## **ADVANCE** ON LIMAS

Beans Go Up a Quarter Cent This Morning.

## HUCKLEBERRIES

Receipts of Fresh Eggs Are More Liberal Today --- The Quotations.

The scarcity of beans has again sent quotations on that line upward. Dealers were notified today of an advance of onefourth cent on limas. There is a probability that white and colored will also receive an advanced quotation.

Business was good on the street all day. But there is a decided scarcity of supply in most of the lines.

GOOD DEMAND FOR HENS. Although receipts in the poultry market were fair today, there is still a certain atiffness of quotations on hens. Poultry of all kinds are selling well and there is a market for a great many more coops than are received. Turkeys are not in such large receipt as they have been for the past few weeks and the market is bare. The demand for good fat turkeys is active and they are selling at prices above quotations.

FRESH EGGS LIVELIER. Receipts of fresh eggs are somewhat better today, although the supply still falls many thousand cases below the demand. Strictly fresh stock cannot be purchased for less than 274@28c a dozen. Eastern and cold storage variety still

stand at the same quotations. Receipts of fruit are liberal and sales are many. The market is especially wellstocked with bananas, apples, grapes and peaches. Quotations are not altered.

PACKED MEATS FIRM. The packed meat market is firm at yesterday's advanced quotations. Supplies are short in all lines, and dealers are able to obtain top figures without

## SHORTAGE OF WATER

Waitsburg Council Wrestles With a Difficult Problem.

(Journal Special Service )

WAITSBURG, Wash, Oct. 21.-Great local interest is taken in the water ques tion here. The city suffers greatly from a shortage of water in the summer season and recently the city has made an effort to supply the needs by boring a well. A distance of 265 feet was reached and the flow of water was such that it became difficult to proscute the work One well does not furnish a supply sufficient for the entire city and now the city officers are deliberating whether to abandon the movement or sink a new shafts There is apposition to the second course as more than \$1000 has already been spent on the well.

Waitsburg has long been living in the face of a water shortage. \ For severa years during the summer a steam pump has been employed to keen the reservoir above the city filled. This water is taken from the Touchet river, which acts as a sewer for Dayton, ten miles above, and i is not considered wholesome. During the winter there is enough water from the springs to furnish all required for house hold purposes. It took three weeks to bore the well recently sunk. Water was struck a short distance down, but midway had disappeared altogether.

## WHEAT IS SELLING

Farmers Are Letting Go Under the Pressure of High Prices.

(Journal Special Service.) WAITSBURG, Wash, Oct. 21.-Although the present price is very tempt ing and farmers are beginning to release their holdings, under the pressure of the market, there is more wheat in the hands of the producer in the vicinity of this city than elsewhere in the Inland Empire. The harvest was later here than lower down in the valley and by the time the farmers begun to get their wheat in shape to sell the market had begun its upward climb. Wisely the growers held and now they are realizing the results of

Through the courtesy of F. A. Walpole, an artist in the employ of the United States Department of Agriculture, 100 water color drawings of Oregon plants were placed on public exhibition this afternoon in the east room of the Art Association in the Library building." Mr. Walpole has been encaged during

the past summer in making drawings in

water color of the flora in Klamath and Curry Countles, and the results of his labors are startlingly realistic. It is somewhat difficult to make interesting pictures of bulrushes and various grasses. but by the excellence of Mr. Walpole's work his paintings will interest the general public in addition to botanists and students of agriculture. The exhibition opened this afternoon at 2 p. m. and the paintings will be on view every afternoon of this week between 2 and 5 o'clock, also on Saturday evening from 7:30 to 9:30 and on Sunday afternoon from 2 to 5.

## ARMOUR IS SELLING

His Big Line of Corn---Oats Predicted to Bring Good Money.

Furnished frem Special Wires to Bolton, de Ruyter & Co., 102 Third Street.

CHICAGO, Oct. 21 .- The Record-Herald

"There has been a decided quieting down in corn. Armour continues to move the corn away and sold 200,000 bushels the cash price and they were anywhere from 1 to 21/2 cents lower yesterday. The spring demand is called poorer and the Western purchases larger. The corn pit however, does not believe the maneuver in December is by any means over. December is so far off, however, bull energy is not to be expected all the time. The Burtlett Frazier people still have their line of May.

Oats appear to be in good disfavor with most of the speculators, says W. O. Elmore, but my people report a much better demand East, and I am buying oats on their odds every day. We are taking clinned. It is wonderful how the trade is making away with a crop that is of such poor quality. I believe before the season is over some time next year good

'Our people,' said President W. S 'have not begun to buy corn through Kansas yet. We have advices from Northwestern Kansas today that there will be no cribbing begun for three weeks. From lown there comes the news that the rains of last Friday were as heavy as any of the season, that much of the corn is down in the mud and that promise of good quality of corn from that marker is poor.

There was some evidence vesterday that Armour, who has heretofore had the December wheat sold and the May bought was changing the spreak back. One set of Armour houses bought December and other sold May. The effect was to and to narrow up the way premium over one time Saturday and 1% cents at the close last week. The recollection of September is so fresh it would take only a few more like yesterday by Armour to put December wheat to a premium and there are those who believe some sort of turn will be made to advance December temporarily, for scalping purposes,

Bears Threaten Attack.

NEW YORK, Oct. 21.-Traders are inclined to disregard underlying facts and to bank on superficial conditions. They are temporarily bearish and a renewal of attack on the general market is threatened. A desultory speculation within narrow limits may be looked for. Hold Steels, Denvers and average long Pacifics point decline. There is good absorption of C. & O. and O. & W. The three biggest buyers here, and they are known as the "Big Three," each representing large Sound concerns, are busy as bees. Competition is sharp between them. They practically make Pendleton their home during the stock-buying season, and in spite of the fact that each is trying to catch the other napping, they have become been companions, when off of duty, and perpetrate many jokes upon one another. The inspectors held that the steamboat men were guilty of violating the law by not blowing the fog whistle, or having a man on lookout.

## OLD FORM GOES

General Conference of Orthodox Quakers at Last Session.

INDIANAPOLIS, Oct. 21 .- The general conference of Orthodox Quakers, which began in this city today, marks an epoch in the history of the famous sect. It marks the passing away of the old form of control of the denomination and the birth of a new religious body having a central authority and combined agencies for work. In other words, the members of the church have come to a full recognffion of the fact that new methods of a progressive sort are absolutely necessary if the denomination is to retain its influence and membership. In future the church affairs will be managed along the lines employed by the Methodists, Presbyterians and other denominations. Instead of the customary yearly meetings there will be a general national conference once in five years to deal with all the affairs of the church. It is probable that the conference will adopt a declaration of faith. A new catechism is contemplated and arrangements will be made, it is understood, for the establishing of a publishing house. THE CHICAGO DAILY NEWS

Nothing is omitted which concerns the interests of buyers and sellers in the live stock, grain, provisions, produce and financial markets-the quotations are comprehensive, and

possess the all-important quality of absolute reliability. In addition to its complete and truthful record of the world's news every day, including its own great and exclusive special cable service from all countries, THE CHICAGO DAILY NEWS presents an array of bright and entertaining special features entirely exceptional and unique in American journalism. Its woman's page, including a department of questions and answers by Marion Harland; its illustrated sporting news department; its daily page of original, up-todate humorous pictures; "The Evening Story," complete in each issue; the inimitable "Bowser" sketches, and a variety of other good things-serious and light-give THE CHICAGO DAILY NEWS a character and standing quite its own as an

American family newspaper. The sworn paid circulation of THE CHICAGO Daily News -over 800,000 a day-exceeds any other similarly attested daily newspaper circulation, morning or evening, in America.
