#### HE IS PLEASED WITH OREGON

#### Senator Dodge Doing Good Work in Behalf of Better Roads.

Senator Martin Dodge, the director of the public roads trains of the United States Department of Agriculture, who is conducting the good roads meeting in session here, is very much pleased with the attention given his work by the people. Speaking of his work the past summer, he said:

"For the past two years object lessons in road building have been given by the Department of Agriculture in different parts of the United States. This summer we began our object lessons at Minneap olis; at the Minnesota State Fair, where we spent a week and built an object

There a good roads train was made up by the Northern Pacific which included nine cars of machinery in the outfit, and we started out on our itinerary. "Our second stop was made at St.

Cloud, Minn., and from there we went to

Fargo, and Grand Forks, N. D. "We spent a week at each one of these places and great interest was manifested by the people of those states in our ob-

ject lessons.

CAME TO SEATTLE. "From Grand Forks we came across the mountains to Seattle, from which

place we left to come to Portland. "Because of the long distance of our trip from Grand Forks, and because the rainy season was at hand, it was decided not to bring the good roads train to the Pacific Coast.

"Though we built no object road at Seattle, the greatest interest was shown by the people of Washington, and a permanent state organization was made, the object of which is to promote and direct the building of better roads in that state. "The prime object of our conventions is to get the citizens of the different states to form regular organizations, and to meet and discuss from time to time certain subjects and suggestion- sent out by the department.

IS HIGHLY PLEASED. The Senator declared himself as highly pleased with the enthusiasm and interest shown by the people of Oregon and was much impressed with the possibilities of the state.

"Your great resources," he said, "have just begun to be developed and the peo ple of the East are just now learning of the opportunities of this section. In the coming year you will see a great imm!gration to Oregorf."

### OREGON SCENERY.

How It Impressed a Visitor From the East.

A visitor from the East, enamored o Oregon scenery, said to a Journal repre sentative at the Portland today:

"Coming West on the train this morning I beheld a sight which was worth the price of my tickets to Oregon, 10 times

"Near Maxwell Station in Umatilla County the track winds up the slope of a long ridge and tips over its summit so suddenly that you scarcely note the change. But just at the top of this idge this morning I happened to be look ing west, from the car window. The air was clear and invigorating. The outline of distant objects seemed magnified. In the few seconds that the train remained on top of this sand ridge I saw a moving picture of Oregon scenery which I shall not soon forget. One hundred miles to the west of us I saw the glistening peak of Mount Hood, just a great, dazzling cone above the horizon. Farther east the peaks of Mt. Adame and Mt. St. Helens were shining in the sun. It was a panorama I shall never forget. One hundred miles away, with vistas of undulating plain, wheat field and pasture lands between, those glowing white caps of the Cascades loomed before me, as if they were only a few miles away. People don't appreciate the beauty of your country rightly. Tas scene will go home with me and through life with me.

All about us lay the sage brush and the sand heaps-but yonder in the distance. like a scrap of Paradise, was this glimpse of a dream.

Complaints have been filed by the Of R. & N.
