## FEW HOPS SELLING

## Dealers Not Anxious to Purchase at Quotations

## GERMAN IS MOVING

Car of Eastern Eggs Received Today---Advance on Quotations.

Hops are somewhat weaker today. Dealers are in no hurry to purchase, and what sales are being made are below present quotations. The Oregon hop mar-ket was spolled by the early maturing of the German crop. The Germans do not keep their crop any longer than it takes to pick, dry and get quotations. They very seldom wait for a market to rise. Quite a great many sales of German hops are being made in this country. One Sound brewing firm purchased a big supply, saying that they are preferred to the home goods on account of their strength. Quotations are not changed today.

EASTERN EGGS COME. The local market was stocked up this morning by the receipt of a full car of Eastern eggs. All grades are moving very well and the local supply is getting scarcer each day. Some slight changes may be noticed in egg quotations today. TANK OIL SCARCE.

The Standard Oil Company has again notified jobbers that they are still unable to supply the demand for oil in bulk. There has been some trouble in the delivery of the tanks. Cause oil is not af-

GRAIN MARKET STEADY.

The grain market is steady, with the advanced quotations of yesterday. The yesterday. The European market is

steady at quotations. No changes appear in the Eastern packed most quotations today. The ad-vance on lard yesterday is likely to be one of the last that the combine can

RECEIPTS GENERALLY QUIET. The receipts in all lines of the local market are very light and Front street presents a quiet appearance. Mes especially are in small receipt and stiffening of present quotations may be

Butter quotations are advanced a trifle today on all lines. The best creamery is now quoted at 30@324c a pound. Today's quotations, as revised, are as follows:

## OVER THE WIRES.

It is claimed that in St. Petersburg thousands are dying from measles in Kamchatka Peninsula. L. L. Hazen, a prominent farmer of

Wichita, Kan., committed suicide yesterday. He was insane. Pittsburg morning papers announce that a mine combination is projected

there with a capital of \$110,000,000. Tabbey, chief of the Uintah Utes, and one of the best known Indians in America, died yesterday. He was 104 years old. From Rome comes the rumor that Bishop John Spalding may be given the Chicago Diocese or the Roman Catholic Church

At Little Rock, Ark., yesterday evenening a fire resulted in a loss of \$100,000 to the Forest Hardwood Manuacturing

... LaPorte, Tex., a prairie\*fire caught in cotton on a flat car of a passing freight train and .ne entire .. ain was consumed. Governor Yates, who was reported yes

terday as being ill from exhaustion fol-lowing a hard political campaign, has typhoid fever. Eleven representatives of the English Workingmen's Union left Liverpool yes-

terday, bound for this country to study conditions here. New York bankers were yesterday approached with a proposition to furnish gold for the placing of mexico on a gold

standard basis. The unclaimed body of Bonnia Hoyt, a Boston actress, lies in Chicago where she died yesterday from perit miris. Her rel-atives cannot be found

Mrs. U. Valley was declared not guitty of the crime of murder at Fair Play, Col., yesierday. bue had been charged with killing her nusband.

At a dinner given last evening at the Waldorf-astoria in ..ew lork a large number of prominent men were guests of the Crown Prince of Slam. The reading of the address from the

Bulgarian throne yesterday at Spiia brought about the declaration that the Czar was friendly to that country. The case of Admiral Dewey against the United States Government for the sum

of \$500,.00 in prize money, is being heard in the United States Supreme Court at Washington. An immense fleet of lake steamers are

to be built at a cost of over \$10,000,000 to carry the iron ore through to the works of the United Claus Steel Corporation at Pittsburg.

Mail advices received at Washington from the hospital department at Manua tell of the awful death rate resulting from the recent cholera plague. Fully & per cent of those attacked d'ed. In the Molineux case, in New York yes

terday, handwriting experts continued to give testimony damaging to the prisoner. It is believed to be fully established that Molineux wrote the incrimina..ng let-Indications now are that the cable be

ng laid between Canasa ans Australia will be completed on next Saturday. The American end of the line is on Vancouver Island off the mouth of Puget Vanhazendoct, the man who was ar

rested as being the robber of the Northern Pacific passenger train in montana, was released last evening because the members of the train crew failed to identify him. The latest report from the Postoffice Department at Washington, D. C., is

at an competition between the money order and the registry department will cease and the two will work hand in hand in future. At the session of the North American

Board of Health in New Haven, Conn., yesterday it was declared that steps taken to prevent the spread of contagt ous diseases at the port of San Francisco were inadequate,

The striking students of the Michigan Agricultural College have not yet returned to their studies. They have re-fused to enter class because several of their number who participated in a class rush were expelled by the faculty.

At Valparaiso, Ind., yesterday after noon Miss Stella J. Teller, cousin of Sen-ator Teller, was granted liberty from the insane asylum at the end of a close race. The young woman had been an inmate of a hospital for the insane, but escaped. Bringing suit against the person who caused her detention she revealed her whereabouts and a doctor from the asylum came to take ner back. He had her on the train when her attorney discovered her plight. He got a writ of habeas cornus and after a dash of half a mile at breakneck speed he served the papers and kept the woman.

## NEWS OF AND FOR MARINERS

The Goings and Comings of Those Who Plow the Mighty Deep.

The mud ballast on the British ship County of Roxburg, which is in quarantine near Astoria, is being removed by the ship's crew.

The steamer Melville Dollar has finished discharging her San Francisco freight at Columbia dock, and is now engaged in taking aboard a return cargo.

The Magdalene is loading wheat at Montgomery No. 2, the John Cooke at Oceanic, the Morven at the Elevator and the Madagascar at the Irving. The latter will finish this evening. The freight market is still mactive, the

rate gradually declining. Yesterday the German ship Christel was offering at 23s 9d with no takers. At present the average rate stands at about 22s 6d. The Copley completed her wheat cargo

yesterday at Montgomery dock No. 2, and is now in the stream awaiting a towboat to take her down the river. She has on board 59,974 bushels of wheat, valued at \$68,982. The shippers are Kerr, Gifford & The British bark Clan Galbraith, Cap-

tain Barker, has arrived at Astoria from Algoa Bay, from which port she sailed July 15, stopping at San Francisco. Bal-four, Guthrie & Company has her chartered at 30 shillings to load grain for the United Kingdom. The Danish ship Ingeborg, registering

1079 tons and in command of Captvin Kass, reached Astoria, yesterday from Guaymas. She came in ballast and made the passage in 49 days. She is engaged by Balfour, Guthrie & Company to take a load of flour to South Africa.

The jetty, at Gray's Harbor has been completed by Hale & Kern, and the firm is preparing to dispose of the tug Samson ing the work. The Sampson is under lease to the O. R. & N. Company for bar service. The barges are at Columbia

# 376 Men Wanted!

We Treat all Diseases and Cure all We Treat.

We want 376 men suffering from any special disease or condition to come and have a social chat with us during this month. We will explain to them a system of treatment which Dr. Keasler has originated and developed after a whole life's experience in treating diseases peculiar to men. It is a treatment that is based on medical and surgical knowledge; having spent 25 years of his life in treating old and young men. If you will call and see us we will give you FREE of CHARGE a thorough personal examination, towe will give you FREE of CHARGE a thorough personal examination, together with an honest medical opinion of your case. After examining you if we find your case can't be cured I will honestly tell you so, and advise as to the future care of your condition without an extra expense. If we find your case can be sured we will insure you a permanent cure. We will also give you a written guarantee to cure your or refund you every cent you have paid us in case we fall to effect a cure of your disease. We furnish our own medicine, as they are always included in the charges for cure. I attribute my success to promising nothing but what I can do, and always do what I promise.

### Varicocele

Is a condition that man suffers from more than all other condition com-bined, and is the direct cause of nerbined, and is the direct cause of nervous prostration and early loss of mental, physical and all powers, which in turn causes business failures and unhappiness, and unfits one for the ordinary duties and pleaseures of life. I do not claim infambility in curing general diseases, but I do make the broad assertion that I have never failed to cure a single disease of varicocele which I have accepted for treatment by my special method. I effect a permanent cure by my method without a cutting or tying operation or loss of time to patient.

## Drains

And losses that have sent hundreds to the asylum besidus reining body and mind, stopped soewer in from eight to

### Stricture.

Every victim of stricture is familiar with its dreadful symptoms. Obstruction partial disclosure of the canal, frequent and painful scaldings, prestratic irritation and enlargement, and inflamation of the bladder. Stricture can never cuse itself, and often develops rapidly, and in a very short time involves the surcunding tissues and glands, causing untold agony and swift destruction of health. If you place any value whatever upon your life and health, do not neglect having your stricture treated by my special method, as it is painless, quick and certain, and is accomplished without the use of a knife or sound. The stricture of the stricture treated by my special method, as it is painless, quick and certain, and is accomplished without the use of a knife or sound.

Syphalis or Blood Poisoning Is a most loathsome of all diseases, and is a condition that may be hereditary or acquired, and after the system has once been tainted with it, it manifests itself in the form of an ulcer, then pain in the bones, ulcerations of the mouth, throat and tongue, falling out of hair and syebrows, and a copper colored rash on the entire body. It is a condition that no thirty or sixty day method will cure, inasmuch as it is a disease of the blood, and only time and proper medicine will effect a cure. If you have any of the above symptoms I ask that you consult me at once. I care not who has treated you and failed, as I will cure you by my system of treatment just as sure as you will come to my office for treatment. I use no mercury or iodides, thereby insuring you when cured that your bene tissues are not destroyed.

## Rheumatism .

In all its forms, Acute and Chronic, eniarged and stiffened joints, muscular rheumatism, lumbago, sciatica, by my old Dutch home remedy shows signs of improvement from the start, and in a very short time are permanently sured. Eczema

Bladder and Kidney Conditions, the symptoms of which are pains in the back and loins, frequent urination during the night, disturbing you from your sleep, scalding urination, and a thousand other symptoms which you can appreciate better than I can describe. Take a clear bottle at bedtime and urinate in the bottle. Set aside and look at it in the morning. If it is cloudy or has a cloudy settling in it, you have some kidney or bladder disease, and should be attended to before you get an incurable disease, as fore you get an incurable disease, as hundreds die every year from Bright's Disease of Kidneys.

## Listen Old Men

Rough Nests Among the Foliage

CAN ROOST LIKE OTHER FOWL

Found by Sportsmen.

LACHINE, Que., Oct. 29.-There is an ancient saying which accuses the wild geese of being the most inconsistent of created things, because although they tenant the water, the land, and the air, they are constant to none of the elements they occupy. The discovery that they have taken to roost, and even occasionally to nest in trees, will be an additional

count in the charge.

All the guides and old hunters have oticed the extraordinary increase in the number of wolves and foxes this year. And doubtlessly the geese have experimentally made a like discovery. most likely in self defense that the geese

have taken to sitting in trees.

A hunter, lying in his boat under the cover of overhanging branches, recently could hardly believe his eyes when he saw a brood of wild geese circling around once or twice, and then alight in the top of a huge tree on the other side of the bay. After a time he could just make out the bodies of the birds strung along the thick lateral branches. The next day he made his way to the spot and found abundant proof of the fact

that the birds known as perchers are not the only birds that perch. It was evident, too, that it was a well-used roosting place of geese. In another place a couple of sportsmen while still-hunting for deer, found that large numbers of geese had been accus-tomed to spend the nights in the trees on a well-wooded strip of land near several lakes. These men argued that the geese were taking an unfair advantage of them and had by their unnatural tactics

put themselves outside of the protection of the law. Choosing a good point of vantage beforehand they tried pot shots at them by moonlight, with the result that they were able to offer visible proof to their friends of their story of "wood geese." The lucky hunters thought that there were three or four broods in this roosting party, as 40 or 50 birds started when they fired. If but one brood had been reported it might have been set down as the result of a perverted nesting habit on the

part of some parent bird. A young fellow found an instance of such a perversion-if that is the proper term to use—in the spring. He was sur-prised at seeing what looked like a large crow's nest in the forks of a tree only

Upon investigation he discovered nine goose eggs in a nest artfully though roughly constructed out of some debris left by the spring freshets amid the branches. It is owing to this find that one of the brightest of the Mattawa guides has allowed it to become known that he has several wild geese, suitable for decoys, for sale talk season.
