambling is being carried on between members. One old gambler in discussing the matter, said:

"There is one club located right in the business heart of the city, where more gambling is conducted, than in any regdar gambling house in the city, when they were running wide open. The sums that change hands nightly would surprise you. One man supposed to be wellto-do, who was a member of this club, committed suicide a few years ago over his gambling losses.

THEY ARE SORE. "These licensed restaurants will have to close at the same hour, 1 o'clock, as I have to," remarked a prominent saloon man. "True, they pay a regular saloon license the same as I do, but they have to respect the o'clock closing ordinance. If they don't I will procure warrants for these people myselr and see that mey are prosecuted."

CLEVELAND, Ohio, Oct. 7 .- Enthusiasm seemed to be the dominant note today at the opening of the seventeenth annual convention of the Ohio Woman's Suffrage Association. The association has not nade much progress toward its goal during the last year, it is true, but the members purpose to keep up the fight with increasing vigor. Mrs. Harriet Taylor Upton, of Warren, is the presiding officer of the convention and the star speakers include Mrs. Carrie Chapman Catt, of New York; Rev. Anna Howard Shaw, of Pennsylvania, and the Rev. Olympia Brown, of Wisconsin. The sessions continue through tomorrow.

It looked yesterday as if Patten toward the close was disposed to sell December corn and take back May. Frazier was supposed to be doing the same thing. There was a queer corn experience. A great improvement in weather, yet a strong market a good share of the day. It seems to be the case that the bulls are so confident of higher prices, they

no sooner take profits than they want their own corn back again. Corn holders of Saturday were in the market early to reinstate their lines. That caused the first strength. Later in the day on the swell. Patten and Frazier were large December sellers, but in the last few minutes on the break which their selling caused, they were buying back May.

NEW YORK, Oct. 7 .- The Sun today says: Conservative investors expressed concern over the fact that loans of banks here were now greater than the deposits. Although, of course loans and deposits have hovered near each other for a long time, the determination of the Clearing House Association to insist on the mainttenance of a 25 per cent reserve by all institutions availing themselves of its facilities, despite the permission to adopt a contrary course granted by the Secretary of the Treas ury, was regarded as proof positive that bankers proposed to shut down upon speculative operations. The rate for call

money stiffened, and held between 10 and 12 per cent during the day and even this did not avert another rise in the rate of foreign exchange. The exchange rate fell again before the close, but still rested above the point established on Saturday. It is said the recent strength of foreign exchange market is due to the payment of maturing foreign loans, the borrowers finding difficulty in getting the accommodation on old terms. Commission houses, with hardly an exception, advised customers against the purchase of stocks and urged a reduction of out side commitments. There was present a scarcity of funds for Wall street purposes, and no mitigation of this scarcity worthy the name seemed in sight until well after the first of next

H. H. Northup was elected a member of the executive council to succeed Colonel Hawkins, for a term of three vears. It was decided by the club to hold its

annual picnic next Saturday at Macleay Park. Each member will invite one friend and supply their own lunch. They will also take along a Chinese lantern aplece and trainp it home across the hills to the City Park. In case of rain the picnic will be abandoned and a social gathering will be held in the club rooms Saturday evening.

Professor Harry Fielding, of Johns Hopkins University, the noted student of glaciers, who accompanied the club on one of its outings a few years ago, was elected an honorary member. It is the custom of the club to elect some worthy person an honorary member each year.
