NEWS OF THE LABOR WORLD

What Portland Workers Are Doing for Their Advancement.

The Electrical Workers met last night and held a very interesting meeting. There were about 80 members in attendance. The meeting was presided over by J. J. McEwen. A communication was read stating that the Seattle union and the Sunset Telephone Company had agreed to a salary agreement. The relations existing between the two organizations are of the most pleasant nature, and the indications are that a settlement between the employers and the union will soon be effected. Both interested parties will appoint committees for holding a conference in the near future, when it is believed that all differences will be brushed aside.

AWFUL CRIME.

Father Ruined His Own Daughter at Ballard, Wash.

SEATTLE, Nov. 6.—Word has been received here of a frightful crime perpetrated by a father upon his own daughter at Ballard, in this state. Marion Crisp, 17 years of age, is the victim. She accuses her father of being responsible for her being about to become a mother. The father, Philip Crisp, fled before the extent of his guilt became known. He is being sought all over the Western part of this state. The girl is an orphan, her mother being dead.

The crime became known by the girl leaving home and refusing to have anything further to do with her unnatural parent. She sought shelter with neighbors and told them her story. The father tried first by persuasion and then by force to compel his daughter to return home, but on learning that she had divulged his crime and upon being accused of it, he immediately left for parts unknown, after addressing a letter to the pastor of the Free Methodist Church at Ross, of which denomination he was a most zealous member, in which he stated that he had gone away to die.

THE LONG STRUGGLE ENDED

A Dozen or More Are Yet to Be Considered.

Three railway franchises were granted by the Common Council yesterday. But the public must not get the idea that they are to hear no more about franchises, for there are more than a baker's dozen of them on the list to be considered as soon as the street committee gets ready to take them up. Those adopted yesterday was one to the Portland City Railway Company to Portland Heights, known as the Ford street franchise; one to the Portland Water Power & Railway Company to Sellwood; one to the Northern-Pacific Railway Company, to lay a side track on Front street.

Needham was a member of the North Salem football eleven, and the team met the East School aggregation for a contest to decide the championship in Salem public school football. Early in the game in a mixup the boy fell in such a way as to break the right leg just above the knee. He was at once taken to the Salem Hospital, where he is receiving treatment. The football game was not interrupted by the accident, a young Indian boy stepping into the place vacated by the injured player.

OREGON'S PROSPERITY

INDICATED BY THE RECORD SHOWN BELOW.

Fifty-four in Three Days—Who Got Them and What They Were—Don't fail to Investigate the Eilers Piano House Co-operative Plan.

Times are indeed prosperous in Oregon. And while times are good in almost every section of the United States there is probably no section of the country that is enjoying a greater share of the good times than is this great state of ours. Pianos have always been considered a luxury, and although at this day no well-appointed household is without one, a piano, nevertheless, is not purchased unless people are in prosperous circumstances. Therefore the record of piano-selling at Eilers Piano House is undoubtedly the safest indication of Oregon's prosperity, as it is also a positive proof of this state's ability to furnish patrons the very best instruments at prices and on terms that are not obtained elsewhere. Last Saturday 23 sales were recorded on the books of the company, as follows: W. J. Smith, a Kimball organ in oak case. C. W. Dyer, a fancy Bush & Gerts mottled mahogany upright. Mrs. B. Zuercher, organ of Oregon City, a fine dark mahogany-cased Chickering. Dr. W. G. Valentine, fancy mahogany new Kimball upright. A. L. Porch, a mottled walnut Victor. W. H. Palmer, an oak-cased Whitney. W. S. Hopkins, a Co. 100 upright. Sisters of Zion, Lewiston, Idaho, a fancy Chickering upright for concert purposes, and one of the medium-sized Hilda uprights for the practice room. Mr. F. Callister, a fancy Kimball organ. Fred G. Wilson, of Union, a fancy new-scale Kimball piano. W. R. Anderson, of Reuben, a fancy walnut-cased Needham. Mrs. M. Robinson, a fancy new-style H. M. Cable. Mrs. Grant Daugherty, of Oregon City, a fine Needham, nearly like Mr. Anderson's. Mr. J. Richardson, one of the many-toned Crown Orchestral pianos. Clara J. Colla, a fancy Kimball organ. C. S. Hawes, Pacific Queen organ. F. J. Johnson, Pacific Queen organ—Eilers Piano House own make. A. F. Sizer, the new-style, medium-sized Hilde upright piano. S. A. Dray, a Sherwood upright piano. Alexander Honk, a fine Pacific Queen organ. Mr. R. M. Needham, a Pacific Queen organ. Monday the following sales were reported: C. S. Smith, a fancy simple Brinkerhoff piano. C. G. Lewis, a Jacob Doll, large upright mahogany piano. James M. Johns, a fine, new Weser Orchestral. Mrs. F. Moore, a fine new H. M. Cable. Mrs. Brennan Berg, a fine, new-scale Kimball piano. Mrs. J. W. Fox, a Kimball organ. Mrs. M. B. Leach, a Pacific Queen organ. Mr. P. Jacobson, of Colfax, Wash., a fine, fancy English mottled walnut-cased Weber upright—one of the finest, highest-priced instruments ever shipped to Colfax. Mr. C. F. Ledbetter, a Regal organ. Mr. J. H. Lewis, a large cabinet grand Wheelock. Similar instruments to Mrs. L. Schmuck and Mr. Arthur Bronson. A nearly new Kingsbury piano was sold to Mr. R. G. McLeod. A fine Kimball upright was secured by Miss Gertrude Howes. Mrs. M. A. Cornelius also purchased a fancy mahogany upright. Mrs. H. Jones, a fine Kimball organ. Mrs. J. W. Eresch, Kimball organ. Tuesday's sales were as follows: Mrs. C. Bangham, at University Park, one of the finest mottled mahogany Weber uprights. Mr. H. R. Anderson, a Durand organ. Mrs. Mary Hajack, a fancy Weser Orchestral upright piano. Mrs. H. S. Speer, another fine Orchestral grand Weber upright. Mrs. E. Christian, an elegant new baby upright piano in fancy mahogany case. Mr. P. B. Doak, of Wagner, an upright piano. Mrs. H. Hellenborn, a fine simple F. G. Leitch piano in mottled mahogany case. Up to noon on Wednesday the returns were as follows: A fine Draper mottled walnut upright to Mrs. J. L. Dempsey. A beautiful mahogany Schumann upright to Mr. P. A. Finest. A fine mottled mahogany Brinkerhoff to Miss H. Finn. A beautiful large orchestral grand sample Stoger upright in a fancy English quarter-sawn oak case, to Mr. Charles P. McCarty, the well-known transfer man of Vancouver, Wash. A fine simple upright mahogany-cased F. G. Leitch piano to T. F. Pearson. A Crown Grand, quarter-sawn oak case to Mr. J. E. Lewton, of Mount Tabor. A fine Kimball chapel organ in solid walnut case to the Old Fowls Lodge, No. 117, at Felita, Wash., selected by Mr. Circle. There is bound to be an advance in piano prices, owing to the fact that railroad companies have increased the freight rates very materially, and on account of the great increase in manufacturing cost through higher wages of experienced piano workmen. Eilers Piano House secured the bulk of this year's supply of pianos during the dull summer months, shipping them during the then prevailing low freight rates prior to October 1, and is therefore in a position to give buyers the advantage of all these tremendous savings thus effected. But as all good things come to an end, so these conditions must end sooner or later, and for this reason it will certainly pay to purchase a piano now.

WANT RIVER COMPETITION

A petition signed by H. W. Corbett, Charles E. Ladd, C. W. Nottingham, B. M. Lombard, Lang & Co., Mason, Ehrman & Co., Allen & Lewis, J. C. Alingworth and about 100 others, was presented to the Board of County Commissioners yesterday asking that a county road be established from Fairview to the Columbia River. T. Scott Brooke, in presenting the petition to the commissioners, said that the O. R. & N. Co. discriminated against Fairview by charging the same freight rate from Portland to the Columbia River as it did from Portland to The Dalles. If the road asked for was built it would give the people river competition and a ferry would be operated across the river to La Camas and the Washougal country. He argued that if that was done people in that section would come to Portland to trade instead of going to Vancouver. Mr. Brooke said he owned 1,200 acres along the line of the proposed road and that he would give the right of way.
