

You will notice that this man is troubled--which, no doubt, can be applied to you when the question of Lighting your home or office is brought before you.

There's No Reason Why It Should When All the Facts Are Considered

You are, no doubt, aware that no house is complete without ELECTRIC LIGHTS The conveniences are manifold. In the first place:

YOU NEED NO MATCH But Just Press the Button

No smoke to spoil the paper or tint in your house. Consult your wife about this. All her friends use the ELECTRIC LIGHT. Remember that you pay only for what you use nothing more.

Give us the opportunity and we will please you on the lighting question.

Allow us to send our solicitor to explain the merits of the ELEC-TRIC LIGHT over all other modes of lighting.

Portland General Electric Co.

SEVENTH AND ALDER STREETS

Shippers Say Oregon Prices Are High.

Lard Prices Unable to Stand at Quotations---Decline a Quarter Cent.

The potato market is causing quite a bit of uneasiness among the farmers of this vicinity. Quotations are much lower than at this period last year, and the outlook is not very pleasant to picture. Large crops in the various states that Oregon is generally called upon to supply has weakened the market considerably. A prominent Stockton, Cal., dealer has this to say in writing to a local

"It is too early in the season for us to use any Oregon Buroanks. There has been an unusually large crop in this vicinity this year and they are giving general satisfaction. Ruling prices are very low-the present quotations being weight. The lower grades are selling as tions we do not think it advisable to try the Oregon stock at the figures you specify. There is too much difference between your prices and the ones quoted

"The difference between the Oregon quetations and the enes at Stockton or Sacramento, Cal., is so great that we do not think that we can handle your product at this time. You quote us at 65 cents, while we can buy very good California potatoes at 45 cents and onions at 55 cents per hundredweight. When the present surplus of California stock reduced we can possibly handle some of yours at quotations."

SUGAR IS STIFF. Since the change of 20 cents a hundred quoted in yesterday's Journal on sugar, the market is unchanged, but prices are ruling strong with the prospect of an

early advance

LARD PLAYS SEE-SAW. A decline of a quarter cent is noticed today in the lard market. Stocks are in a very unsettled condition, and it is very hard to predict which way quotations will jump. No change is recorded on Eastern or local packed meats today.

FLOUR AND GRAIN WEAKER As exclusively mentioned in yesterday's Journal, effe quotations on grain and flour made a sensational advance. Today the market is quite weak in sympathy with the large declines made in the Chicago and San Francisco markets yesterday. However, no changes were

made today. cars of California oranges were received by local wholesale dealers today and are selling well. The local market is glutted with Chinese pheasants today, the receipt of about 600 of the birds this morning overstocking the market. Quotations remain at \$5

PORK PRICES UP.

An extra demand for pork today sent the quotations on that product upward. Receipts the past week have been very light and everybody wants to buy pork. TURKEYS ARE HIGHER.

day on account of the very small receipts. Some more advances are expected the fore part of next week. Today's quotations as revised are as

Wheat—Walla Walla, 69@70c; blue-stem, 75c; Valley, 72@73c, Barley—Foed, \$22.00; rolled, \$23.00@ 24.00.

But Armour Interests 4-Choice Bargains-4 Beared It Slightly.

Gossip of the Stock Broking World and Markets Foreign and Domestic.

CHICAGO, Nov. 22 .- The Record-Herald says. Vescolar's developments in the wheat pit were about as generally antici pared. Armour interest was evidently anxious for some further decline anmade a demonstration against the market in a small way by selling December. Th general mood was bullish, but with the leading interest so all-powerful the small man was not inclined to venture. There was a much smaller trade than on Thursday, a slight further decline in May and 34c break in December. As the Armour people recently bought the December when it was almost 3c under the May they can well afford to part with some of it now at 1c under. There will be no surprise if wheat drags along for a while or perhaps gets some lower, but there will be a good deal of surprise if the leaders are not found quietly taking back their recent May sales when opportunity offers December corn longs have been selling for a week and the leading December long has been going into January at about 10 cents discount. Weare has been most conspicuous in this operation selling the December day after day and buy-ing the January. This December turn has been a very neat and profitable one with the price up about 15c from the low point last month and not much off from money in it have been Eliwood. Lambart. Cudahy and St. made already in January turn is not to be despised, since we January it has moved up from 43c to \$ 125 -Fine lot, Paradise Spring Tract, over 50c.

New York Summary. NEW YORK Nov. 22.—London market \$ 750 closed. Proposed to settle hard coal dis-pute outside of government commission. Rumors are that the arrangement be-tween the Interborough Company and Manhattan will ultimately involve New York Central. Absorption of floating supply of Reading continues. Reported that Lehigh Valley will issue \$6,000,000 col-lateral trust bonds. Ease in time money attributed to loaning of early Baltimore & Ohio subscriptions. Advance in English bank rate considered likely in cember. Banks have gained \$950,000 from treasury. Bradstreet's and Dun's reviews both say favorable conditions still govern the trade situation

Railroad Stocks.

NEW YORK, Nov. 22 .- The Sun says: While no authoritative announcement was nade regarding the much talked of Manhattan deal, Wall street has little doubt that Manhattan has passed into the hands of the Interborough Rapid Transit Company, although considerable skepticism is

expressed as to whether the terms of proposed lease or contract justify the present price for Manhattan stock. The general market today was very strong from beginning to close. St. Paul was the leader among the railroad stocks as usual, scoring a rise of nearly seven points. There were sumors that the rights of the stock, whose influence in the stock market has been constant ever since the directors authorized an increase of St. Paul's capital stock some weeks ago, were at last to be distributed, but these rumors were not confirmed and probably arose naturally out of the market's action. Rock Island issues were steady on enormous transactions. A. C. P. was a feature among industrials. ,

A. D. Marshall, Agent, 821/4 3d St

7979 MEN WANTED

of any disease we take.

It is experience and memory which enables a man in any line of business or profession to agree to do a certain thing for a stated amount in a stipulated time and not lose money on the contract. With 25 years' agreeing to Cure Diseases in certain time, Dr. Kessler has cured hundreds of cases in the time he said, and below he gives the usual time required to cure a few diseases named. First, we would say to regain the great natural power of inheritance physical and perfection is the one unceasing desire of the man who has lost his greatest desires of life through the ravages of disease. He often imagines himself incurable simply because he has been treated without beneficial results. If this has been your experience, my afflicted fellow-man, (whether young or old, I ask you to honestly and freely consult old Dr. Kessler's treatment of diseases and weaknesses peculiar to the male. Of the legions of men who have recently been treated by him, not a single failure nor an unpleasant result has been reported. What he has done for others he can do for you. He is reliable in all his dealings Has been running the old St. Louis Dispensary for 25 years.

He Cures Varicocele in 10 Days.

Under his treatment this insidious disease rapidly disappears. Pain ceases almost instantly. The pools of stagnant blood are driven from the dilated veins and all soreness and swelling quickly subside. Every indication of Varicocels soon vanishes, and in its stead come the pride, the power and the pleasure of perfect health and restored vitality.

He Cures Stricture in 27 Days.

His cure dissolves the stricture completely and removes every obstruction from the urinary passages, allays all inflammation, stops every unnatural loss, reduces the prostate gland, cleanses and heals the bladder and kidneys, invigorates the organs and restores health and soundness to every part of the body affected by the disease.

He Cures Rupture in 34 Days.

It will be to the interest of every one who is ruptured to come and see him before throwing any more money away on trusses. His method of treatment will contract the dilated rupture-opening and restore it to the normal condition. There is no operation which will produce the same satisfactory result, nor does the treatment interfere with your usual occupation. Perfect protection from the very first day of treatment. It matters not how long you may have been ruptured, his treatment will cure you, and cure you permanently. He has many patients in New York and vicinity who can certify as to the efficacy of this treatment, and after years of suffering from this condition are more than glad to be able to tell others of the relief obtained.

He Cures Syphalis or Blood Poison in 97 Days.

His special form of treatment for this disease is practically the result of his life work, and is indorsed bythe best physicians in this and foreign countries. It contains no dangerous drugs and forces out every particle of impurity. Soon every sign and symptom disappear completely and forever. The blood, the tissues, the flesh, the bones and the whole system are cleansed, purified and restored to perfect health and the patient prepared anew for the duties and pleasures of life.

Nervous Diseases Cured in 64 Days.

His ourse for feeble men stops every loss of vigor and builds up the muscular and nervous system, purifies and enriches the blood, cleaness and heals the bladder and kidneys, invigorates the liver, revives the spirits, brightens the intellect, and, above and beyond all, restores wasted power.

Reflex Diseases Cured in 72 Days.

Reflex is on you caught from other diseases. For instance, vital weakness sometimes comes from Varicoccle or Stricture, innumerable blood and bone diseases often result from contagious blood taints in the system, or physical and mental decline frequently follows impotency. In treating diseases of any kind, he always removes the origin—he cures the case. Cured in from 20 to 73 days. to 73 days. Neuraigia, Rheumatism and old Sores, Ulcers or Cancer, Hydrocele, Varicocele, Pimples, Blotches, Ecema, Itch, Piles. Tape Worm removed in 4½ hours. When in our office, ask to see some Tape Worms from 10 to 35 feet long.

Correspondence.

Corner Second and Yamhill Streets, - - - Portland, Oregon

One personal visit is always preferred, but if you cannot call at his office, write to him stating your case fully. Hundreds treated at their homes. Medicines are securely packed. No one can find out your trouble. Hours—S A. M. to 8 P. M.; Sundays, 11 to 12 A. M. Address, enclosing 10 2-cent stamps. J. HENRI KESSLER, M. D.,

Steel Combine Institutes War of Extermination.

Price of Tubes Reduced---Smaller Mills Defy the United States Steel Corporation.

CLEVELAND, Nov. 22.-The United States Steel Corporation has commenced a war upon the independent producers of The evident intention is to drive the independents out of busi-

Some time ago the first sten was taken in that direction when a reduction in the price of tubes was amnounced by the corporation. On inquiry it was found that the reduction had little or no reference to the market conditions, but was a display of antagonism between the larger

and the smaller mills. It is now evident that a war of extermination against the smaller and socalled independent mills has been com-menced. The fight dates back to the time when the United States Steel Corporation took over the Shelby Steel Tube Company and wanted to buy in the other tubing mills.

SOME FOUGHT THE COMBINE.

Most of the independent companies, however, preferred to remain independent and withheld their property from the combine. The United States Steel Corporation did not commence action immediately, as it had no need then of eliminating this competition and for the safe conduct of business the smaller mills

Even at the present time the market condition does not intimate that the products of the smaller mills is cumbering in the least. The time has now come when the United States Steel Corporation will need room on the general mar ket where it may dispose of the produc tion of its new mills which are to be erected at Duquense and at Loraine.

CORPORATION'S PLANS. The original plans of the Steel Corpora ion were to buy the smaller tube mills, which they did, but they intended get-ting the older and less, adequate mills also, and after having obtained these the intention was to dismantle and abandon

The owners of these mills, however, having a prejudice against the central-ization of control of industries of that sort decided to retain their old mills. The corporation must now have them off the field. The first reduction in prices was marked and others will follow.

Newspapers Win.

Southern Oregonian: While politicians may rightly claim that issues determine elections, it is a fact that the pary with the greatest newspapers behind it is the one which will succeed. New York City is about the only exception of note. There Tammany cannot be cowned, although nearly all the journals are Republican. However, their influence is felt throughout the state, where the Democratic majority given in the city is usually over-The newspapers make successful
