REPRESENTS JAPANESE Yoichi Nawa, Commercial Agent, Speaks on Trade. Yoichi Nawa, commercial reporter from the Department of Commerce and Agriculture of the Japanese Government, was in the city yesterday in connection with duties connected with his office. Mr. Nawa has been in this country for the past five years and will probably stay here another year. He has been in the principal cities of the United States, but has made San Francisco his headquarters. He is now compiling a report to his government regarding the tea trade. Being questioned as to the extent of the tea trade between Japan and the United States, Mr. Nawa said: "The Japanese tea trade with the United States is almost killed because of the war tax. When the war tax will be revoked it will no doubt increase. You see the Japanese tea is high-priced and scarce, but there is much China tea, because this plant has been over-produced in that country. This year the frost killed the Japanese tea crop and as no match was raised anywhere, the price is very high. We had a very fine trade with this country in tea until this year. The Japanese will not raise much tea next season either, so there is no hope of prices on tea dropping in the near future."

DR. ZAN ACQUITTED.

DR. ZAN ACQUITTED. Council Committee Says He Is Not Guilty of Extravagance. B. D. Sigler, B. P. Cardwell and H. R. Albion, comprising the committee on health and police of the Common Council, held a meeting yesterday afternoon and took up the matter of the expenses of the City Physician's office. Dr. Zan was present with his bills and made a statement to the committee concerning the conduct of his office which convinced them the charges of extravagance against him could not be sustained. That the office is expensive is admitted, but that most of the expense is not directly chargeable to the doctor's office. The most of the increased expense, it is claimed, is due to attaching the Health Commissioner to the City Physician's office. Another source of increased expense was occasioned by the large number of nurses needed to attend smallpox cases of which there were a large number during the early part of the year. The committee will report to the Mayor and the Board of Health recommending that the Assistant City Physician and several nurses be dispensed with by the Board of Health. The committee claims that when the whole matter was sifted to the bottom no charge of extravagance against Dr. Zan could be sustained.

TRIED AND FOUND GUILTY.

A Novel Experience Comes to George Chamberlain the District Attorney. District Attorney Chamberlain knows now how it is himself to be put on trial and tried by a jury for misnomers. He who has been ever vigilant in the prosecution of violators of the statutes in and for the commonwealth of Oregon had the tables turned on him Saturday very unexpectedly. He was tried, found guilty and sentenced to the penitentiary for a term of six months. He was charged with having, with malicious intent, endeavored to convict every person whom he thought guilty of a crime with which he was charged. The prosecution put up such a strong case against him that he pleaded guilty without putting up any defense and was sentenced by the jury before whom he was tried to 30 months imprisonment and to pay a fine of \$2000.

The balloting for the most popular conductor continues to be an exciting contest at the Cathedral Fair. The last count of the polls shows the following results. The patronage extended to the business men's lunch has been very gratifying to the ladies in charge, and will doubtless continue until next Thursday night, when the fair closes. The musical entertainment tonight will include selections by Professor Weber's Mandolin and String Club, and solos by Messrs. Epping and Hennessy.
