THE JOURNAL MONK.
The Monk is talking to Mr. Mitchell, though the latter does not show in the picture, and pointing out to him that the interests of the whole people require his acceptance of the offer to arbitrate, made by the mine operators. His advice will no doubt be followed. Journal readers will remember that a few days ago the Monk had a strenuous talk with President Baer, and its good effects are now visible. Baer has yielded to the demands of the people, and it is now up to Mitchell and his side.

We have missed the Monk sadly, and we need him at home, but he has done good work and if the strike is settled will come home covered with glory. He writes us that politics are getting warm in both New York and Pennsylvania, and that this has much to do in arranging the strike settlement.

ORDINANCE DISFIGURED

Materially Changed by Members of Street Committee.

FIXING THE COMPENSATION

Many Sections Rejected by Committee and Will Be Rewritten.

The ordinance granting the Portland Railway Company a franchise to operate a line from Washington street up First street and along other streets, was considerably disfigured by the street committee yesterday afternoon when it was up for consideration. There was a full meeting of the committee, members of the Council, representatives of the company, the remonstrators, and others being present.

The ordinance was taken up by sections. The first section provides for the manner of laying the tracks and the construction of the bridge over the Jefferson street canyon. Under the ordinance it was optional with the company to lay double or single tracks over parts of the route. An agreement was finally reached that a double track should be laid on Twentieth and Spring streets and a single track around the loop. A clause was inserted requiring the company to build a combination bridge of structural iron and wood, not more than 60 and not less than 30 feet in width. It is estimated that the bridge will cost between \$20,000 and \$40,000, and the plans must be approved by the City Engineer.

NO FREIGHT ALLOWED.

Section 2, which provides for connections, was stricken out, and a substitute offered, granting privilege to connect the Washington and Ford street lines and prohibiting the hauling of freight.

Other sections up to section 20 were passed over rapidly, with slight amendments and alterations, some being referred to the City Attorney to rewrite in accordance with the views expressed by members of the committee.

Section 21, which provides that the company enjoy the same rights and privileges as its predecessors, was entirely eliminated, the belief being that it would renew the life of the old franchisees.

A LONG SQUABBLE
