

Blind In One Eye

And never knew it until he had his eyes tested. Such is the case with a good many cases we have come in contact with. Strange as it may seem, if such persons had proper attention, and in time that eye might have been saved. Consult our optician. Perhaps you may have trouble that can be helped, if you take it in time. Outlast prescriptions filled for glasses.

WILLAMETTE IRON & STEEL WORKS**CONVENTION COMING**

Christian Church May Meet in Portland in 1905.

Dr. J. F. Ghormley of the Christian Church, who has been attending the Omaha convention of his co-religionists, preached last evening on "Portland and the 1905 Convention."

The reverend gentleman stated that a strong effort was being made to bring the convention for 1905 to Portland. Next year the general session of the church will be held in an eastern state, while St. Louis will be the meeting place in 1904. The delegations from all western states, therefore, worked unitedly to bring the convention across the Rockies in 1905, without naming any particular city at this time. A resolution to this effect was finally carried after meeting with vigorous opposition from the Southeastern delegations. It is considered probable that Portland will ultimately be designated as the convention city on account of the Lewis and Clark Fair being held here at that time. Dr. Ghormley stated that the Omaha convention was one of the most successful and the largest in the history of the church, nearly 10,000 being present. The hotel accommodations at Omaha were ample and reasonable in price.

BRIDGES ALL BUILT.

THE DALLIES, Oct. 27.—Persons coming up the river from Lyle, Wash., report that all the bridges on the Columbia Northern, are built as far as Swale Canyon, and that the road is in every way prepared for the rails to that point, which is about 25 miles from Lyle.

The first load of rails for the new road was brought up by the Regular line, Friday evening, and the work of putting them in place will begin immediately.

STRIKE LIKELY

Great Northern Telegraphers to Go Out.

WAGES ARE TOO LOW

Demand Pay to Be Equal to That Paid by the N. P.—May Tie Up Traffic.

Telegraphers along the whole system of the Great Northern Railroad have made demands for an increase in wages, and although the demand has been in the hands of the railway officials over a month, no attention has as yet been paid to it. Samuel Winter, of Spokane, general chairman of the Order of Railway Telegraphers, with jurisdiction extending over the entire road, is waiting with more or less patience for some sort of a reply. Operators say that if the company does not comply with the demands there will be a strike that will tie up the road from St. Paul to the Pacific Coast.

Mr. Winter was lately train dispatcher in Spokane for the Great Northern, but was discharged about a month ago. It is declared by union men that his discharge was due to the interest he was taking in the Order of Railway Telegraphers. They sympathize with him, and his discharge has intensified feeling.

MR. WINTER SPEAKS.
Mr. Winter says:
"We are hopeful that our communications will receive favorable consideration at the hands of the company. The road recognizes the trainmen's union, and there seems to be no reason why it should refuse to deal with our organization, which numbers about 85 per cent of all the operators on the system."

UNION MEN BECOME UNEASY.
Considerable worry and anxiety is evident among the men, although Mr. Winter speaks with apparent confidence. The feeling is intensified by a report from St. Paul that the Great Northern has been advertising for operators, with the supposed purpose of replacing the present men in case of a strike.

WANT PAY EQUAL TO THAT OF THE N. P.

Asked as to what the demands of the telegraphers are, Mr. Winter said:

"We want Great Northern telegraphers to receive the same pay as the Northern Pacific men. At present Great Northern operators in relay stations like Spokane receive from \$25 to \$35, which is paid managers. At the same time the Northern Pacific pays from \$30 to \$35 for the same service, and has announced an increase of \$5 a month after November 1. On the Cascade division of the Great Northern country operators are now drawing only \$25, and in the mountain country \$30. The road 'voluntarily' raised wages \$5 on September 1, but the 'voluntary' raise was announced by wire. It is not enough."

30-INCH DREDGE

Auxiliary Machinery Furnished by Oakland Iron Works.

Besides the main engine and boilers, most of the other machinery for the new 30-inch dredge of the Port of Portland was built by the Oakland Iron Works of Oakland, Cal. All the machinery was installed on the dredge by C. S. Booth, president of the Oakland Iron Works.

Among the machinery furnished by this company is the cutter engine, which is of the horizontal, double-tandem, compound type, with an 8-inch cylinder at high pressure and a 16-inch cylinder at low pressure, and a stroke of 32 inches; two sets of winding engines of horizontal type, with two cylinders 16 inches in diameter and a 10-inch stroke; the main cutter shaft, made of forged steel about 10 inches in diameter; two cutter heads which are placed on the end of the shaft; the suction and discharge pipe—this is the largest pipe of its kind manufactured in the United States; sets of winding and hoisting machinery, each set has four drums; one air pump—vertical with two single-acting cylinders, each 30 inches in diameter with 18-inch stroke driven by a cross-compound engine with cylinders suitable to operate the pump.

Besides the above this company furnished one large clay knife of plow steel, fitted to cutter scrape; all the crucible steel wire ropes, hill clutch pulleys, shifting levers and quadrants; steam condenser for main engine; two feed water heaters; one centrifugal circulating pump; 4 large water tanks of steel; boiler feed pumps and injectors; one hotwell of 600 gallons capacity; one dock pump, electric light plant complete, with two arc lights and a search light; a dynamo which can operate all the lamps and the earlight, a fire service, etc.

All of the above machinery was tested and shown to be in good working order.

MUST PAY THE PENALTY.

GRANTS PASS, Oct. 27.—Song Oak, the Chinaman who murdered a fellow countryman some months ago at Happy Camp, Cal., and escaped across the line into Josephine County, where he was captured, has been found guilty of another murder in the first degree, and is sentenced to be hanged. The second crime occurred sometime before the first. The victim was hacked to pieces with a butcher knife.

Passenger train No. 12, which left Grants Pass at 5:35 a. m., on its way north, met with an accident while going down the grade near Tunnel 2.

The train was going at a high rate of speed when the axle of the engine broke, letting loose the driving rods.

Instantly the locomotive disabled itself. The accident delayed the regular south-bound passenger train two hours.

E. A. Allen, of San Francisco, and a representative of the San Francisco News Bureau, was in Grants Pass Wednesday on business.

The Colonial Lodging House, a two-story brick structure, which was destroyed by fire last summer, is being rebuilt.

WILL IT BE BOOTH

Is the Question of the Day.

SENATE PRESIDENCY

A Topic of Debate Among the Politicians—Dr. Smith Doesn't Withdraw.

The latest development in the Mitchell-Fulton combination—Senator A. A. Booth of Lane County, for the presidency of the Oregon Senate.

This was the story that was handed around today by the politicians and it caused much interest. The tale is to the effect that the endorsement of Brownell of Clackamas for the presidency was only to placate that gentleman, and that the real intention of the heads of the Mitchell-Fulton combine is to elect the Lane County man to preside over the upper state house.

As a corollary to the Booth story, it was bruited about that Dr. Andrew C. Smith of Portland, who has been accounted a strong candidate for the Senate presidency, is going to withdraw and leave the others to fight it out among themselves. Indeed, that his withdrawal and the endorsement of Booth by the Republican pool-halls, almost "clinched" the matter for Booth.

This story Dr. Smith stamps as absolutely false, saying to The Journal today, without the slightest trace of hesitancy: "I wish to say that I have not withdrawn from the race and under no conditions will I withdraw in the future. This is my decision."

"I have not heard of the report, and shall pay no attention to it except to deny it emphatically."

MR. MITCHELL ASSENTS.
Now that Senator Mitchell has left Oregon to journey to the National Capital, the local politicians will be busy striving to regain some of the strength that fled like hoar frost before the sun's rays when the czar of all the Oregonians returned from Washington a few months ago, and took firm hold of the state situation.

Mr. Mitchell has been decidedly the disposing power during his stay in Portland, and there was little going on in Republican circles that did not take high color from his utterances.

Mr. Matthews, as chairman of the state committee, so some assert, will hold the reins of power, and control the forces of the Chamber of Commerce and the Astoria Progressive Commercial Association. It is nicely printed on heavy enameled paper, is replete with useful information and is handsomely illustrated.

The booklet commences by devoting a few pages to "Historic Astoria," after which follows "The Lewis and Clark Centennial," and "Astoria of Today." Astoria's water system and schools are given a nice send-off, after which quite a few pages are given up to a description of the lumbering industry, mills and manufacturing, the salmon and dairy industries.

The booklet finishes with an exhaustive description of Astoria's commerce, jetty and harbor and health and climate. As a whole it reflects great credit on both its issuers and printers.

CHLOROFORM AND ETHER.
A writer in the Lancet reports on the administration of chloroform in 42,923 cases, with 83 fatalities, or one in 1,200, and on 37,277 ether cases, with only four deaths, or one in 9,318.

MELANGE OF SPORT

The Football Games of the Country.

SOME HARD BATTLES

Running Record Broken—Memphis Fired From Association—Other Items.

The eleven of the Hill Academy, and the team of the Portland Academy met on Saturday on the baseball grounds, in a football contest. When the battle ended, the score stood 32 to 0 against the team from the school of soldiering.

TOOTH PLUGGERS WIN.
The Columbia College team was defeated Saturday by the Dental students by a score of 17 to 0. The game was a good one, but the Academy boys had no chance against the young dentists.

MEDICOS AND GROVERS TIE.
FOREST GROVE, Oct. 27.—The young doctors from Portland and the eleven of the University of Oregon met in a tie game on the campus here Saturday. The contest was one of the fastest ever witnessed in the history of the college. The medical students were out to play winning ball, likewise the home team. A number of players were injured.

WILLAMETTE WAS BUSY.
SALEM, Oct. 27.—Albany college football players on Saturday defeated the Willamette University team by a score of 27 to 0. The home team could not keep up its lines and was woefully short on other essentials. Snyder and Coates of Albany were both injured.

OREGON AND WASHINGTON.
SEATTLE, Oct. 27.—The Oregon Farmers went down to defeat before the University of Washington by a score of 16 to 6 on Saturday. The Agricultural College eleven was a little slow and were not there with the resistance when it came to withstanding the heavy rushes of their opponents. In the first half the team made a good showing, but in the second they were listless.

MINNIVILLE DEFEATS CORVALLIS.
MINNIVILLE, Oct. 27.—The second eleven of the Agricultural College of Corvallis were defeated on Saturday by the local team by a score of 5 to 0. The eleven of the visitors was not in good form. Some of the players were crippled and not fit to be on the gridiron.

SAIORS PLAY FOOTBALL.
The sailors from the ship *Porpoise* and two eleven from the Portland football club played two games on the Bishop Scott Academy grounds yesterday. The Portland's won by a score of 2 to 0.

TACOMA SHOOTING.
Fred Waite of Pendleton was at the Portland Hotel over Sunday, en route home from Tacoma, where he won the championship of the State of Washington in the shooting tournament. Mr. Waite won the championship event, taking first money, although he could not take the trophy, which must go to a shooter residing in the State of Washington.

W. F. Sherrard, of Tacoma, secured the trophy, being second to Mr. Waite in the championship event.

Out of a list of 40 shooters, Mr. Waite was fourth on general averages for the entire tournament, the record being: Sherrard first, with 321 out of a possible 375; Ellis of Seattle second, with 313; Tom Ware of Spokane third, with 310; and Waite fourth, with 308.

Waite won three firsts in addition. It was regarded by the shooters as the hardest shot tournament ever held in the Northwest. The heavy fog that prevailed made the work difficult in the extreme, and made the records for totals out of possibilities lower than they otherwise would have been.

CONFEDERATES CAMP
They Are Gathering Today at Columbus, Ga.

COLUMBUS, Ga., Oct. 27.—A host of visitors is swooping down upon this city and will retain possession for the next three or four days. They are the members of the United Confederate Veterans, whose annual divisional encampment will be formally opened tomorrow. Judging from the large advance guard the number of visitors will be fully up to the encampment of former years and from all indications every section of the state will be represented. Complete arrangements have been made by the local societies for the reception and entertainment of the many visitors.

HO YOW WAS HERE
Chinese Consul-General at San Francisco Pays a Visit.

Ho Yow, Chinese Consul-General at San Francisco, spent yesterday with his countrymen residing at Portland. His visit was of no special significance, his coming being only for a little recreation. He returned to San Francisco last night. November 15 he will leave San Francisco for China. He will be accompanied by some business men of California and on their arrival at China the America-China Commercial Trading Company will be organized.

Mr. Yow is an accomplished gentleman and well educated. He is a graduate of the University of Pekin, barrister from Lincoln's Inn, England, and a lawyer from the Hsinghai College of Law, University of China.
