"I believe that the undervaluations in this line have been as great as in any other. Honest importers have been driven out of business, and the domestic manufacturers have suffered greatly. The updervaluations could have been corrected long ago had it not been for the obstruction of customs officers.

Tillamook Stage Held Up and the

purchases, proceeded to move corn in

moderate and the Eastern demand fiftir. as in wheat. The

On Saturday evening, about 9 o'clock, the Tillamook stage was held up by highwaymen, about five miles out of North While the stage was going Yamhill. through a wooded section three masked men stepped out from the timber, and while one held the horses the other two made the passengers line up and relieved them of their valuables. In all the robbers' secured about \$200.

Passengers Robbed.

A bull deal in corn is not as easy an C. F. Levins, of Portland, a brother to James Levins, of the Atlantic Oyster up with building roads between Dunder

strong to Dundee, 12.2 miles; the third was from Woodburn to Scio, 34.9 miles; and the fourth was an extension of 44 miles from Perrydale to Smithfield. An extension from Smithfield to Airlie, 22.4 miles, was pushed the following year and successfully completed by the Port land & Willamette Valley Railroad, the original incorporated name of that portion of the present Southern Pacific system. OREGONIAN RAILWAY CO. In 1882, the Oregonian Railway Company built a road between Scio and

Brownsville, 25.4 mlles; from Roseburg to Riddles, 28.4 miles; and from Brownsville to Coburg, 19.3 miles. This was followed in the next year by 70.3 miles of track being laid on the main line of the Oregon & California Railroad, between Riddles and Grants Pass and in 1884, from Grants Pass to Ashland, 44.7 miles. All of this road is now owned by the Southern Pacific Company.

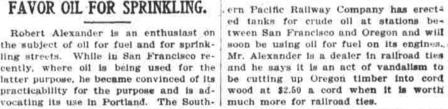

The following three years were taken

A meeting of the building committee of he Lone Fir Monument Association was held yesterday afternoon at 64 Grand avenue. The committee made a contract with D. D. Neer, the architect, for the building of the foundation and other parts of the proposed monument up to the statue. WOODSTOCK The contract as made by the committee

subject to its ratification by the general committee at its meeting next Sunday. According to Mr. Neer's plans and specifications the work will cost about \$1400. Work will be started as soon as the contract is signed.

"I will specify in this connection Walter S. Chance, Supervising Special Agent of the Treasury Department, and Special Agent Williams, located at Paris." Daniel McKeever, of George Borgfeldt & Co., of New York, was asked whether the advance made on his firm's importation at Newport News had any connection with the investigation just completed in Europe by General Appraiser Fischer. He replied that it had not.

Wyoming Cattleman Says Oregon Steers Walk Too Far.

RAILROADS NEEDED

"If I were in the railroad business," said J. H. Vass, a Wyoming sattleman who has been visiting the Oregon cow counties. "I would certainly build several short lines of road in this state. Moreover, if I owned very many head of cattle In such countles as Lake, Klamath and Harney, I belies I would construct a line of track which would connect me with some place. I mean it seriously," said Mr. Voss, as he noticed the scribe looking incredulous. "Some of the cattle-grazing districts in this state are further removed from transportation and a market than are the stock lands of interior Texas. Of course the punchers can drive the cattle to the nearest railroad, but many and many a pound of good beef is lost when you drive a heavy steer over such roads as exist in this state. I came out here with some idea of going into the stock raising business, but after looking the ground over I think Wyoming will satisfy my ambitions until the railroads wake up to the fact that Oregon needs more trackagehundreds, almost thousands, of miles of

NEW YORK, Oct. 20 .- The salling this week of the steamer K. L. Luckenbach, recently completed at Sparrows Point, will mark the inauguration of a new line of freight steamers connecting this port with San Francisco. The new line is controlled by the Luckenbachs, of this city, well known in shipping circles on the Atlantic Coast. The line will give its whole atten- Terrer, 15% @15c.

peration, however, facts are not as easy to get. The weather can make a great difference in the December prospects. The corn crop, even in the years of poorest yield, is so vast it takes but the marketing of the smallest percentage to mean millions."

Railroad Earnings. NEW YORK, Oct. 20 .- The Chronicle

says: October gains in railroad earnings are running at lower percentages than those of September, but however, are large enough to put an excellent condition in traffic. The summary of the statistical year now covers seven-eighths of the roads and includes the anthracite lines. The gross increase is over 10 per cent and the net over 8 per cent. The railroads have taken advantage of largely increased earnings to make liberal appropriations for improvements and betterments, which accounts for the heavy percentage of gain in the expense item. the same feature shown thus far in the present fiscal year is the fact that while gross earnings are increasing and just now are increasing relatively more than heretofodre, the gain is absorbed by expenses to an extent which makes net earnings show small increases in many cases and on the average a decrease. In August, for instance, 77 roads increased their gross earnings something over \$2,-

000.000 and enxpenses rather more than \$4,000,000, causing a decrease in the net of \$1,613,595, or 5.20 per cent. For July and August the gross earnings of 77 roads gained 4.03 per cent, while the net decreased was 3.43 per cent.

New York Summary.

NEW YORK, Oct. 20 .- American stocks in London, 1/4 to 1/4 above parity. Miners' convention meets today to ratify arbitration committee. Three New York banks will get \$5,000,000 additional. Currency this week. Settlement of fuel-question expected, to help steel trade. Export demand for iron in Germany is falling off. Wisconsin Central annual report shows carnings, capacity 3 per cent on preferred. Believed no farther purchases. Reading in market contemplated in connection with control. Uncertainty of status delaying improvements in Northern Pacific and Great Northern. Large appropria-

tions for other purposes will prevent further Treasury purchase of bonds for some time after the present buyinig contemplated is completed. Indications in London point to harder money up to the

BOSTON. Oct. 20 .- The event of the week in local dramatic circles is the appearance at the Tremont Theater fonight actress. Tonight's appearance marks the beginning of what the actress announces

as her farewell American tour. She will appear in some of her old successes, and in "La Giaconda." "Citta Morta," and "Francesca 'da Rimini."

1 6

House, on Third street, was robbed of \$100. O. H. Davenport and Oscar French, killed several years ago while engaged in coin Station to Portland, 0.4 miles. holding up a street car near Tacoma.

THE SUNSHINE OF PROSPERITY

Reports from every section of Oregon indicate that general prosperity is the lot of the inland counties. Wheat 55 cents, as against 43 last fall; hay and other feed higher in proportion; fruit in demand and in abandance; calves higher in price than for years; wool going and gone and the money in the banks; labor scarce; mising industries booming in the usual manner: Grand Rande river gold dust wosth \$17.95 an ounce in the money market; the beet crop excellent, the yield of sugar higher than ever in the history of the industry in Oregon: in Southern Oregon old orchards being renovated and new ones planted: placer mines giving good returns; old diggings yielding surprises every "clean up;" wheat crop good everywhere: settlers coming in on every train bringing money, nerve and push into the country. Truly, the sunshine of prosperity is shining for Oregon.

CONVENTION OF BAPTISTS.

visitors from all parts of the state are gathering in this city for the convention of the Missouri Haptist General Association. The sessions will continue several days. The denominational work of the past year will be reviewed and plans for the coming year will be laid for the church and missionary work. Particular the convention's work will be to examine the records of the denominational schools. of which there are a large number in Missouri.

WORK PROGRESSING RAPIDLY

The Southern Pacific Rallway Company is pushing the work of relaying its tracks on Fourth street as rapidly as conditions will permit without interfering too much with traffic. The work has been entirely completed to a point south of Stark street and the pavement relaid a little beyond Washington street. It will be but a short time until the work has been completed beyond the business section. The work of paving was continued yesterday and of Eleanora Duse, the eminent Italian many were the people who watched the progress of the work and offered freely of their advice. Where the work has been completed the street is in much better condition than it was before. The muchtalked of groove is still agitating teamsters.

Sec. 4

Willamette Valley Railroad began work two Tillamook men, lost \$100 between on the second road between Dundee and them. This is the first robbery of this Elk Rock, a distance of 22.8 miles; in the kind, on the line, since the days of Dick following year from Elk Rock to Lincoln Case and the Wood gang. Case was station, 5.3 miles; and in 1888 from Lin-

> MADE STANDARD GUAGE Up to this time there was no thought of

improving the lines already in operation, but the years 1890, 1891 and 1893 were the initial years for both improvements and new roads.

The roads from Woodburn to Coburg in 1890; and from Coburg to Natron, in 1891 a total of 92 miles, were taken up. and the narrow guage preplaced with standard guage ratis. In 1893 *** road from Portland to Airlie and Sheridan, a distance of 86 miles underwent a similar change.

From 1893 until 1900 there were no roads built by the Southern Pacific Company; nor were there any temporary improvements made. But in the latter year the company built a new line between Mohawk Junction to Wendling, a distance of 16 miles.

At present it is understood there is but one road contemplated on the lines of the Southern Pacific, and that is from Henderson to Springfield, where a bridge will be built on which the company proposes to build a road. The distance across the Willamette at that point is probably about one and one-half-miles. D. N. M.

American Royal Cattle and Swine Show, to be held in this city this week, has attracted thousands of breeders and lovers of pure-bred cattle from all sections of attention will be given to the raising of the West and Southwest. This year there funds for the support of missionaries that is an added feature which makes the will be sent to the destitute places in show of double interest to the rangemen the state. Another important part of and ranchmen-a competition of car load lots of fat and feeding cattle. The competition includes both pure-bred and grade steers and helfers. Each of the four breeds participating in the show-the

Herefords, Shorthorns, Galloways and Angus-has a contest of this kind, and then there is a contest of the prize-winners of all the breeds. Upwards of \$20,000 in prizes has been hung up by the four breeds for breeding and feeding cattle. The exhibits already on the grounds include nearly 100 car-load lots, besides 2000 pure-bred breeding animals and 1500 registered Poland-China, Berkshire and Durot-Jersey hogs.

GRAND LODGE MEETS.

SANTA FE, N. M., Oct. 20 .- The Masonic Grand Lodge of New Mexico began its annual meeting here today with a large fittendance. Many of the visitors are accompanied by their wives and famfiles and elaborate entertainment has been provided by the local Masonic bodies."

How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DE-FECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry. But the crowning glory of the face is a radiant complexion with its lively glow, its youthful

its sparkling eye, its pleasant smile and perfect symmetry. But the crowning glory of the face is a radiant complexion with its lively glow, its youthful finge, and its fine, smooth texture. But the question is can such a complexion be attained? In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible? By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results. This remedy is Mme. A. Ruppert's Face Bleach. WHAT FACE HLEACH IS.—Face Bleach is not a cosmetic to cover up, but it abso-lutely removes once and forever all the discolorations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its actions on the skin cannot fail to remove every defect. It's a well-known fact that the blood in order to cleanse itself is constantly throwing off its impurities through the pores of the skin ; new if the spores are not kept open, the impurities of the blood cannot escape, but collect below the sur-face, and produpe all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, SALLOW-NESS, ECZEMA, AONS AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS. ACTION OF FACE BLEACH.—Now Face Bleach has this two-fold action ; first, it has a magnetical action, which attracts and draws to the surface the impurities which harved form of a fine dandruff) the surface of the outer, diseased or deed cuticle, leaving the under skin —beautiful, youthful-boking and delicately time by nature—clear, smooth and perfect. This method is perfectly harmines to the most action which is the asmooth and perfect. This method is perfectly harmines to the most action when the environ by scaling off (if the form of a fine dandruff) the surface of the outer, diseased or deed c

and nature, the two factors which we must adhere to and follow if we wish to permanenily im-prove our personal appearance. THOUSANDS BENEFITED. — Thousands of pairons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Ruppert's Face Bleach has preduced in their skins. Many complexions, covered with pimples, reckles and eczematous eruptions (itching, burning and annoying) have been chauged to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this won-derful remedy. Premature winkles and lines—those inroads of beauty—are quickly effaced, and those muddy, disfiguring, sallow, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skins—which also mark the rwages of time—become firm and smooth after a few applications. Skin troubles which have baffied the most skilful phy-sicians have been removed and curved promptly, and many have expressed, personally and by letter, their heartifelt and probundest thanks for this wonderful Face Bleach. A positive guarantee is given if Face Bleach is used according to the new special directions which are furnished with each order, that is will remove every discoloration and impute.

m your complexion. All of Mme. A. Ruppert's world renowned preparations are sold by us at reduced prices.
