

Nothing So Valuable

To mankind as good eyesight. Don't abuse your eyes by getting the wrong glasses when you can just as well get the right ones. We fit glasses and fit them right. Don't go to unreliable opticians for your glasses. They know nothing about optics. We fill ocellist prescriptions.

A. & C. Feldenheimer. Manufacturing Jewelers and Opticians. Corner Third and Washington Streets.

RELIABLE MACHINERY

THERE is always one right answer to every question—one right solution to every problem.

Have you a machinery problem to solve—a machinery question to settle?

Are you putting up new works, or does your present machinery need changes?

We have large facilities and we are full of ideas and resources, so that it is very likely we can solve in just the only right way any machinery difficulty you may bring to us.

WILLAMETTE IRON & STEEL WORKS

HARD MATTER TO ARRANGE

Many Questions Would Be Injected Into Special Session.

State Senator John D. Daly of Corvallis is in the city. "To get out of the rain," he says. At the Imperial this morning Senator Daly expressed the opinion that there should be no special session of the Legislature.

"I don't see that it would do Portland any good," said Mr. Daly. "There is and can be no guarantee that the Legislature will devote its time to the Lewis and Clark appropriation and the new charter. One thing that has been overlooked in all this discussion is the question of the organization of the Legislature. This matter is a very important one, as

the organization of the special session will hold for the regular session later on. It will occupy considerable time and I don't see if there is an atom of advantage to be gained by anybody should a special session be called.

"Corvallis and all the Valley towns are prosperous. The Republican party is suffering from many factional fights and personal jealousies just now, but I trust these will be settled after a while."

HEINZE'S MEN IN COURT.

BUTTE, Mont., Nov. 7.—Judge William Clancy of the district court and P. A. O'Farrell, the man in charge of Heinze's paper, the Revellie, were arraigned in court today on a charge of criminal libel. The charge grows out of an affidavit made by Clancy and published in the Revellie, charging that in March, 1899, D. J. Hennessy had attempted to corruptly influence Judge Clancy in a decision of the Boston & Montana receivership case.

Queen Bee is indeed Queen of all Cough Drops. Sold by druggists and confectioners.

How Does This Look To You?

ANNIE MILLER, of the French Bakery, 290 Harrison Street, purchased a BOY'S OVERCOAT at our SALE for \$2.95 and received a present of a FIVE-DOLLAR BILL.

A. C. THOMPSON, 333 Everett Street, bought a MAN'S OVERCOAT at our SALE for \$12.50 and received a present of a TEN-DOLLAR BILL.

J. O. WING, Mt. Pleasant, Wash., bought a MAN'S SUIT at our SALE for \$12.50 and received a present of a TEN-DOLLAR BILL.

Above is the result of Monday's Sale. Don't you think it about time you were taking advantage of the SALE and getting your share? REMEMBER, always the BEST Clothing values in the city.

This is How It Is Done

With every TEN MEN'S SUITS or OVERCOATS we sell, we GIVE AWAY a TEN-DOLLAR GREENBACK.

With every TEN BOYS' SUITS or OVERCOATS we sell, we GIVE AWAY a FIVE-DOLLAR GREENBACK.

WHEN YOU SEE IT IN OUR AD, ITS SO!

THE ST. HELENS MINING DISTRICT

A. Hooper Returns From There and Tells What is Being Done.

A. Hooper, the well-known Portland mining man, has returned from an extended trip in the St. Helens mining district. He reports that the properties are showing up to advantage under development, and that the owners are more than pleased with the outlook.

The Sweden Mining Company, he reports, has recently erected a sawmill and is now installing a compressor and air drills in its property. The company built a wagon road from Spirit Lake, over which to transport the heavy machinery, and has already taken in supplies for the winter. About 15 or 20 men are in its employ. It is the intention to continue development work on the Sweden and Denmark.

Contract work is being completed on the Chicago and Golden Crown groups. The vein on the latter has widened during the past month from 12 to 20 feet, and the ore is high-grade copper. A crosscut through the ledge of the Washington Treadwell mine, owned by the St. Helens & Galien Companies, shows it to be 50 feet in width, of good, clean ore. Considerable improvement is being made on the Jumbo property, and a contract has been let to do some sinking on the ledge of the Hidden Treasure, which is a huge dyke of low-grade ore of paying value. The properties mentioned, and many others will be working all winter. Mr. Hooper will return to the district on Saturday.

WITH THE NAVY.

The Program of Mimic War Is Made Public.

WASHINGTON, Nov. 7.—Rear Admiral Taylor has made public the following regarding the coming movements of the mimic war fleet in the Caribbean:

"The European and South Atlantic squadrons will combine at Trinidad the last week in November, and the North Atlantic squadron will arrive at Culebra about the same time.

"The search problem will follow, and will be completed about December 10, by which date the entire fleet will rendezvous at Culebra. From December 10 to 19 the time will be occupied in perfecting the details of organization and in exercising. From December 19 to 29 the ships will be distributed among the various parts of the West Indies, for the purpose of giving liberty to the men, returning to Culebra December 29.

"After reassembling the fleet will engage in exercises, maneuvers, and a regatta, directed by the commander-in-chief, the purposes of which are stated as follows:

"To make the plans for mobilizing a large fleet a simple matter of routine; to engage in a more comprehensive search problem than was possible during the summer maneuvers; in the several squadrons to insure uniformity of routine and methods of progressive instruction; to develop the gunners by systematic target practice, and to exercise the officers in tactical maneuvers of a large fleet."

UNITED STATES COURT.

The case of the United States against Peter Beaudan and others, charged with perjury in land cases, came up this morning before Judge Bellinger.

The case of George Simmons on the same charge will follow that of Beaudan's.

Members of the trial jury in the case of the Bentley Construction Company vs. Miles C. Moore, assignee, were paid their mileage and other fees this morning. Most of them will leave for their homes this evening.

Petitions in bankruptcy were filed late yesterday afternoon by Isaac Porter and Josephus Thompkins. Both hearings were set for November 25 before Referee in Bankruptcy Alex Sweek.

The hearing of Jacob Nusbaum, who petitioned the court to be adjudged bankrupt some time ago, is set for this afternoon.

NEW LUMBER CONTRACTS.

(Journal Special Service.) SEATTLE, Nov. 7.—Major Bingham, United States Army Quartermaster, will reject all bids recently received for lumber to be used in building army barracks in the Philippine Islands. Reconsideration will be gone to and other bids received. No reason is given for the change.

"LOCOMOTIVE" IS DISBARRED

Charges of Professionalism Are Upheld.

Among those interested in the sport of the gridiron, the disbarment of W. W. Smith from the University of California is arousing a great deal of interest. The charges against him are those of professionalism. Last year Smith was the coach at the University at Eugene. He left the Junior class at Berkeley to come North and manage the eleven. For this he received all expenses, which amounted to \$450. This, the board of athletic arbitration of San Francisco decided, was playing for money, and therefore put Smith in the professional class. The article under which he was found guilty is as follows: "An amateur is defined as being one who has not entered in an open competition for a stake, public money, admission money, or entrance fee, or under a fictitious name; or has not competed with or against a professional for any prize, or where admission fee is charged; or who has not instructed, pursued or assisted in the pursuit of athletic exercises as a means of livelihood, or for any gain or any employment."

WASHINGTON AND WHITMAN. WALLA WALLA, Nov. 7.—Everything is arranged for the grilling contest tomorrow between Whitman and the University of Washington students. Both teams are in fine form, and both are determined to win. The game will be the fastest played here this season.

WILL MEET TOMORROW. The Hill Military College and the Portland Academy eleven will line up on Mt. Tom tomorrow afternoon. A great deal of rivalry exists between the two teams, and a hotly-contested game is expected.

SPRINTING ESSENTIAL. One of the most important things in a football game is sprinting, so states a well-known local player. "A speedy runner is the man that often wins the game. Times without number I have seen a game go against a team for a greater part of the playing period, and suddenly a fleet runner will shake himself clear and go down the field for a touchdown, winning the game. The practice of falling on the ball should be given a great deal of attention during training. The coach will also see that a man does not relieve the trainer of his duty in the matter.

"Falling on the pigskin may be done in various ways. First, stand by the side of the man and roll the ball out in front of him. Last, stand directly in front of him, stand about 20 feet away, and directly in front of the player. Roll the ball rapidly toward him. He will be forced to fall on the avoid as it comes toward him. Lastly, stand on one side, say about 20 or 30 feet, and roll the ball on a line that will carry it about four feet in front of him. He must then throw himself on it as it bobs past him."

AMONG THE BOXERS.

The Reliance Club of Oakland has matched Johnny Reagan and Harry Forbes for the December card. This battle will be for the bantamweight championship of the world.

The Hayes Valley Club will sign in amateurs Monday night at the annex for their show, which takes place on the 14th. Louis Long will meet Spider Welch at Stockton this month. "Charley Landy, who has been fighting around Denver and Salt Lake, and who claims 17 "wins" to his credit, is in San Francisco and looking for a scrap with some ambitious waterweight. His last three fights were contested at Bodie, Cal., where he beat Jim Ford in six rounds, Martinez in five rounds and Roberts in three rounds. If Landy is unable to get a match he will make an effort to visit Australia and fight Snowy Sturgeon.

FOOTBALL FIGHT AT LICK SCHOOL

Principal Rules Scholars With An Iron Hand.

SAN FRANCISCO, Nov. 7.—The California School of Mechanical Arts, or the Lick School, as it is commonly known, is in the throes of a revolution. It is a war with the faculty lined up against the vigorous Lick football team and followers. The first victory is claimed by the students. The Lick team played a game with the Mission High School boys in defiance of Principal George A. Merrill's order, prohibiting certain members from participating in a football contest under the school name. Then followed the dismissal from the school of several members of the team who disobeyed his order prohibiting them from playing. Now, the students have sent a petition to the Board of Directors of the school asking them to renege the expelled football players.

The boys claim that Principal Merrill has exceeded his authority in expelling them for what they do on a holiday and miles away from the school premises.

But the principal is not uneasy. He is confident his course is right and in justification of it he said: "I hold that I have the same jurisdiction of the football team of this school as the faculty of the University of California has over the one of that institution. I did not forbid the boys to have a team nor have I gone so far as to say that the Lick students cannot play a corps of football players in the Academic Athletic League, a simply prohibited scholars deficient in their studies from participating in a contest game as a member of the Lick School team."

The Lick team is scheduled for four more games by the Academic Athletic League. The students are all with the football players and say for the honor of the school the principal should have permitted the team to fulfill these engagements. The team says it will still make the Pittsburg Company games, and the purpose is to economize operations. The successful termination of the deal will end the trade rivalry which has existed between the two companies, either under or on the surface. Early this year the two interests so prolonged the unsatisfactory negotiations for renewal of the contract of other years, whereby the Pittsburg Company took the output for rail shipment of the River Company, that they split over it.

Through the failure to come to terms former President Frank M. Osborne, of the Pittsburg Coal Company, stepped in and contracted for the rail output of the River Company.

This coal is now being furnished from seven mines at the rate of 125,000 tons a month.

The negotiations which are now on to bring the two big interests together, are understood to be between two men—President Francis L. Robbins of the Pittsburg Coal Company, and Col. J. B. Finley, president of the River Company. A day may develop something more tangible. The matter has not yet gone before the directors of either company, as far as can be learned.

The plan will further provide for some of the directors of the River Company being added to the already large and strong directorate of the Pittsburg Company.

When the two big companies were formed at the same time there was an effort to make them one, but this was in part blocked by the purpose of the River Company to float a bond issue of \$10,000,000.

Since then several efforts have been made, but always on different lines from those now intended, and which are more promising of success. Mr. Robbins and Col. Finley came to terms it will be no difficult matter to secure the approval of the directors and stockholders of the two companies. Rumors of a pending deal had already reached Fourth avenue today, and the

UNCLE SAM ON BOXING.

WASHINGTON, Nov. 7.—The War Department is wrestling with a problem on which it seems reluctant to commit itself. Some time ago the commander of the Department of Missouri requested a decision from his superiors on the right of an enlisted man to participate in a prize fight. In reply he was informed that there are some subjects as to which it is impossible for the War Department to prescribe a uniform rule, and that each case of them must be dealt with on the strict law of the case. It is a matter of common information that local sentiment is divided in respect to contests of the kind described, and this adds to the difficulty of framing a rule where there are no legal obstacles in the way of its preparation.

BAKER CITY AND LA GRANDE.

BAKER CITY, Nov. 7.—The La Grande High School team will play the local school team here tomorrow. Both elevens have been put through a sieve of hard practice, and it is thought will make a good showing. This is the first of a series of games to be played in this section.

TO TOUR TERRITORIES.

WASHINGTON, Nov. 7.—The Senate committee on territories is to make a tour through Arizona, New Mexico and Oklahoma for the purpose of looking into the justice of the claims of those territories that they should be made states. Senator Beveridge is on his way here from Indianapolis and will make arrangements for the trip.

THEFT IS CHARGED.

TORONTO, Nov. 7.—Because it is claimed he stole \$35,000 from the public treasury, of which he was solicitor, Alfred McDougall is held without bail here. An investigation is being made.

A Lewis and Clark Seal.

Jager Bros. the jewelers and opticians on Morrison street, are the first to adapt the Lewis and Clark Exposition seal on their printed envelopes. The seal is very prettily designed. Mount Hood is in the center and a view of Portland in the foreground. It makes a neat heading for envelopes, and Jager Bros. are to be commended for suggesting it.

BIG COAL DEAL.

Merger is Under Way to Control the Output.

PITTSBURG, Nov. 7.—Negotiations are under way for a merging of the Pittsburg Coal Company and the Monongahela River Consolidated Coal & Coke Company, with their combined authorized capitalization of \$10,000,000, and assets of \$120,000,000.

This consolidation of interests will launch far the strongest bituminous concern in the world. The combined coal output of the two concerns is close to 30,000,000 tons a year. The plan is to make the Pittsburg Company lessee, and the purpose is to economize operations.

The successful termination of the deal will end the trade rivalry which has existed between the two companies, either under or on the surface. Early this year the two interests so prolonged the unsatisfactory negotiations for renewal of the contract of other years, whereby the Pittsburg Company took the output for rail shipment of the River Company, that they split over it.

Through the failure to come to terms former President Frank M. Osborne, of the Pittsburg Coal Company, stepped in and contracted for the rail output of the River Company.

This coal is now being furnished from seven mines at the rate of 125,000 tons a month.

ELLA HAMISCH IS AWARDED \$6500

For Injuries Sustained on Railroad Turntable at Pendleton.

After a brief trial in the United States District Court, the case of Ella Hamisch against the Washington & Columbia River Railroad is ended. The jury in this case returned a verdict late yesterday afternoon, awarding the sum of \$6,500 to the plaintiff.

The case arises out of negligence on the part of the railroad company in not locking a turntable operated by them in Pendleton, causing Ella Hamisch, a five-year-old little girl, who was playing with other children on the turntable, to receive severe injuries. The injuries proved such as to necessitate the amputation of her foot.

The original suit was brought for \$50,000, the complaint contending that the railroad was criminally negligent in allowing their turntable to remain unlocked, thus bringing about the maiming of a human being for life.

The accident occurred last April, and the overwhelming evidence as brought out in the course of the trial proved the right of the plaintiff to damages, the only question being the amount.

Judge John J. Ballew and John McCourt, of Pendleton, were the attorneys for Ella Hamisch, and Carey and Mays for the defendant. All attorneys did brilliant work in both cross-examination and pleading, but as before stated, the preponderance of evidence in favor of the plaintiff proved too much for technicalities of the law and pleading.

CORNISH FELL.

NEW YORK, Nov. 7.—On the stand in the Mollineux trial this morning, Cornish became muddled in his testimony, broke down under the sharp cross fire to which he was subjected and gave out conflicting statements. Much was expected from this witness and it was hoped Mollineux could prove an alibi.

The case has been adjourned until Monday, the defense having rested. Monday both sides will sum up and the matter will then be placed in the hands of the jury.
